On the 22nd January 1840, Mr. Buchanan made a speech in the United States Senate, (vide Congressional Globe, for Jan. 1840, pp. 125-6, or Niles' Register vols. 67 and 68,) in which the following passages occur:-

"In Germany, where the currency is purely metalic, and the cost of everything is REDUC-ED to a hard money standard, a piece of broadcloth can be manufactured for fifty dollars, the manufacture of which, in our country from the expansion of paper currency would cost one hundred dollars. What is the consequence? The foreign French and German manufacturer imports this cloth into our country and sells it for a hundred. Does not every person perceive that the redundancy of our currency is equal to a premium of one hundred per cent. in favor of the manufacturer.

"No tariff of protection, unless it amounted to prohibition, could counteract these advantages in favor of foreign manufactures. I would to heaven that I could arouse the attention of every manufacturer of the nation to this important subject.

"What is the reason that, with all these advantages and with the protective duties which our laws afford to the domestic manufacture of cotton, we cannot obtain exclusive possession of the home market, and successfully contend for the markets of the world? It is simply because we manufacture at the nominal prices of our own inflated currency, and are compelled to sell at the real prices of other nations. REDUCE OUR NOMINAL TO THE REAL STANDARD OF PRICES THROUGHOUT THE WORLD, AND YOU COV-ER OUR COUNTRY WITH BLESSINGS AND BENEFITS.

"The comparative Low PRICES of France and Germany have afforded such a stimulous to their mannfactures, that they are now rapidly extending themselves, and would obtain possession, in no small degree, even of the English home market, IF IT WERE NOT FOR THEIR PROTECTIVE DUTIES. While British manufactures are now languishing, those of the continent are springing into a healthy and Aigorous existence."

Having thus given Mr. Buchanan's own smooth and polished language, let us see what is the meaning of it in plain English, when he says "reduce our nominal standard of prices throughout the whole world, and you cover the country with blessings and benefits."-Now, what did Mr. Buchanan mean by this language, if he meant anything, but that our standard of prices should be reduced to that of the hard money currency of Europe? And what is the European standard then, to which he desired our own to be reduced? According to the best authorities on that subject, Porter's Progress and Wade's History of the Middle and Working Classes, two recent publication's, containing statistics collected by the British Government, the standard of prices for labor in Europe, is as follows :-

Wages in France .- Calais common laborers 71d, per day, with board, and without dwelling; Boulogne, 5d. per day, do. do.; Nantes, 8d, per day, without board and without dwelling : Marseilles. 4d. to 7d. per day, with board and without dwelling. The food in some districts "consists in rve bread, soup made of millet, cakes made of Indian corn, now and then some salt provisions and vegetables, rarely, if ever, butcher's meat." In others, "wheaten bread, soup made with vegetables, and a little grease or lard twice a-day, potatoes, or other vegetables, but seldom butcher's meat.

Sweden .- "The daily wages of a skilled agriculturist are 7d. or 8d.; while the unskilled obtain no more than 3d. or 4d. and board themselves. Agriculturists in the southern provinces live upon salt fish and potatoes; in the northern provinces, porridge and rye bread Bavaria .- "Laborers are paid at the rate of

8d. per day, in the country," without board. Belgium .- "A skilled artizan may earn, in Summer, 1s. 2. to 1s. 5d.; in Winter, from 10d. to 1s. 2d.; unskilled, half as much, without board; live upon rye bread, potatoes, and milk." Agricultural laborers have less. Germany .- "Dantzig, laborers, 44d. to 7d.

per day, without board; Muhlburg, 7d. per day, without board; Holstein, 7d. per day, without board." Netherlands .- South Holland laborers, 3d.

to 4d. per day, with board; North Holland, 20d. per day, without board; Antwerp 5d. per day, do.; West Flanders, 96s, to 104s. per per year, with board."

Italy .- "Trieste laborers, 12d. per day, without board ; do. 6d. per day, with board ; Istria, 8d. to 10d. per day, without board; do. 4d. to 5d. per day, with board; Lombardy, 4d. to 8d a day, do; Genoa, 5d. to 8d. per day, do, and without lodgings; Tuscany, 6d. per day, without either."

