DISTRESSING CALAMITY .-- A Family of Eleven Frozen to Death .- An old friend informs us that a neighbor of his, residing upon a cold bleak portion of the suburbs, has been visited by a dreadful calamity, one most afflicting to the parties bereft, and which made us shudder when he, in a feeling manner, broached to us the sad intelligence. The whole offspring of a family- eleven in number-frozen, literally frozen to death ! It is too well known that Wednesday night was one of the very coldest that has transpired for many a year in this latitude ; and that suffering was intense. The miserable wreck of a shanty in which this large family were harbored was searce fit to protect the hardiest of the brute creation. Not a flame nor a spark of fire was beneath the roof to cheer their countenances nor to warm their little feet; but there they were compelled to remain during that entire cold and bitter night-no friend knowing nor dreaming of the intense suffering to which they were being subject, yet it is not to be doubted that had they been only able to make known to the community the precise nature of their distress, the hand of charity would have been extended at least so far as to render them better housed. But this was unfortunately not so; and in the morning, when a guardian of the family looked into the miserable residence, his feelings were deeply touched at seeing the entire eleven frozen stiff in death; and he at once censured himself for not having exercised a better protective care over the family. The bereaved mother of the eleven little ones was yet alive, and we are informed is doing sas well as could be expected under the peculiar circumstances." The father is a perfect brute, a perfect hog, and has not been seen by the mother for several months .- Baltimore Repub-

RAVAGES OF WOLVES IN IOWA-Two persons Dercured .- Owing to the extreme cold weather for some time past, the wolves in Pottowatomie County have become dangerous neighbors. Poultry yards and sheep folds have been robbed to a frightful extent, and in several instances the hungry beasts have not been inprayer-me spare the human species. About prayer me spare the was returning from a ters, one sixteen and the other twenty-three years of age. They were all riding the same horse, when suddenly a pack of timber wolves assailed them, and being unable to escape by flight, they attempted to defend themselves. But the ferocious brutes attacked the horse, rendering him unmanageable. The oldest daughter was partly thrown and partly dragged to the ground, and instantly devoured. This enabled the father and the other daughter to escape. Several neighbors were soon muster-

DELUGE IN THE PLANET SATURN .- In a recent | EXTRA FAMILY FLOUR, for sale by ork, entitled "The New Theory of the Creaon and Deluge," among other startling predictions it is stated that it is probable the rings which surround Saturn are composed of water, snow or ice, which, at some future time may descend and deluge that planet, as ours was deluged in the days of the patriarch Noah." It now appears that this event is likely to take place a little sooner than was anticipated, for Sir David Brewster says: "Mr. Otto Struve and Mr. Bond have lately studied with the great Munich telescope, at the Observatory of Pulkoway, the third ring of Saturn, which Mr. Lassells and Mr. Bond discovered to be fluid. "These astronomers are of the opinion that this fluid ring is not of very recent formation, and that it is not subject to rapid change; and they have come to the extradordinary conclusion that the inner border of the ring has, since the time of Huygens, been gradually approaching to the body of Saturn, and that we may expect, sooner or later, perhaps, in some dozen of years, to see the rings united with the body of the planet."

HARD FOR THE BIRDS .- The Woonsocket, R. L. Patrict says that the late cold weather has been very destructive to the birds. Great numbers of quails, partridges, and other birds have been found dead in the woods. Many of the poor things were probably starved to death.

A MONSTER CRIMINAL .- The English papers record the arrest of a man named Evans on a charge of having poisoned his wife, his brother his friend, and thirteen other persons. His wife, before marriage, was a ward in Chancey, and entitled to a large fortune. Her guardian resolutely opposed the match, and the Master in Chancery also withheld his consent for some time. Both finally yielded to the entreaties of the young lady, and yet it is believed that she was subsequently murdered by her infamous husband. He was a finished gambler.

THE CLAYTON-BULWER TREATY .- The President communicated to the Senate in Executive session, on Monday, Lord John Russell's letter of January 19, 1853, to Mr. Crampton, and which was then submitted to Mr. Everett, Secretary of State. It declares that the British Government intends strictly to carry out the Clayton-Bulwer Treaty, and to assume no sovereignty, directly or indirectly, in Central America. The Senate has removed the injunction of secresy, and the letter will be published.

THE LAW OF THE STREET .- Referring to the recent case in Boston, in which the right to the road was contested, the Providence Journal remarks : "In crossing the street, at a regular crossing intended for foot passengers, the road belongs to the man on foot, and the carriage must go at such a pace as will not endanger him. In crossing the middle of the street where there is no paved crossing, it is different; but even there, the driver is bour to proceed not only at a moderate par- at with due caution.

MPORTANT TO HOUSEKEEPERS AND FRUIT GROWERS .--- ARTHUR'S PATent Air-Tight Self-Sealing Cans and Jars, for Preserving Frish Fruits, &c.-This invention for which a patent has been obtained, commends it-self to the attention of Housekcepers and others,

on account of its great simplicity, and the effectual manner in which it accomplished a very desirable and useful object

The cans and jars are constructed with a channel around the mouth, nerr the top, into which the cover fits loosely. This channel is filled with very adhesive coment, prepared for the purpose and allowed to harden. In order to seal the yessel hermetically, it is only necessary to heat the cover slightly, and press it into place. It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans, used for the same purpose for, which this is intended, cannot be closed, as is well known without the aid of a tinnsr; are difficult to open, and are generally so much injured in opening as to be useless for future service.

By this simple contrivance, the process of hermetical scaling is placed conveniently within the reach of every individual; and fruit, vegetables and butter (if properly prepared) may be kept with their natural flavor unimpaired, for an in definite length of time. For sale by MERRELL & CARTER.
