THE JOURNAL.

GENERAL INTELLIGENCE.

INCREASE OF NEWSPAPER POSTAGE RECON-TORD .- We see by the Postmaster General's ment exceed the revenue \$2,626,206 16-the outlays having reached \$9,968,342 29, during the last fiscal year, whilst the receipts amountbell suggest several ways of supplying the deficiency, the most prominent among them being the restriction of the franking privilege to public documents and letters relating merely to public business, and charging full rates of vance. The latter suggestion is certainly an unhappy one, and will meet with little favor in any quarter of the Union. A total abolition of the franking privilege would at once meet the demand-for it has been estimated that the full amount of franked matter reaches yearly \$2,500,000, a sum within a trifle of being as large as the deficit. The N. Y. Tribune, in an article on this subject, says the Postmaster General "has not the courage to advise the abolition of the franking privilege nor the honesty to propose that Government should pay for transporting its own matter. The Post Office is a mill to grind the grist for those who enjoy a "little brief authority," but the toll is all taken out of the people's corn. The only way that the funds can be obtained is to raise the postage rates. That is his proposition. He does not like the idea that poor people, honest farmers, and laborious mechanics should get their weekly newspaper, their religious journal, or their literary magazine at one half the rates of transient matter, on condifion that they pay the postage in advance. This reduction on regular papers and periodicals by the law of 1852 is a perpetual eye-sore to our Post-Office chief. He speaks of it as a "special privilege" to a "particular class," as if the benefit of low postage did not extend to the inmates of every house and log-cabin from Arcostook to Astoria. And how much does he propose to make by raising this class of postage? We will see. Printed matter furnishes to the postal revenue \$638,927; and a large share of this, a third or more, is transient, leaving say \$400,000 for the postage on regular newspapers and periodicals. By the Postmaster General's proposition this sum would be doubled, giving an increase of income to the amount of \$400,000. Is there a man at Washington who is such a very simpleton as to believe the people of the United their literary, religious and political intelligence-as necessary as their daily bread. It can't be done, Mr. Campbell."

Oca Foreign Relations .- In referring to the general anxiety existing from the rumors that Mr. Buchanan has been peremptorily instructed to demand the recall of Mr. Crampton for his complicity in the enlistment of soldiers for the Crimea, and that the British Government will not recall him, but leave him to be dismissed, the New York Courier says: "the British Government originally instructed its agents so to proceed as not to violate our municipal laws. Had these instructions been cither unwittingly or designedly departed from, and had the British Government, on being apprised of the fact, proceeded against its officials as either unfaithful or incompetent, and disgrawed their acts, there would have been an end of all controversy. It has no right to undertake to judge for itself whether those laws toally had been infringed. American authori-is are the sole expounders of American laws; and the enlistments to which, in the estimation of our government, Mr. Crampton has been accessory, have been most positively pronounced by our courts illegal. It was a mistake in the English Government to take issue with our Administration upon the legal bearings of the case. The offence, as it originally took place, excited very little feeling among the great body of our people, and, after an assurance that it would not be persisted in, would have been speedily forgotten. A frank and full amende honorable would have so satisfied public opinion, that our Administration could not have got up a dispute about it, however unfriendly might have been its disposition. It did not sustain Mr. Cushing in his gratuitously insulting the British Consuls, in his letter to the United States Attorney, at Philadelphia; neither would it sustain either him or the Secretary of State or Mr. Buchanan in any endeaver to use this untoward business for either the humiliation or the annoyance of England. But if the English Cabinet chooses to justify on legal grounds, the discussion must proceed on those grounds alone, and our govcrament must follow out its argument of Mr. Crampton's guilt to its logical, practical conclusion-a suspension of his relations to itself.

A EUROPEAN CONGRESS .- The pamphlet recently published in Paris on the necessity for a Congress to Pacify Europe, has excited much attention there and in London, as its authorship has been attributed to the Emperor Napolean, though some of the Paris corres. pondents of the London press attribute the pamphlet to Drouyn de L'Huys and Count Walewiski. A New York contemporary says the recommendation of a European Congress to settle the terms of a treaty of peace with Russia are the principal ostensible objects of the pamphlet; but it apears to have been written for the purpose of reconciling Russia to he hamiliations which she is bound to submit to sooner or later, and to convince the Czar that he will not lose caste in consequence of the reverse which he has undergone since the commencement of the war. The pamphlet is NEW HOTEL:-The old SERRING HOUSE, at certainly written with great ability, and it gives the best and most comprehensive expla- od, who respectfully solicits a share of public patnation of the necessity for the war and the ronage. present position of the parties to it which has stabling, and intends keeping a Temperance House, been published. Whether the pamphlet was at which he will always endeavor to make his written in the Emperor or not, it was manifest- August I, 1855. if.

JOHN SHETTER.

give it publicity, and to draw out the sentiments of the press in respect to its propositions. But the propositions for a Prace Congress, of which Russia herself should be a Report that the expenditures of the Depart- | member, meets but little favor in England, and the London Times says that sooner than submit to such a plan, they would let the sword decide the quarrel; "it was not drawn without ed to no more than \$7,842,136 13. Mr. Camp- counting the cost, and will not be sheathed without some better guarantee than can be afforded by a Congress of European Sovereigns." This is the language of the Times, which is rather piqued at the disrespectful allusions to the English press in the pamphlet. postage on newspapers in all cases, instead of But the wishes of France will, doubtless, half rates, as now, when paid quarterly in ad- prove more powerful in setting the question than those of the English press.