Saxony .- "In 1837 a man employed in his own loom working very diligently from Monday morning to Saturday night, from 5 o'clock in the morning until dusk, and even at times with a lamp, his wife assisting him in finishing and taking him the work, could not possibly earn more than 20 groschen (about 60 cents) per week. Nor could one who had 3 children aged 12 years and upwards, all working at the loom as well as himself, with his wife employ ed doing up the work, earn in the whole more than \$1 weekly."

These are facts which speak for themselves. This is the doctrine of James Buchanan, in 1840. Ten cents is about the average standard of European labor. And it is to this standard he wished ours to be reduced. How do you like it, ye honest laboring men of Pennsylvania?

MPORTANT TO HOUSEKEEPERS AND FRUIT GROWERS.---ARTHUR'S PATent Air-Tight Self-Sealing Cans and Jars, for Preserving Fresh Fruits, &c.—This invention for which a patent has been obtained, commends itself to the attention of Housekeepers and others, on account of its great simplicity, and the effectu-al manner in which it accomplished a very desi-

rable and useful object The cans and jars are constructed with a channel around the mouth, near the top, into which the cover fits loosely. This channel is filled with a very adhesive cement, prepared for the purpose and allowed to harden. In order to seal the vessel hermetically, it is only necessary to heat the cover slightly, and press it into place. It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans. used for the same purpose for which this is intended, cannot be closed, as is well known without the aid of a tinner; are difficult to open, and are generally so much injured in opening as to be useless for

By this simple contrivance, the process of hermetical scaling is placed conveniently within the reach of every individual; and fruit, vegetables and butter (if properly prepared) may be kept, with their natural flavor unimpaired, for an in definite length of time. For sale by

AYER'S CHERRY

PECTORAL, FOR THE RAPID CURE OF Colds, Coughs, and Hoarseness.

BRIMFIELD, Mass., 20th Dec., 1858.
DR. J. C. Aten: I do not hesitate to say
the best remedy I have ever found for
Coughs, Hearseness, Influenza, and the
concemitant symptoms of a Cold, is you'r
CHERRY PROPORAL. His constant use in my practice and my family for the last ten years has shown it to possess supe-rior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Urica, N. Y., writes: "I have used your Perconal myself and in my family ever since you invented it, and befiere it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dellars for a bottle than do without it, or take any other remedy." Croup, Whooping Cough, Influenza.

Springfreid, Miss., Feb. 7, 1856.
Brother Ayer: I will cheerfully certify your Pactoral, is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.

HIRAM CONKLIN, M. D. AMOS LEE, Esq., Montrager, I.a., writes, 3d Jan., 1856:
"I had a tedious Influenza, which confined me in doors
six weeks; took many medicines without relief; finally
tried your Pectoral by the advice of our clergyman.
The first dose relieved the soroness in my throat and
lungs; less than one half the bottle made me completely
well. Your medicines are the cheapest as well as the best
we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Ashang or Phthisic, and Bronchitis.

Asthma or Phthisic, and Bronchitis.

West Manchester, Pa., Feb. 4, 1856. Siz: Your Chener Pactoral is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant. last forty years.

A. A. RAMSEY, M.D., ALMON, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CREEKY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its

effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856
DOCTOR ATER, LOWELL: I feel it a duty and a pleasure
to inform you what your CHERRY PECTORAL has done for
my wife. She had been five months laboring under the my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard, ORLANDO SHELBY, OF SHELDTVILLE. Consumptiees, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical mists in the world, and its cures all around us bespeak the high merits of its virtues. - Philadelphia Ledger

Aver's Cathartic Pills.

THE sciences of Chemistry and Medicine have been A taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Prits have virtues which surpass in their office opposite Dr. Lorain's residence, and at night, at Hemphill's Hotel. excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for ch Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cores have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my

afflicted, suffering fellow-men. The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:certificates of their cures, of the following complaints:
