GENERAL NEWS

THE LATE KANSAS TROUBLES.—The Parkville Democrat of December 20th, furnishes us with the following information:—"We understand that Gov. Shannon has determined to give up the Gubernatorial chair in Kansas Territory. His reasons for doing so we have not learned." The St. Louis Democrat, Jan. 3d, says: "We on yesterday had access to a reliable private communication, dated ate Lavenworth on the morning of Dec. 28th, from which we learn the exciting news that, on Saturday, the 22d, the office of the Territorial Register at Leavenworth City, was entered by a mob and the press and types taken out, conveyed to the river, and thrown beneath the water. Mr. Dellahoy, the editor, was absent at the time, and there was no resistance offered to the progress of the rioters. After having drowned the press, they returned to the office, and burned a lot of paper which had been supplied for the printing of the Register. They then dispersed, and numbers were shortly afterwards engaged in fighting and rowdying around the Empire House, and other of the principal drinking saloons of Leavenworth. The whole affair was of a most unlawful and disgraceful character. It is stated that the mob was composed principally of Missourians.—"The sole cause of the riotous proceeding was, that Mr. Dellahoy had made himself obnoxious by taking a bold stand and denouncing the interference of Missourians in the affairs of Kansas. Letters containing full particulars of the above proceedings, from our regular Kansas correspondent, were mailed at Leavenworth City on the 25th, and will reach us in a day or two."

THE JAPAN TREATY DIFFICULTIES.—According to a Calcutta correspondent of the London *Times* a Dutch official, selected especially from the Hague, was sent to Japan, to make such suggestions to the Japanese as would be acceptable to them, in their negotiations with the United States Embassy, under Commodore PERRY. The Dutch being more familliar with the Japanese character and Institutions, on account of their long intercourse with them, knew what restrictions it would be necessary

DISMISSAL OF MR. CRAMPTON AND T
ISH CONSULS.—The correspondent of the N. Y. Tribune, writing from Washington City under date of the 9th Jan., says:—"A decisive step has been taken relative to British enlistments. The long correspondence on this subject between the two Governments has been closed by an elaborate and conclusive dispatch to Mr Buchanan, sent last Saturday, requiring the British Government to recall Mr. Crampton or leaving the alternative of the Administration giving him his passports here. The same paper signifies distinctly the revocation of the exequators of Consuls Barclay at New York, Mathew at Philadelphia, and Raycraft at Cincinnati, who were implicated in the enlistments. BLAIR COUNTY.—On the 8th ult. the corpses of two children were found in an emigrant car at Altoona. After the train had reached Gallitzin, information was received by telegraph, that the parents, (who were Germans,) had discovered themselves. The children belonged to different families. The little girl had died from teething the day before, while the boy had died of fever between Huntingdon and Altoona. Another child that died had been left at Huntingdon for burial. — A son of Abr. Beales, of Altoona, about 4 years of age, was so seriously burned on the 28th ult., that he died next morning. The little fellow was opening the stove door, when his clothes caught fire. — On the same day a man named Genter was severely injured at Blair Furnace, a spark of red-hot metal having entered his right eye. The ball is very much blistered, but the sufferer can still see a little with it, and hopes are entertained that the sight may be preserved.

BIDS FOR THE MAIN LINE.—Harrisburg, Jan. 9.—The Harrisburg and Lancaster Railroad Company propose to give four millions of dollars for the Columbia Railroad, payable in eight annual payments after January 1st, 1856, with interest at 5 per cent., conditioned for the repeal of the tonnage tax. The Pennsylvania Railroad Company propose to buy the whole of the Main Line at seven and a half millions, payable in ten annual payments from July, 1857, with interest at 5 per cent. They agree to keep the Eastern Canal open, and use the Western until the North Western Railroad shall be completed. They propose also to buy the Columbia Railroad at the cost of construction, to be ascertained by three competent engineers to be appointed by the State, with the concurrence of the Company. The company agree to pay forever a dividend equal to that paid to their own stockholders. They require the repeal of the tonnage tax, and that the State yield the right to purchase the Pennsylvania Railroad.