> COMBINATION TO REDUCE THE IRON DUTY .-A Washington correspondent of the Tribune says, "it is ascertained that a formidable combination of importers of iron in New York, and manufacturers in England, has been organized, looking to a demonstration upon Congress for the repeal of the duty on rail road iron exclusively, or failing in that project, of the passage of a law bonding it for five years, with a retrospective feature so as to include corporations which have been lobbying here for the last two years. This organization assimilates in character to that which appeared when the tariff of 1846 was proposed, and is understood to be supplied with the same "material aid" which was said to have enlightened the wisdom and influenced the votes of Members of Congress on that memorable occasion. This blow at our industry would be disastrous to those interests which most require to be fostered, and it remains to be seen whether an open and bare-faced attempt to procure special legislation for British manufacturers can be carried through an American Congress by the assistance of British gold. This cause wifl be sustained by a large amount of ready capital, and men who in other times occupied positions of honor in the public councils. It is proper, therefore, that all the approaches should be guarded, for the effort will be seconded by most powerful influences, and engineered with remarkable skill."

SIX RAMBOAD ACCIDENTS .- The New York papers of the 16th give reports of six railroad accidents, on the lines between that city and Chicago, and a majority of them of a serious character. Still another accident occurred on Tuesday afternoon, on the Hudson River Road, which injured a man so severely that he is not expected to recover. A nother oc-States are going to pay a higher postage on curred on the Harlem Railroad, by which a Bay Horse. The owner is hereby notified to come yoman's neck was broken. Two occured on the New York Central, and one not far from Chicago. An extraordinary number, even under existing circumstances, which are very much against safe traveling. There does not seem to have been anything of importance elicited by the Jury la ing in charge an investigation into the cause of the accident at Spuyten Duyvel Eridge, which was not previously known. A high wind and tide, and an unusual accumulation of ice, are the only causes given for the occurrence of the accident.

> LATER FROM MEXICO .- The Mexican papers of the 8th are filled with articles showing that the country is still the victim of mingled anarchy and tyrrany. The Press law is more inquistorial than any heretofore enacted. Numbers of journals have been obliged to suspend or altogether abandon publication, and several editors have been seized and thrown in prison. The Government is endeavoring to explain away the excessive odiousness of the enactment. Degallode, in Guanajunto, and Uraga in Sierra Gorda, are engaged in armed opposition to Commonfurt's Government. Vidauri is strengthening himself for future movements, with men, arms, ammunition and provisions, which he is taking care to secure in abundance.

OUR RELATIONS WITH ENGLAND .- The Washngton Union of the 19th inst. says, that no such question as the suspension of diplomatic intercourse has been before the Cabinet. Our relations with Great Britain are certainly delicate, and perhaps critical, but a proposed withdrawal of Ministers is not among the evidences going to intimate the delicacy of those relations. The Union further says: "We cannot deny that there are serious questions of difference between the two governments."

DISTURBANCES IN KANSAS .- Advices from Kickapoo, Kansas, announce a conflict at Eason, between a company from Lawrence, under Captain Brown, and the Kickapoo Rangers. Several were killed and wounded on both sides. A large number of persons were flocking to Easton. The disturbance is supposed to have originated at the election on the 15th.

In Oregon an Indian war has been raging for some time. The Indians are dissatisfied with the treaties recently made by Gov. Stevens with them, and they threaten to carry on a war of extermination against the whites .-Measures have been taken by the U.S. Government to prevent it, but a number of persons have already been killed.

PHILADELPHIA, Jan. 19 .-- Flour sold this day at \$8.25 to \$9.50 for common and fancy brands; Wheat, red, \$2, white \$2,15. Rye steady at \$1,20. Corn is scarce and in fair demand at 80 to 86 cents. Oats 44.

N. Y. LEGISLATURE-SPEAKER ELECTED .-Attany, Jan. 16 .- Orville Robinson (Soft Dem.) has been elected Speaker of the House. A union of the Republicans and Softs was effected to accomplish the result.

Clearfield Nov. 14, 1835.

MFORTANT TO HOUSEKEEPERS AND FRUIT GROWERS .--- ARTHUR'S FATent Air-Tight Self-Scaling Cans and Jars, for Preserving Fresh Fruits, &c. - This invention for which a patent has been obtained, commends it-self to the attention of Housekeepers and others, on account of its great simplicity, and the effectu-al manner in which it accomplished a very desi-

rable and useful object The cans and jars are constructed with a channel around the mouth, nerr the top, into which the cover fits loosely. This channel is filled with a very adhesive cement, prepared for the purpose and allowed to harden. In order to seal the vesel hermetically, it is only necessary to heat the cover stately, and press it into place. It may be pened with as much case as it is closed, by slightly warming the top. The ordinary tin cans, used for the same purpose for which this is intended cannot be closed, as is well known without the aid of a tinner; are difficult to open, and are generally so much injured in opening as to be useless for future service.

By this simple contrivance, the process of hermetical sealing is placed conveniently within the reach of every individual; and fruit, vegetables and butter (if properly prepared) may be kept, with their natural flavor unimpaired, for an in definite length of time. For sale by MERRELL & CARTER. Clearfield, Sept. 19, 1855 tf.

MICHAEL CONLEY begs leave to inform the citizens of Clearfield and vicinity that he is now digging coal at the bank of Robert Owens, half a mile east of town, where he will have on hands, all winter, a lot of first rate coal, which he will sell at the low rate of FOUR CENTS PER BUSHEL
