## THE JOURNAL.

Correspondence of the Journal.

PHILADELPHIA, September 8, 1855. We are at last assailed on all sides by the note of preparation for the contest next month. The Administration, or old Locofoco party have come out with their State Ticket for the city-and a miserable farce they have made of it. On the whole ticket there is not one name that would add any lustre to our Legislative halls, or reflect the slightest credit on the intelligence of our citizens in their choice of representatives; and if there was any probability | Nothing majority. of their election, it would be a disgrace to let their names stand in nomination. But, faith in the integrity of this Gibraltar of the American party, will not let our friends at a distance | gress. In Kentucky, one less; in Tennessee, suppose we are sleeping here. No indeed .-"Still water runs deep," and our unfortunate President will receive another grand rebuke | was a member of the last Congress. for infan ous proceedings, within the next five "unterrified Democracy."

Riot and bloodshed appear to be the component parts of Locofoco organization and misrule, and to enable the rowdy portion of our city more fully to have their own way, a base attempt is being made to reduce the police force, under the guise of "reducing the expen- for the first, and twenty-five cents for each addises of the city;" and foremost in this work of tional insertion. A liberal deduction made to "reform," stands a representative of the old district of Moyamensing, (which has ever been noted for its firm allegiance to Liquor-selling, Locofoco rule and rowdyism) who never loses an opportunity to east censure on the head of our police force-the Mayor. Only three days since a so-called Democratic meeting ended in a riot and murder, and disturbances have characterized all their gatherings. When shall we be freed from the tyranny of such masters?

The Liquor League and Foreign Party are joining hands to overthrow the mighty 'SAM.' Meetings have been held to combine interests and provide for unity of action between them. O Democracy! hast thou come to this? Shame that such a fate should e'er be thine. This catering for foreign influence, and courting the debased drunkard and supporting him in his appetites, is too degrading a position for any honorable man to occupy, and serves to exhibit in a proper light the miserable shifts, our fallen administration is resorting to, to prop up a thoro'ly rotten structure. The overwhelming defeat in Vermont of this faction, shows THE JUNIATA COOK STOVES-20 of these that light is breaking in on us from the East, and ere long even benighted Missouri will feel the vivifying influence of its rays.

Intelligence has reached here of the nomination of an occupant of Moyamensing Prison for Canal Commissioner by the Republican convention in Pittsburg. This sounds rather strange, yet for policy, it may be well, but the question will be evaded. Is Passmore Willjamson qualified for the duties of the office? I know not. He is generally considered a smart, energetic young man, and thoro'ly opposed to Pierce, Atchinson, Stringfellow & Co., so that there may be a pretty strong vote for him, but if Ex-Gov. Reeder run in opposition the chanees are doubtful. A week or ten days will show some further light on the matter.

The distressing news still continues to reach us daily of the devastation of the Yellow fever at Norfolk and Portsmouth, Va. It really seems as if nothing but absolute abandonment of both cities will abate the disease. Most liberal as our citizens have been, still the call is for more assissance. Are there not some of payable in Cash on delivery, by addressing F. G. FRANCISCUS your men of wealth, who can aid us? Can you at Norfolk has not been presented to the eye send something?-The Treasurer of the Fund, care for any amount of money sent him.

The Produce of the West is fast pouring in upon us. Flour is arriving here on the Penn. R. R. at the rate of about 3,000 barrels a day. One day this week the receipts at New York | number. The semi-annual volumes, neatly bound were over 10,000 bbls. Is there any wonder that Flour is declining? Sales have been made | their back numbers uniformly bound, at 25 cents fuere as low as \$6.75, tho' the average price is each. Nine volumes are already bound. about \$8. By letters and conversations with Western men here, we continue to receive the most glowing accounts from the harvest thro'out the West, and yesterday a Merchant from Iowa told me that never were the prospects for their State so encouraging as they are now,every one seems full of life and business; and | which must be paid quarterly in advance, is three in a word they were doing well. OLIVER.

P. S. The Supreme Court has this day refused to grant the Habeas Corpus asked for by Passmore Williamson. It must be left, therefore, for the People to decide the question, and seal the fate of every judge upon that Bench. O.

These five States sent six members to the weeks. "Sam" is not dead, but has both his last Congress, who voted against the Nebraska Bill, viz: Messrs. Hogg, Cullum, Etheridge, eyes wide open, and in silence is observing and Taylor, of Tennessee; and Messrs. Rogers what is going on around him, -and when he and Puryear, of Norh Carolina. All these speaks, his thunder tones will startle even the except Rogers, were candidates for re-election. Puryear from North Carolina, and Etheridge from Tennessee, have been elected.

These remedies comprise lifferent courses for diseases of the internal, middle and external ear, and bave been pronounced by those celebrated surists, Drs. Cramer, of Ber lin, Itard, and Delan, of Paris, Curtis, Pilcher and Yearsly of London, as being the MOST WONDER-FUL and EFFECTUAL ever applied for diseases of the internal and middle ear. Dr. LeB., WAP of cures from those who had been DEAP AND DUMB, and whose hearing is now completely restored and are new enabled to learn the language. The names of 2,700 persons who have been cared by Dr. Lell., may be seen on application. Patients, by sending a description of the case, can have remedies sent to any part of the United States.

In case of mucus accumulations in the Eusta-chain Tube and Tympanum, inflammation of the mucas membrane, nervous affections, diseases of the membrane tympani, called "the drum," or when the disease can be traced to the effects of fewers or colds, the use of quinine or mercarial medicines gatherings in the cars in children. When the auditory is dry and scaly, with little or no secretion; when the deafness is accompanied with noise in the ear, like falling water, chirping of insects, ringing of bells, rustling of leaves, continual pulsations, and discharge of matter, or when in stooping, a sensation is felt as if a rush of blood to the head had taken place; when the hearing is less accute in dull, cloudy weather, or when a cold hus been taken, this method of treating the isease is infullible

Dr. Dufton is the only Occulist in the United States who practices the new painless, and successful method in treating all the diseases to which the eye is subject. Where every other means have failed to afford relief, be asks from such a

fair and impartial trial. TESTIMONY .- The undersigned practitioners in medicine in the city of New York, having had frequent occasion to witness the practice of Drs. LeBrunn and Dufton, in discases of the Ear and Eye, laying aside all professional jealousy, freely admit, that the course pursued by them in treating diseases of these delicate organs, from the unparalleled success attending it, is well worth the attention of our professional brethren throughout the United States, feeling assured as we do. that Anral Surgery has not met with that attention which its importance demands. Their system of treating diseases of the middle and internal Ear. by "Metical Vapors," particularly in chronic or complicated cases, forms a new ora in the practice of Aural Surgery; such cases yielding in almost every instance to this new and pawerful agent.— This practice fills up a void which has long been felt by the general practitioner, enabling him to cope successfully with every case where perfect formation exists.

In diseases of the Eye, they seldom require to resort to the operation. As skillful Anrists and Oculists, enthusiastically levoted to their profession, we cordially recom Signed, V. D. MOTT, M. D. WILLIS MORTON, M. D.
