THE RAFTSMAN'S JOURNAL.

THE JOURNAL.

PENCIL NOTES.

Quiet—our town.

Missing—our scissors.

Began in earnest—old winter.

Assembled—Congress on Monday.

A stronger—our Shanghai rooster. He's 'some' on a crow.

Poor stock—land warrants. They are below par 'orfully.'

Arrived—the sour krout season. Wo'nt we be in our element?

Interesting—our outside, and the 'situation' of the French Empress.

Damaged—that pair of unmentionables found on Sunday morning.

In demand—overcoats, blankets, and every thing that "maketh warm."

Changeable—the weather, and the politics of the man in the high heeled boots.

Acceptable—that load of wood, Joseph; send us some more as soon as possible.

Important—several of the Commonwealth cases to be tried at the coming Court.

General—the complaints of "hard times"—They'll be harder yet before spring.

Refunded—the subscriptions to the Library.—Sorry it's 'busted.' Should have been kept up.

Distinguished arrival—the man that wears the high collars and steals his neighbor's newspapers.

Query—Who's to pay for the "Bank Notice" we published some time ago? Some'edy ought to do it.

A public benefit—tight lacing. It kills off the foolish girls and leaves the wise ones to grow to be women

For sale—the Journal. We will sell cheap, to a good printer, capable of editing a paper, and a sound American.

Numerous—burglaries in Hollidaysburg, and empty flour barrels in Clearfield. This is a great country—for buckwheat.

In demand—provisions of every description.—Those who have produce to sell, will find, by bringing it to town, a ready market.

Cant attend.—The Editorial Convention at Huntingdon, on the 18th. Comes in the midst of our court, which will prevent us from attending.

Just arrived—a splendid assortment of new goods, just adapted to the season at the cheap store of W. F. Irwin. Call and examine them.

Religious revival—in the Methodist Church at Curwensville. We understand that a number of converts have been made during the past week.

A big bug!—A grasshopper from Utah was exhibited in New York, last week, which was five inches long! It must belong to the Shanghai species.

Thanks—to our friend, Elisha Penton, Esq., of the Grampian Hills, for some large and delicious apples. They would have taken a premium at the Agricultural fair.

Twice tried—young Chambers, in jail on a charge of murdering a man named Hartman, who was found drowned in the Sinnamahoning. He will be tried at the next Court.

Doing a good work—the Cosmopolitan Art Association, in this vicinity. We learn that some twenty-five or thirty magazines will be received in our town, through its agency.

Blessing Locomotives.—At Valparaiso, on the 18th of September, a new railroad was inaugurated by the blessing of the locomotives by the priest and sprinkling them with holy water.

In a fix—the "dark" that lost his "breeches" on Saturday night, and had to borrow a pair to get home in. Does the individual who furnished him the liquor know that he's liable to a prosecution?

An accident—the omission of our friend L. W. Ten Eyck's card, until this week. He keeps the best house in Lumber City, and one of the best in the county, in addition to which he's one of the cleverest landlords. Give him a call.

New Paper.—We have received the first number of the "*Democratic Watchman*" published in Bellefonte. It is neatly printed and looks well.—We hope the editor will realize a handsome profit from his undertaking. Brown, hold him level.

An excellent reason.—A lady walking, a few days since, on one of the wharves in New York, asked a sailor, whom she met, why a ship was called "she?" The son of Neptune replied that it was "because the rigging costs more than the hull!"

Religious.—We are informed that the Rev. Dr. Junkin is expected to preach in the Presbyterian Church of this place, on next Sabbath two weeks. He is a distinguished Divine, and no one should loose the opportunity of hearing him. The Rev. Mr. Hamill, will preach at Curwensville on next Sabbath.

Rich—the scene in the Commissioners' Office on Friday last—the day of "Appeals." It was amusing to hear the anxious pleaders for a reduction of the Assessment. We suspect more "prayers" went up to the Commissioners on that occasion than have gone up to the Almighty from this region for a long time.

