People's National Ticket. FOR PRESIDENT, JOHN C. FREMONT,

OF CALIFORNIA.

FOR VICE PRESIDENT. WILLIAM L. DAYTON, OF NEW JERSEY.

THE RESULT.

The election held in this State on the 14th, It would seem, has resulted in favor of the Locofocos. We cannot say what the majority will be until the official returns are received; but we do not think that it will exceed 3,000. When all things are considered, the result is not surprising, for among the causes which produced it, the importation of voters stands prominent. We have good reason for thinking that from 15,000 to 30,000 illegal votes were cast in this State for the Locofoco ticket. In Philadelphia, the frauds were extensive, and committed with unparalleled boldness. Thousands of persons were assessed and permitted to vote, who had no more legal right to do so than a Turk or Spaniard who had never seen our country. We heard it said, that large numbers of laborers on railroads had been taken to Philadelphia, assessed there, and after having voted in that city, were sent in the cars to Reading, where they had previously been assessed, and voted there again. The enormous and unusual increase of the vote in Philadelphia, of itself, shows that fraud was perpetrated. It must be evident to every one that against such rascality it is hard to contend, and it is apparent that if the illegal votes were taken off, the Union State ticket would have a handsome majority. It is high time a corrective is applied to such frauds, and we feel confident the day is not distant when the honest people will rise in their might and crush these workers of political iniquity.

The Legislature, as near as we can learn, stands :- Senate, 15 Democrats, 18 Opposition; House, 52 Democrats, 48 Oppositiongiving the Democrats a majority of 1 on joint

The Democrats have elected 14 members of Congress, and the Opposition 11.

In our own county, our defeat is attributable in a great measure to the largely increased vote of the Locofocos. Our candidates received nearly 200 votes more than were polled for our candidates last fall, in this county. The Locofocos increased their vote between 400 and 500 over last fall. There were other causes, to which we may refer hereafter.

## UNION ELECTORAL TICKET.

The members of the Republican State Committee, those of the North American State Committee, and a portion of the Fillmore State Committee, met in Philadelphia on the evening of the 17th, and agreed upon a Union Electoral Ticket, upon the following basis :- If successful, the 26 electoral votes to be divided between Fillmore and Fremont in proportion as each shall receive votes at the election on the 4th November. If Fillmore receives half of the Opposition votes, give him half of the electors, and the rest to Fremont; if he gets three-fourths of the votes cast against Buchanan, give him that proportion of electors, &c. This is fair and just. The man that votes the ticket headed with Fillmore's name, votes for Fillmore, and his ballot will count for his candidate; and the individual who deposits a ticket headed with Fremont's name, votes for Fremont, and his vote will count for that candidate. By this ticket, the State could be enrried against Buchanan, if all the opponents of the Cincinnati platform vote it, and no one would lose his political identity. This ticket is what was asked for by the Americans and Republicans of this county, and every man who at heart desires the defeat of Buchanan, will use it. Those whose first choice was Fillmore, and we know that there is a large number of the opposition in this county that occupy that position, can vote for their choice with this ticket, preserve their distinctive Americanism, and at the same time aid in defeating the "old Buck" party; and the Fremont men can do the same thing, without loosing sight of their preferences or principles. The ticket will be found elsewhere in

For SALT RIVER .- Last week we received a ticket for a trip up Salt River, but we have concluded to lay over a short time, as most probably we would have to come down again on the 4th November. We trust our Demo- tion of honest men! cratic friends will not think we are acting uncourteous; and as we will have no need for it after the 4th, we will hand over the ticket to some one of them.

INEFFABLE MEANNESS .- We have been informed that somebody took the trouble of writing on the handbills for our meeting on Monday, that the meeting was postponed, whilst Republican. others circulated that Mr. Clay would not be tendance. But the game wouldn't work ; for, candidate for Governor. In 42 counties, Milmost respectable ever held here. Such das- members of Congress are elected, and probatardly meanness will eventually recoil on its bly six Democrats. Two districts are in doubt.

FREMONT & DAYTON MEETING. The friends of Fremont and Dayton held a large and enthusiastic meeting in Clearfield Borough, on Monday the 20th inst. Delegations from different sections of the county were in attendance. The Woodward delegation was accompanied by a Brass Band, composed of five brothers named Staat. The delegation from Curwensville, Pennville, &c., headed by a band of splendid martial music, was the largest that ever entered this town. Finding that the Court House would be overcrowded, a stand was erected in front of the residence of Jas. B. Graham, Esq., where the meeting was organized by the appointment of

ELLIS IRWIN, President, Elisha Fenton, John Z. Lindemuth, Erasmus Morey, Philip Antes, Joseph Peters, Hon. Thomas B. Davis, Martin Nichols, sr., John Welsh, Jon. Hartshorn, Vice Presidents,

And S.B.Row, Robert Rothrock, Nathaniel Rishel, Secretaries.

