Dont forget it-the American Meeting this eve-

Waxing warm-the political fight. It's getting decidedly hot.

Still unabated-the ravages of the Yellow Fever at Norfolk and Portsmouth. The accounts are ter-Rick-the "Democratic Anti-Know Nothing

convert the "old line Whigs?" To Come off-the American Harvest Home, at

New Washington, next week. Let one and all attend. It will be a grand affair.

Magnificent arrangement-getting married. We advise all our bachelor friends to 'try it on' immediately. It's a great "institution."

In session-court Judge Burnside is despatchcommendable perseverance and industry.

Among the missing-the Luthersburg Asculapius, when he was called on last night. He ought to have been on hands to give us another "dose." About again-the "Chincklecamoose Rangers."

They appeared on herse back on Monday evening and created quite as much excitement as the arrival of Gov. Bigler.

Distinguished arrival .- Ex-Gov. Digler arrievening he was serenaded by the band, and made the assembled crowd a very happy address.

Vendue .- John S. Radebaugh will sell a variety of household and kitchen furniture on Saturday next. Those who need such articles should attend the sale, which, as John says, is "perimtory."

Expected-that our candidate for Senator will address the meeting this evening. It will also be addressed by Col. Curtin, Hon. J. T. Hale, Samuel Linn, J. P. Gordon, J. Ld. Planchand, Esque., and others. We hope every American will attend.

New paper-the "American Era," published at Tyrone, by Een. Jones, formerly foreman in this office, and edited by W. S. H. Keys. It presents the neatest appearance of any paper on our exchange list. We wish it success.

In town-the Luthersburg posey, who wanted to visit the school mistress, and received the message that she would send for him if her scholars got the itch, but under other circumstances his room would be more acceptable than his company.

been productive of the most happy results, and | moved, seconded and corriedmade every evening.

THE NEWS .- The main features of the Africa's news, which dates to the 1st inst., consist in details of the battle of Tchernaya and the operations that preceded it. From the official reports, it turns out to have been a decided victory for the Allies. Another Russian at- city. Here is the precious document: tack upon the Allies, in the vicinity of Cemetery, was anticipated. It is announced definitely that Omar Pacha is to take the command in Asia. Nothing important has been received from the Baltic Sea or Kars.

The reports of Gens. Simpson and Pelissier state that the Russian attack on Tchernaya was a deliberate effort to raise the siege. If they had succeeded in holding the heads, they intended a further at ack upon the four points. The documents found on a dead Russian General clearly indicate this. Gen. Simpson estimates the Russian force at 55,000 infantry and 6,000 cavalry, with 160 guns. The French had tember, 1855, before me. only 12,000 men and four batteries engaged; the Sardinians 4,500 men and 24 guns; and the English only one battery. The Russians advanced three times with determined bravery, their affidavits, viz: and thrige carried the bridge crowning the Heights, but were repulsed. Their retreat Pellissier calls the French loss 17 officers killed and 53 wounded; 172 men killed, 159 missing, and 1160 wounded. The Sardenian loss is 250 in killed and wounded. The Russian loss is 3,000 killed and 5,000 wounded, and 1,800 wounded prisoners. The Russians admit great losses. Three of their Generals were killed. The Russians engaged in the battle had just arrived in the Crimea. Gen. Simpson says the Redan and Malakofl were bombarded on the 17th, with as much effect as was anticipated.

Prince Gortschakoff telegraphs on the night of the 27th, that affairs at Sebastopol were unchanged, the fire of the Allies being occasionally very strong. It is reported that General Simpson is ill, and that Gen. Bentinek has ta- district, H. A Hutchinson; 3d district, John ken the command. The Allies are preparing to cross the Tchernaya, and active operations are delayed until this movement is effected .-Omar Pacha was to leave for Trelozorde on the 21st. Nothing reliable has been received from Kars or Erzsroum. The Russians had re-established their communications between Gen-

Itchi and Arabat. The Allied fleet in the Baltic had been ordered to retire from before Cronstadt, the disabled gun-boats only returning home. Private letters state that the Russian loss in the bombardment of Sweaborg was not less than 2,000

tion on the batteries wholly uninjured. The news from France is unimportant. The zens, but for six years from the present time. crops are setlafactory, and business flourishing. -St. Louis Democrat. Asr. 28.

DISSOLUTION OF THE DEMOCRATIC PARTY. An Oath-Bound Conventi n and an Oath-Bound Ticket!

The old 'Democratic' party is dead, dead, DEAD.' It was publicly executed in the Court Short-our item column. Cant help it. Have it House last Tuesday, - the Court House Clique acting as executioners-and a new outh-bound foreign fusion alliance set up in its stead .-Henceforth we have no democratic party' among us-not even a locoroco party. The mandate has gone forth. To have been a democrat,' and voted the 'democratic ticket,' will no longer answer. All must swear ullegiance to the Foreign Power or they will be kicked out.

Last Saturday the so-called delegate elections of the new organization were held. They were called clections, but when the people that's the mode the Democrats generally adopt to came to the polls they found that the selection had already been made by the wire workers in approach of the Buccaneer Morgan, about two the various districts, and unless it was positively certain that the voter who presented gold bells, a nondescript article, resembling a himself would endorse the programme, his vote number of crocodiles' heads, gold beads, &c. was uled out. In this way the convention was completely packet by the tools of the clique, and every man returned was bound to toe the mark. As fist as the delegates arrived in town they were placed under the surveitlance of the leaders, and all disposition to muing business, and clearing the list with the most tiny promptly but down. To be certain, however, that none should be admitted but those fin the ring, a solemn oath was agreed upon, which all were required to take on pain of exclusion from their seats.