GOV. SHANNON, it seems, has changed his course completely in regard to the people of Lawrence, who were denounced in his proclamation as a lawless set, and to overthrow whom he asked President Pierce to send him U. S. troops, as will be seen by the following document, given by the Kansas correspondent of the New York Times:—

"To C. ROBINSON, Commander of the enrolled citizens of Lawrence:—You are hereby authorized and directed to take such measures and use the enrolled force under your command in such manner, for the preservation of the peace and the persons of the people of Lawrence and vicinity, as in your judgment shall best secure that end. W. SHANNON.
Lawrence, Dec. 9, 1856.

AN ALLIED FLEET FOR SAN JUAN.—Our last advice from Havana stated that a number of English and French vessels of war would rendezvous at the port of San Juan. A private letter from Havana contains the surmise that important news may soon arive from that quarter. It can hardly be that either England or France contemplates a hostile occupation of San Juan and the adjoining territory, but it is not improbable that an effort may be made to prevent the influx of emigrants from the United States to Nicaragua. Still there is no telling what bold stroke of policy Palmerston and his French adviser are about to make in Central America.—*N. Y. Sun.*

MASSACHUSETTS.—Gov. Gardiner's message was delivered to the Legislature on the 3d Jan. He recommends twenty-one years' residence of foreign born citizens, and ability to read and write before they are allowed to vote;—deprecates the passage of the personal liberty
dy repeal;—suggests
ture—and urges its spec-
tion of members of the popular branch of the Legislature, and denounces lobbying legislation. The message is strongly Native American in its tone.

HEAVY ROBBERY.—On Tuesday evening, the 1st inst., Mr. S. H. Sweanzey, a gentleman from the interior of Pennsylvania, was robbed of a portmonaie, at the Walnut-street theatre, Philadelphia, containing $175 in notes and gold, certificates for 1057 shares of stock in the Erie and Susquehanna Coal Company, and
promiss
besides other valuable
amounting to nearly $10,000,
At the
time of the robbery Mr. Sweanzey was standing in the entrance passage way, waiting to get in the theatre.

MAN IS WHAT HE EATS.—A celebrated German transcendentalist, Louis Feuerback, a few years since, published a thesis in which he endeavored to prove that "man is what he eats" and attributes the immorality of the age to the potato rot. Speculating on this subject the other day, the Pittsburg *Post* says some wag remarked that this would satisfactorily account for the origin of the two factions in New York —*Hard shells* and *Soft Shells!*

On last Wednesday, the 9th, a frightful accident occurred on the Hudson River railroad, near Ponghkeepsie, N. Y., by which three persons were instantly killed and about twenty wounded. There was a break in the
to which the train ran before it could
ed, with the disastrous result stated.

THE LARGEST MILL IN THE WORLD.—
gest and most comprehensive mill in the wo
is the Pacific at Lawrence, Mass. The floor
surface of this immense structure is 16 acres;
the largest mill in England is 11½ acres.—
There are now in operation 40,000 cotton spindles and 10,000 worsted spindles; and these are to be increased to 80,000 and 20,000 respectively. There are 1,200 looms in operation, to be increased to 2,400. These, with 2,000 persons, produce 300,000 pieces of cloth per annum—one-half delaines. The weekly consumption of cotton is 20,000 pounds, or 1,400,000 pounds per annum, and 500,000 pounds of wool. Once a month the two thousand persons assemble at the cashier's office where he pays out $50,000 to them for wages, appropriating to each one the exact amount she has earned.

PARKER H. FRENCH.—This Nicaraguan hero is a small, thin man, with but one arm, evidently in ill health, and, like Walker, about twenty-nine years of age. His demeanor is modest and conciliatory, but there is a certain air inseparable it is presumed from the hazardous life he has led, which would mark him as "one of the boys." While the former government was in power in Nicaragua, he acted here as the agent and forerunner of Walker, delaying no little tact and bravery in carrying out his secret designs.