Fire.—On Tuesday night of last week, the barn of Mr. John Flegal, in Goshen township, with its contents were destroyed by fire. They had been husking corn, and after leaving the barn it caught fire in some way, and burned to ashes. All his grain, corn, hay, &c., were lost. He succeeded in saving his horses and cattle.

Flag Presentation.—We learn that our President Judge, Hon. Jas. Burnside, made a most eloquent and appropriate speech on behalf of the ladies of Bellefonte, last week, who presented a beautiful flag to the new Cavalry Company just organized in that place. The Judge can do it.—We should like to have heard him.

Lost in the Woods.—A man from Juniata County, started out from Lutherburg to hunt, last week, and got lost in the woods. After wandering about for two days, he returned up at a house away down in Goshen township. His disappearance caused quite an excitement among the good people of Brady, who made every exertion to find him. We suspect he got enough of Clearfield hunting, without a "pilot."

A Clearfielder in a fix.—We learn that some fellow hailing from Clearfield, was hurried off at Hollidaysburg last week, on a charge of passing counterfeit money. He got out on Habeas Corpus, through some informality in the proceedings. Who was he, that's the question? Will the Hollidaysburg papers give us his name? We dont believe he was from Clearfield.

We couldn't think that anybody from our county passed counterfeit money, or any other kind. Money of any description counterfeit or genuine, would be a curiosity in this section—as an obsolete idea.

IMPORTANT TO HOUSEKEEPERS AND FRUIT GROWERS.—ATKINSON'S PATENT AIR-TIGHT SELF-SEALING CANS and JARS, for Preserving Fruit, Vegetables, &c.—This invention for which a patent has been obtained, commends itself to the attention of Housekeepers and others, on account of its great simplicity, and the effectual manner in which it accomplished a very desirable and useful object.

The cans and jars are constructed with a channel around the mouth, near the top, into which the cover fits loosely. This channel is filled with a very adhesive cement, prepared for the purpose and allowed to harden. In order to seal the vessel hermetically, *it is only necessary to heat the cover slightly, and press it into place.* It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans, used for the same purpose for which this is intended cannot be closed, as is well known without the aid of a thirsr; are difficult to open, and are generally so much injured in opening as to be useless for future service.

By this simple contrivance, the process of hermetical sealing is placed conveniently within the reach of every individual, and fruit, vegetables and butter (if properly prepared) may be kept, with their natural flavor undimpaired, for an indefinite length of time. For sale by

GIVE THEM A TRIAL!—SILVER'S *PLASTIC PAINTS:*

CHEAP, DURABLE, AND PROTECTIVE.

WEATHER & FIRE-PROOF.

These Paints will stand any climate, without crack or blister, and harden by exposure; thus making in time an enamel of Stone, protecting Wood from decay, and Iron and other metals from rust and corrosion. They differ essentially from the so-called Mineral Paints of the day, which are principally Ochres and Clays, and are entirely worthless.

SILVER'S Plastic Paints are purely *METALLIC*, containing no Alumin or Clay.

They are levigated finely, mix readily with Linseed Oil, (without the trouble of grinding), and flow under the brush as freely as the best White Lead, and excel all others in body or covering properties, one pound of which will cover as much surface as two pounds of White Lead, reducing the cost two-thirds. There are six distinct colors, viz:

Olive	Light Brown,	Light Chocolate,
Black,	Dark Do.	Deep Do.

All equally valuable as a preservative, and particularly adapted to painting the outside of

BUILDINGS, FENCES, STEAMBOATS, CARS, TIN AND IRON WORKS.

REMEMBER! *Exposure hardens and increases the durability of these PAINTS.*

DIRECTIONS—Mix with pure Linseed Oil, as thick as possible, to the Paint as the lasting or penetrating Body, and use all straight for outside, or apart in spreading it.