These packed delegates met in the Court House on Tuesday, and organized by calling Dr. H. H. Muckinsens, of Reading, to the Chair, with four Vice Presidents, and three Secretaries. Immediately after the officers had taken their seats, a motion was made and carried, that the delegates, before being admitved in town on Monday evening. During the ted to their se ts, be required to take an obligalion with the uplified hand, that they were true to the Pope- rue to the foreign interests, and true to the Clique. Then commenced the cere mony of erganizing a new or a-bound poli i cal Order in place of the old Democratic party. -The ritual, or mode of initiation was as fol-

Delegates held up their right hands as directed. President continues reading from the established formulæ.

"You do swear, that you do not now belong, have not for six months belonged, and do not intend for the future to belong to any secret political society, and particularly that called Know Nothings. If you swear say 'yes."

The delegates answer 'Yes,' and resume their seats. The next district is read off, delegates come forward, are sworn in the same way, and so on through the list of districts. When Spring township was read off HENRY

LATEST NEWS FROM KANSAS .- We have received from our special correspondent, at the Kansas Legislature, the following telegraphic dispatch relative of the proceedings of that in-

From this it will be seen that the bill whereby the Kansas Solons enacted that all officers in the Territory for the term of six years ensuing should be filled by the present Legislature has become a law, and we are free to say that a more infamous invasion of the rights of any people, a more unwarranted assumption of power not delegated, was never perpetrated by any assembly that ever sat in even revolutionary France. Not content with legislating themselves into office in violation of the organic law of the Territory-not satisfied with denying to the inhabitants and citizens of Kansas the constitutional rights of free speech and a free press-but beyond and above all this, they now quietly inform the people that men. SUGGESTED IMPEACEMENT OF JUDGE KANE .-The New York Tribune closes a long and able article in the case of Passmore Williamson-

with the following paragraph: The next House of Representatives will be r-lieved from the presence of many of the flunkies whose-sole business in Congress has long been to do the bidding and receive the wages of their Southern masters. A majority of its members wil not, it is believed, belong to the class who are trying to save the Union by rende ing it a land of tyrants and a den of slaves. Let the House be flooded with petitions for the impeachment of John K. EAR AND EVE. DRS. Le BRUNN & DUFTON,

Occulists and Aurists. Deafness and Eur Diseases Radically Cured. DR. LE BRUNN offers to those suffering from Deafness his INFALLIBLE AURAL REMEDIES, which have been successful in nearly 3,000 cases of confirmed deafness. These remedics comprise different courses for diseases of the internal, middle and external ear, and have been pronounced by those celebrated aurists. Drs. Cramer, of Ber Yearsly of London, as being the MOST WONDER-FUL and EFFECTUAL ever applied for diseases of the internal and middle ear. Dr. LeB., WAR-RANTS A CURE in every case where the ear is perfect in formation. He has eighteen certificates of cures from those who had been DEAF AND DUMB, and whose hearing is now completely restored and are now enabled to learn the language. The names of 2,700 persons who have been cured by Dr. LeB., may be seen on application. Pa-tients, by sending a description of the case, can have remedies sent to any part of the United

in case of mucus accumulations in the Eustachain Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the membrane tympani, called "the dram," or when the disease can be traced to the effects of fe-vers or colds, the use of quinine or mercurial medicines, gatherings in the ears in children. &c., this treatment STANDS PREEMINENT. When the auditory is dry and scaly, with little or no secretion; when the deafness is accompanied with noise in the ear, like falling water, chirping of insects, ringing of bells, rustling of leaves, contin-ual pulsations, and discharge of matter, or when in slooping, a sensation is felt as if a rush of blood to the head had taken place; when the hearing is less accute in dull, cloudy weather, or when a cold has been taken, this method of treating the

Dr. Dufton is the only Occulist in the United States who practices the new painless, and successful method in treating all the diseases to which the eye is subject. Where every other means have failed to afford relief, he asks from such a

fair and impartial trial.

TESTIMONY.—The undersigned practitioners in medicine in the city of New York, having had frequent occasion to witness the practice of Drs. Lebruan and Dufton, in diseases of the Ear and Eye, laying aside all professional jealousy, freely admit that the course pursued by them in treating diseases of these delicate organs, from the unparalleled successationding it, is well worth the attention of our professional brethren throughout the United States, feeling assured as we do, that Aural Surgery has not met with that attention which its importance demands. Their system of treating diseases of the middle and internal Ear, by "Medical Vapors," particularly in chronic or complicated cases, forms a new era in the practice of Aural Surgery; such cases yielding in almost every instance to this new and powerful agent.-This practice fills up a void which has long been felt by the general practitioner, enabling him to cope successfully with every case where perfect

formation exists.

In diseases of the Eye, they soldom require to resort to the operation.

As skillful Aurists and Oculists, enthusiastically devoted to their profession, we cordially recommend them to such as may require their aid Signed, V. D. MOTT, M. D.