HAS WAITED FOR $1,500,000.—A gentleman of Washington City, says the Star of a late date, received a letter from Portadown, county of Armagh, Ireland, making inquiries in relation to the heirs of John White, who emigrated from the said county, somewhere about the year 1814 or '15, and who is believed to have left two sons, Abner and William. There is about a million and a half of money for the lucky whites who can "prove property," &c.

TRAGEDY AND ROMANCE.—An account has been given of the attempt of a man named Williams, from New York, to commit suicide on New Year's night, because a young woman in Hobokon, whom he expected to marry, had changed her purpose. In view of this evidence of love and devotion on his part, the lady relented, and has since been united to him in marriage. He feels better.

FASHIONABLE FANS IN PARIS.—A writer alluding to the perfect mania in extravagance which appears to exist in Paris the present year, mentions that even the fans now in use are marked by elaborateness of workmanship, and cost as high as $2000 each. $20 or $30 is considered the merest trifle for one of those highly decorated, carved and enriched articles.

MAYOR OF PITTSBURGH.—At the municipal election held in Pittsburgh on last Tuesday, the 8th inst., Bingham, the American candidate, was elected Mayor. The vote stood—Bingham, Amer., 1498, Volz, regular Dem., 1020, Irwin, seceding Dem., 1115.

In Allegheny City, Adams, volunteer, was elected Mayor on the same day.

STRAY HORSE.—Came to the residence of the undersigned, living in Decatur township, a Bay Horse. The owner is hereby notified to come forward, prove property, pay charges and take him away, otherwise he will be disposed of according to law. ABRAHAM J. GOSS.

IMPORTANT TO HOUSEKEEPERS AND FRUIT GROWERS.—ARTHUR'S PATENT Air-Tight Self-Sealing Cans and Jars, for Preserving Fresh Fruits, &c.—This invention for which a patent has been obtained, commends itself to the attention of Housekeepers and others, on account of its great simplicity, and the effectual manner in which it accomplished a very desirable and useful object.
The cans and jars are constructed with a channel around the mouth, near the top, into which the cover fits loosely. This channel is filled with a very adhesive cement, prepared for the purpose and allowed to harden. In order to seal the vessel hermetically, *it is only necessary to heat the cover slightly, and press it into place.* It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans used for the same purpose for which this is intended, cannot be closed, as is well known without the aid of a tinner, are difficult to open, and are generally so much injured in opening as to be useless for future service.
By this simple contrivance, the process of hermetically sealing is placed conveniently within the reach of every individual; and fruit, vegetables with their natural flavor unimpaired, for an indefinite length of time. For sale by

GIVE THEM A TRIAL:—SILVER'S *PLASTIC PAINTS:—CHEAP, DURABLE AND PROTECTIVE.*
WEATHER & FIRE-PROOF.
These Paints will stand any climate, without crack or blister, and harden by exposure; thus making in time an enamel of Stone, protecting Wood from decay, and Iron and other metals from rust and corrosion. They differ essentially from the so-called Mineral Paints of the day, which are principally Ochres, and Clays, and are entirely worthless.
SILVER'S Plastic Paints are purely *METALLIC*, containing no Alumin or Clay.
They are levigated finely, mix readily with Linseed Oil, (without the trouble of grinding,) and flow under the brush as freely as the best White Lead, and excel all others in body or covering properties, one pound of which will cover as much surface as two pounds of White Lead, reducing the cost two-thirds. There are six distinct colors, viz:

Olive, Black,	Light Brown, Dark Do.	Light Chocolate, Deep Do.

All equally valuable as a preservative, and particularly adapted to painting the outside of
BUILDINGS, FENCES, STEAMBOATS, CARS, TIN AND IRON WORKS.
REMEMBER! *Exposure hardens and increases the durability of these PAINTS.*
DIRECTIONS—Mix with pure Linseed Oil, as thickly as possible, as the Paint is the lasting or protecting body, and the oil simply the medium, or agent in spreading it.