After the meeting had been organized, the

President introduced Hon. Cassius M. Clay, of Kentucky, who derivered one of the most powerful speeches we have heard for a long time. He said he was a resident of a slave state, that his father and relatives were slaveholders, but he was opposed to slavery extension. He exposed the humbuggery of the Disunion cry raised by the Locotoco leaders, and of their claiming to be the supporters of the Constitution-instead of sustaining, they were sanctioning the violation of constitutional rights, by their course relative to the outrages in Kansas. He explained the gull-trap of representation, set forth southern equality, and showed that it consisted partly in the aristocracy, or slaveholders, filling all the offices. He drew a comparison between schools and eductation north and south-that with us the children of the poor had the advantages of common school education, but in the south they had no such schools-that a strong prejudice existed against laboring men-that slave and free labor were incompatible and could not flourish together. The South had land enough without Kansasher fertile plains and genial climate-Texas had land enough to make several States, which was yet wild and uninhabited, and over which the buffalo roamed at will. Whilst the South, therefore, would not for a long period of years require any more territory to meet the wants of the 'peculiar institution,' the North was becoming so densely settled, that her manufacturers, mechanics and workingmen would require new fields of labor in which to fulfil the destiny of man on earth. He urged the people to vote for and elect John C. Fremont-that the cry of dissolution was raised by the South merely to intimidate the North-that if Fremont was elected, and any class attempted to sever the Union, he, like Gen. Jackson, would vow, "The Union must and shall be preserved," and the speaker knew Elk, that he would preserve it. He condemned the | Fayette repeal of the Missouri compromise, and aptly | †Eranklin, illustrated the position of those who favor its repeal and the passage of the Kansas-Nebraska act. Very innocent-like they say: "I hear a noise at the door,

I think it is a lion roar, Master, shall I let him in, You can turn him out again."

The slavery lion is let in, but they will experience some trouble in turning him out.

Neither time nor room will permit us to follow Mr. Clay through the whole of his speech. He presented many things in a light that was new, as well as interesting and instructive. He gave some severe thrusts to the Democracy, which, as well as overything else he said, will as a matter of course be pronounced "Abolition lies" by the Locofocos. Mr. Clay is a Warren, man who has the moral courage to throw aside the fetters of sectional prejudice and declare | Wyoming. his honest convictions.

After Mr. Clay had finished, the meeting adjourned to meet at the Court House in the evening, when spirited speeches were made by R. C. Winslow, John M. Chase and C. Jeffries. The proceedings in the day and evening were enthusiastic and cheering, and we feel convinced that a correct feeling is rapidly taking hold of the hearts of the people.

## The Meeting of the Return Judges-Close of Yesterday's Proceedings-Another Exciting

After we had gone to press yesterday afternoon, it was discovered that there was a disparity between the return made from the Ninth Ward and the precinct returns handed into the office of the Prothonotary the morning after the election. The original return of the officers of the fourth precinct of the Ninth Ward was brought in, and it was discovered that according to it Mr. Ramsey had but 137 votes. instead of 157 as returned yesterday. This difference of twenty votes turns the scale and elects Mr. George R. Smith by a majority of three votes .- Phil'a Bulletin.

## THE WAY IT WAS DONE!

The figures of the election at Philadelphia exhibit a strange result. At the Mayors election held this spring, the total vote amounted to 55,259. At the election on the 14th, the vote reached 66,476-being an increase of 11,-217; in less than five months. Such an increase is unnatural, and must be fraudulent. Besides, this is a larger vote than New York, the largest City in the United States, has yet polled, by 6,109. These are facts for the considera-

25th " John Dick, Union. MEXICO AND ENGLAND .- Late advices from Mexico state that its relations with Great Britian are in a very critical position. It is even rumored that the British Embassy has closed its doors, and suspended all interchange of courtesies with the distracted government of Mexico. A correspondent of the New York Times states that a fleet in the Gulf of Mexico awaits the orders of the British Minister, and that Admiral Bruce, of the Pacific squadron, is ordered on the west coast of Mexico. The cause of the rupture is said to be the delay in the settlement of the old affair of Barron. Forbers & Co., and the unwillingness or inability of the Mexicans to pay their indebtedness to British subjects. Mexico is also in peril of an attack from a Spanish squadron, and, what with internal fends and external assaults, she bids fair to be pretty thoroughly shaken.

DEPTH OF THE OCEAN .- On Monday 13thOct. the United States steamer Arctic arrived at the Brooklyn Navy Yard, from her expedition across the Atlantic. She sounded the Atlantic all the way across, finding the greatest depth 2070 fathoms, [more than two miles.] It was not accomplished without difficulties, as many of the instruments used were new inventions; but the persevering spirit of Captain Berryman and his officers conquered every obstacle. The bed of the ocean, in the section traversed by the Arctic, is a plateau, as already announced by Captain Berryman, who had twice before sounded across the Atlantic. The bottom in the deeper part is a very fine mud, of a mousegray color so soft that the sounding instrument frequently sank several feet into the mud .-They brought up specimens of the bottom, at every sounding, in quills which were attached to the end of the sounding instrument. Towards the shore on each side, this mud changes into a fine green ooze. No other substances were met with, no rock, nor anything that might prove fatal to a telegraph wire. There seems to be now nothing to hinder the great work, to unite Europe and America by means of a Telegraph wire, an undertaking so grand that few thought it possible. The whole distauce across was found to be 1640 sea miles from St. John, N. F., to Valentia Harbor, Ireland. The greatest depth was found nearly in the centre between these two places. The profile of the Atlantic bed, on this route, is of by far easier grade than many of our railroad profiles. The officers who accompanied Captain O. H. Berryman were-Lieut. J. G. Strain.
