IMPORTANT TO HOUSEKEEPERS AND FRUIT GROWERS.—ARTHUR'S PATENT Air-Tight Self-Sealing Cans and Jars, for Preserving Fresh Fruits, &c.—This invention for itself has been obtained, commends itself to the attention of Housekeepers and others, on account of its great simplicity, and the efficient manner in which it accomplished a very desirable and useful object. The cans and jars are constructed with a channel around the mouth, near the top, into which the cover is loosely fitted. This channel is filled with a very adhesive cement, prepared for the purpose and allowed to harden. In order to seal the vessel hermetically, it is only necessary to heat the cover slightly, and press it into place. It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans, used for the same purpose, which are intended, cannot be closed, as is well known without the aid of a tinner; are difficult to open, and are generally so much injured in opening as to be useless for future services. By this simple contrivance, the process of hermetic sealing is placed conveniently within the reach of every individual; and fruit, vegetables and butter (if properly prepared) may be kept with their natural flavor unimpaired, for an indefinite length of time. For sale by MERRELL & CARTER. Clearfield, Sept. 19, 1855.

GIVE THEM A TRIAL!—SILVER'S PLASTIC PAINTS.—CHEAP, DURABLE AND PROTECTIVE. WEATHER & FIRE-PROOF. These Paints will stand any climate, without crack or blister, and are perfectly impervious to rust, making in time an enamel of Stone, protecting Wood from decay, and Iron and other metals from rust and corrosion. They differ essentially from the so-called Mineral Paints of the day, which are principally Ochres, and Clays, and are entirely worthless. SILVER'S Plastic Paints are purely METALLIC, containing no Alum or Clay. They are applied with a brush, and require no grinding, and flow under the brush as freely as the best White Lead, and excel all others in body or covering properties, one pound of which will cover as much surface as two pounds of White Lead, and are entirely without lead. They are particularly adapted to painting the outside of BUILDINGS, FENCES, STEAMBOATS, CARS, AND IRON WORKS. REMEMBER! Exposure hardens and increases the durability of these PAINTS. DIRECTIONS.—Mix with pure Linseed Oil, as thickly as possible, and apply the last time or agent in spreading it. FLEMING & RICHARDS, GENERAL WHOLESALE AGENTS, N. W. corner Tenth and Market Streets, PHILADELPHIA. For sale, Wholesale and Retail, Dry and Ground in Oil, by SAM'L BEALLS, Tyrone City, Pa.
