

THE RAFTSMAN'S JOURNAL.

NOZIONI OF BEAUTY.—The Japanese women grind their teeth, the Indians paint them red, whilst in Gazuret the pearl of the teeth, to be beautiful, must be dyed black. The ladies of Arabia stain their fingers and toes red, their eyebrows black, and their lips blue. In Persia, they paint a black streak round the eyes, and ornament their faces with various figures. In Greenland, the women color their faces with green and yellow, whilst the hottentot women paint in compartments of red and black. Hindoo females, when desirous of appearing particularly lovely, smear themselves with a mixture of saffron and turmeric. In ancient Persia, an aquiline nose was often thought worthy of the crown, but the Sumatran mother carefully flattens the nose of her daughter. — *Eastern Sketches.*

LORD SEAFORTH, who was born deaf and dumb, was to dine one day with Lord Melville. Just before the time of the company's arrival, Lady Melville sent into the drawing-room a lady of her acquaintance, who could talk with her fingers to dumb people, that she might receive Lord Seaforth. Presently Lord Guilford entered the room; and the lady, taking him for Lord Seaforth, began to play her fingers very nimbly; Lord Guilford did the same; and they had been carrying on the conversation in this manner for about ten minutes when Lady Melville joined them. Her female friend immediately said, "Well, I have been talking away to this dumb man." "Dumb!" cried Lord Guilford; "bless me! I thought you were dumb." — *Rogers' Table Talk.*

A LADY IN COMMAND.—It will be remembered that Lieut. Montgomery, of the United States Army, not long since lost his life in the service, in Oregon. His death left his widow, formerly Miss Northrop, of Akron, Ohio, and one child, in comparative penury, as is generally the case with those who devote their lives to their country's service. She returned, and Gen. Jessup, with the kindness of heart and chivalry which characterise a brave soldier, immediately gave to her, it is stated, the trust of Fort Gratiot, now unoccupied by a garrison, a duty which she can fulfil, and the pay of which is very fair.

SADLY BEAUTIFUL.—The New York Mirror says there is a young lady in that city so dazlingly beautiful, that her guardians do not dare to allow her to go out of the house. She remains shut up at home, and is only visible to female visitors. What a blessing the small-pox would be to this imprisoned belle! It should be added, that, with the "fatal gift of beauty," the young lady possesses other charms amounting to about \$800,000.

TO KEEP A STOVE BRIGHT.—Make weak alum water, and mix your "British Luster" with it; put two teaspoonfuls to a gill of alum water, let the stove be cold, brush it with the mixture, then take a dry brush and luster, and rub the stove till it is dry. Should any parts be before polishing, become so dry as to look gray, moisten with a wet brush and proceed as before. By two applications a year it can be kept as bright as a coach body. — *Er.*

THERE was a fellow in New York State that asked a young lady out to ride; the young lady agreed; he drove around to the house at the appointed time; a young lady made her appearance dressed in the prevailing fashion; having got herself and hoops into the cutter, the young man saw that there was no chance for him, whereupon he mounted the horse's back and drove off in triumph. Gallant young man!

PLUM TREES.—It is said that Mr. John Brush, of Brooklyn, has saved the plums on a number of trees, the last season, by binding bunches of tansy upon the limbs in several places. — The fruit upon the trees thus treated ripened to perfection; while that near by, not thus protected, was entirely destroyed by the curculio. This is an item worth remembering for the coming season.

A SOMEWHAT ECCENTRIC, yet celebrated judge, some years ago, was asked by a counsellor to put down a case for the last Friday in the month of March, which happened to be Good Friday. His honor indignantly replied: "No, sir, I won't set any cause down for that day. There never was but one judge who tried a case on that day—that was Pontius Pilate sir."

The Washington Star cautions the public against spurious quarter eagles, which have made their appearance in the eastern cities. They are dated 1854, and are well executed, save their brassy color and light weight.

"I don't wish to say anything against the person in question," said a very polite gentleman, "but would merely remark, in the language of the poet, that to him truth is strange, a stranger than fiction."

WEALTHY.—Prince Paskiewitch, of Russia, died, worth 70,000,000 Polish florins, (about \$7,000,000.) He has bequeathed 30,000,000 florins to his son, and the balance between his two daughters.

A CITIZEN down east was dubbed "the little rascal." A friend once volunteered to ask him why he was called the little rascal. "To distinguish me from my neighbors, who are all great rascals!"

"THERE, JONAS," that's twice you've come home and forgotten that lard." "Really, mother, it was so greasy that it slipped my mind."

The man that can stop rum-drinking "whenever he has a mind to," has gone West to dine with Perpetual Motion.

WOMAN'S "Empire State" is matrimony. — Here she is always in the majority—always vigorous and sometimes stormy.

A WESTERN Editor says that many of his patrons would make good horses—they hold back so well.

AN EDITOR, out West, boasts that he had a talk with a woman, and got the last word.

IMPORTANT TO HOUSEKEEPERS AND FRUIT GROWERS.—ARTHUR'S PATENT AIR-TIGHT Self-Sealing Cans and Jars, for Preserving Fruit, Fruit, &c. For the purpose of which a patent has been obtained, commends itself to the attention of Housekeepers and others, on account of its great simplicity, and the effectual manner in which it accomplished a very desirable and useful object. The cans and jars are constructed with a channel around the mouth, near the top, into which the cover is loosely fitted. This channel is filled with a soft adhesive cement, which, when the cover is allowed to harden. In order to seal the vessel hermetically, it is only necessary to heat the cover slightly, and press it into place. It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans, used for the same purpose, for which this is intended, cannot be closed, as is well known without the aid of a tinner, who is difficult to obtain, and is generally so much injured in opening as to be useless for future service. By this simple contrivance, the process of hermetically sealing is rendered convenient within the reach of every individual; and fruit, vegetables and butter (if properly prepared) may be kept, with their natural flavor unimpaired, for an indefinite length of time. GIVE THEM A TRIAL.—SILVER'S PATENT FIRE-PROOF WEATHER & FIRE-PROOF. These Paints will stand any climate, without crack or blister, and harden by exposure; thus protecting the wood from decay, and iron and other metals from rust and corrosion. They differ essentially from the so-called Mineral Paints of the day, which are principally Ochres, and Clays, and are entirely worthless. — SILVER'S Patent Paints are purely METALLIC, containing no Alumina or Clay. They are levigated finely, mix readily with Linseed Oil, and are perfectly fire-proof, and flow under the brush as freely as the best White Lead, and excel all others in body or covering properties, one pound of which will cover as much as two pounds of White Lead, and reducing the cost two-thirds. There are six distinct colors, viz: — Olive, Light Brown, Light Chocolate, Black, Dark Do., Deep Do. — All equally valuable as a preservative, and particularly adapted to painting the outside of BUILDINGS, FENCES, STEAMBOATS, CARS, TIN AND IRON WORKS. — REMEMBER! Exposure hardens and increases the durability of these PAINTS. — DIRECTIONS.—Mix with pure Linseed Oil, as thick as possible, and the paint is the lasting or protecting body, and the oil simply the medium, or agent in spreading it. — LIBERAL AGENTS, GENERAL WHOLESALE AGENTS, N.
