NO APPER FROM THE POPE .- Persons who doubt,-it there indeed be any who do doubt, -that the Romish Chusch claims temporal, as well as spiritual, allegiance from its disciples in the United States, would do well to read the pastoral letter of the Archbishops and Bishops of the "Province of St. Louis," in council assembled,-just issued. That document explicitly says .--

"We maintain the superiority of the spiritual over the temporal power. We maintain that the temporal ruler is bound to conform his emact-ments to the Divine law. We maintain that the Church is the supreme Judge of all questions concerning faith and morals, and that, in the determination of such questions, the Roman Poniiff, as Vicar of Jesus Christ, constitutes a tribunal from which there is no appeal, and to whose award all the children of the Church must yield obedience.27

After this authoritative and official announcement, let us have no more finedrawn distinctions between spiritual allegiance and temporal allegiance. We see here that both are binding alike .- New York Express.

CLAYTON AND BULWER TREATY .- Letter writers from Washington State that important despatches from London have been received. Mr. Buchanan transmits the final answer of the British Government on the Central American negotiation. Our ultimatum is rejected and correspondence is closed. Both governments are released from the Clayton and Bulnies and protectorate, and we withdrawing from our anti-annexation clause. Assurances, however of peaceful views are unchanged.

e it Air-Figh S lf-lealing Cans and Jars, for Preserving Fr sh Fruits, &c .- This invention for which a patent has been obtained, commends it-self to the attention of Housekeepers and others. on account of its great simplicity, and the effectual manner in which it accomplished a very desirable and useful object

The cans and jars are constructed with a channel around the mouth, nerr the top, into which the cover fits loosely. This channel is filled with a very adhesive coment, prepared for the purpose and allowed to harden. In order to seal the vessel hermetically, it is only necessary to heat the

cover slightly, and press it into place. It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans. used for the same purpose for which this is intended, cannot be closed, as is well known without the aid of a tinnsr; are difficult to open, and are generally so much injured in opening as to be useless for future service. By this simple contrivance, the process of her-

metical sealing is placed conveniently within the reach of every individual; and fruit, vegetables and butter (if properly prepared) may be kept, with their natural flavor unimpaired, for an in definite length of time. For sale by MERRELL & CARTER.

These Paints will stand any elimate, without crack or blister, and harden by exposure; thus making in time an enamel of Stone, protecting Wood from decay, and Iron and other metals from rust and corrosion. They differ essentially from the so-called Mineral Paints of the day, which are principally Ochres, and Clays, and are entirely worthless. SILVER'S Plastic Paints are purely METAL-

IC. containing no Alumin or Clay. They are levigated finely, mix readily with Linseed Oil. (without the trouble of grinding.) and flow under the brush as freelp as the best White Lead, and excel all others in body or covering properties, one pound of which will cover as much surface as two pounds of White Lead, reducing the cost two-thirds. There are six distinct colors, via: Olive, | Light Brown, | Light Chocola e, Elack, | Dark Do. | Deep Do. #### EAR AND EYE. DES. Le BRUNN & DUFTON, Occulis's and Aurists.

Deafness and Ear Diseases Radically Cured. DR. LE BRUNS offers to those suffering from Deafness his INFALLIBLE AURAL REMEDIES, which have been successful in nearly 3,000 cases of confirmed deafness. These remedies comprise different courses for diseases of the internal. middie and external ear, and have been pronounced by those celebrated aurists. Drs. Cramer, of Ber lin, Itard, and Delan, of Paris, Curtis, Pilcher and Yearsly of London, as being the MOST WONDERof the internal and middle car. Dr. LeB., WAR-RANTS A CURE in every case where the ear is perfect in formation. He has eighteen certificates of cures from those who had been DEAF AND DUMB, and whose hearing is now completely restored and are now enabled to learn the language. The names of 2.700 persons who have been cured by Dr. LeB., may be seen on application. Pa-tients, by sending a description of the case, can have remedies sent to any part of the United

States. In case of mucus accumulations in the Eustachain Tube and Tympanum, inflammation of the mucus membrane, nervous affections, diseases of the membrane tympani, called "the drum," or when the disease can be traced to the effects of fevers or colds, the use of quinine or mercurial medicines, gatherings in the ears in children. &c., this treatment STANDS PREEMINENT. When the auditory is dry and scaly, with little or no secretion ; when the deafness is accompanied wity noise in the ear, like falling water, chirping of insects, ringing of bells, rustling of leaves, contin-ual pulsations, and discharge of matter, or when in stooping, a sensation is felt as if a rush of blood

to the head had taken place; when the hearing is less accute in dull, cloudy weather, or when a cold has been taken, this method of treating the disease is infallible.

Dr. Dufton is the only Occulist in the United States who practices the new painless, and successful method in treating all the diseases to which the eye is subject Where every other means have failed to afford relief, he asks from such a fair and impartial trial. TESTIMONY .- The undersigned practition-

ers in medicine in the city of New York, having had frequent occasion to witness the practice of Drs. LeBrunn and Dufton, in diseases of the Ear and Eye. laying aside all professional jealousy, freely admit, that the course pursued by them in treating diseases of these delicate organs, from the unparalleled successattending it, is well worth the attention of our professional brethr on throughout the United States, feeling assured as we do, that Aural Surgery has not met with that attention which its importance demands. Their system of treating diseases of the middle and internal Ear, by " Medical Vapors." particularly in chronic or complicated cases, forms a new era in the practice of Aural Surgery; such cases yielding in almost every instance to this new and powerful agent.-This practice fills up a void which has long been felt by the general practitioner, enabling him to cope successfully with every case where perfect formation exists.

In diseases of the Eye, they seldom require to

resort to the operation. As skillful Aurists and Oculists, enthusiastically devoted to their profession, we cordially recommend them to such as may require their aid Signed.
