THE DISTRICT .- We have no definite new from the other counties in this district, but it would seem that Mr. Souther is elected by small majority. We hope so. Backus is probably elected to the Legislature.

THE ELECTION.—Any attempt to conceal our chagrin at our recent defeat would at the same time be silly and false, and we therefore admit, at once, that we are both grieved and astonished. We had certainly expected an American victory, and that we have been most thoroughly whipped by the combined forces of Rum and Locofocoism, is enough to grieve any lover of his country. With the aid of the Liquor League, and their hundred and eighty thousand dollars, the Locofoco party has carried the day. We wish them much joy of their victory.

A WORD TO OUR READERS .- For sometime past we have been compelled to devote our columns almost entirely to politics, but now that the election is over, and we are well lick'd,' as soon as the smoke of the battle blows off, we will endeavor to furnish you weekly, with a more readable and more interesting paper. We wish to give you something practical, something intellectual, some thing poetical, something musical, something useful, something good, something scientific, something new, and something funny. Send us on new subscriptions, and we'll give you a first rate paper.

That battle was fought on the 13th of October, 1812, when Gen. Van Rensselaer lost 60 Americans killed, 100 wounded, and 764 taken priseners! Such was the day selected for the Loco-Catholic-Antijug-law jubilec!

THE SALE OF THE PUBLIC WORKS .- GOV. Pollock is again advertising for proposals for the sale or lease of the main Line of the Publie Works. Under the terms of the law previding for the sale of the Line, the bids or proposals for its purchase or lease, after being received by the Governor, are to be submitted to the Legislature for its action; and from the complection of the new body, as indicated by the election returns, there is not much prospect of either a sale or lease being agreed to by that body. We hope, however. that fair and liberal proposals for the work may be made, and that the maniflest necessity for a divorcement of the State from the ownership of the Line may be so apparent to the next House as to induce promt action, on the

DEFEATED BUT NOT CONQUERED .- If the opposition suppose that their recent victory has killed "Sam," they will find themselves most wofully mistaken. Ove DEFF ar .- The total defeat of the Amercan party on Tuesday hat should reach is an important lesson. It our organization had been properly kept up, we should have, most undoubtedly carried the County. From the lection of last fall, until within a few weeks of the present disastrons defeat, the Councils

in the County were almost inactive ; the members were taking no interest in the matter, no regular meetings were being held, and consequently the organization was, to a great extent, worthless.

If we desire to succeed, we must work ;we must keep up the organization by holding regular meetings, and by leaving no effort unspared, honorably and fairly to increase the number of members. If we had pursued this course for the last year, we would have carried this County by three hundred majority .-Let the Officers of every Council, then, call regular meetings, and see that they are well attended. Let every member determine to succeed, and to obtain at least one candidate for initiation. Then, when we go into another contest, we will have the certainty of success, which cannot be prevented either by the slanders or the schemes of an unscrupulous opposition. Our cause must and will be successful.

Notwithstanding the most bitter opposition. on the part of our enemies, TOM SHEA has been triumphantly elected CORONER!
