THE RAFTSMAN'S JOURNAL.

"THE NEBRASKAITES THINK." AIR-Jordan is a hard road to travel. The Nebraskaites think they'll come it mighty fine, While the Pope is a treadin' up behind 'em ; But the freemen are so thick, they'll give 'em such That the Pope nor the De'il cannot find 'em.

CHORUS. Then pull off your coat boys, and roll up your sleeves For Jordan is a hard road to travel, So take off your coat, boys, and roll up your sleeves, For Jordan is a hard road to travel, I believe.

Oh, they went to Cincinnati, for to find a big gnn, And they loaded up a "ten-cent" Boo-cannon;

But they'll find him at the polls either flash'd in the pan.

Or busted to the other side of Jordan.

We will send Fremont out, in search of the lost, Those principles of Jefferson accordin'; And Kansas shall be free, and that cursed slavery, Shall be sent to the other side of Jordan.

For John C. Fremont is the man that we want, And Dayton, too, will work in the traces; Then cast in your votes, boys, put him in the chair, Which Pierce now so wofully disgraces.

IMPORTANT TO HOUSEKEEPERS AND FRUIT GROWERS.---ARTHUR'S PAT-ent Air-Tight Self-Sealing Cans and Jars, for Preserving Frish Fruits, &c. — This invention for which a patent has been obtained, commends it-self to the attention of Housekeepers and others, on account of its great simplicity and the affects on account of its great simplicity, and the effectual manner in which it accomplished a very desirable and useful object

The cans and jars are constructed with a channel around the mouth, near the top, into which the cover fits loosely. This channel is filled with a very adhesive cement, prepared for the purpose and allowed to harden. In order to seal the vessel hermetically, it is only necessary to heat the cover slightly, and press it into place. It may be opened with as much ease as it is closed, by slightly warming the top. The ordinary tin cans, used for the same purpose for which this is intended, cannot be closed, us is well known without the aid of a tinner; are difficult to open, and are generally so much injured in opening as to be useless for future service

By this simple contrivance, the process of her-metical scaling is placed conveniently within the reach of every individual; and fruit, vegetables and butter (if properly prepared) may be kept, with their natural flavor unimpaired, for an in definite length of time. For sale by MERRELL & CARTER.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary com-plaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dan-gerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formi-dable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be om-ployed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Christian Phieronia saves more lives by the con-sumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neg-lect them until no human skill can master the incorable canker that, fastened on the vitals, eats your life avay.
