BUCHANAN AND LOW WAGES. On the 22nd January 1840, Mr. Buchanan made a speech in the United States Senate, (vide Congressional Globe, for Jan. 1840, pp. 135-6, or Niles' Register vols. 67 and 68,) in which the following passages occur :-

"In Germany, where the currency is purely metalic, and the cost of everything is REDUCno to a hard money standard, a piece of broadcloth can be manufactured for fifty dollars, the manufacture of which, in our country from the expansion of paper currency would cost one hundred dollars. What is the consequence? The foreign French and German manufacturer imports this cloth into our country and sells it for a hundred. Does not every person perceive that the redundancy of our currency is equal to a premium of one hundred per cent. in favor of the manufacturer.

"No tariff of protection, unless it amounted to prohibition, could counteract these advantages in favor of foreign manufactures. I would to heaven that I could arouse the attention of every manufacturer of the nation to this important subject.

"What is the reason that, with all these advantages and with the protective duties which our laws afford to the domestic manufacture of cotton, we cannot obtain exclusive possession of the home market, and successfully contend for the markets of the world? It is simply because we manufacture at the nominal prices of our own inflated currency, and are compelled to sell at the real prices of other nations. REDUCE OUR NOMINAL TO THE REAL STANDARD OF PRICES THROUGHOUT THE WORLD, AND YOU COV-ER OUR COUNTRY WITH BLESSINGS AND BENEFITS.

"The comparative Low PRICES of France and Germany have afforded such a stimulous to their mannfactures, that they are now rapidly extending themselves, and would obtain possession, in no small degree, even of the J. M. Murrey, with a house and barn thereon erec-English home market, IF IT WERE NOT FOR THEIR PROTECTIVE DUTIES. While British man-ufactures are now languishing, those of the continent are springing into a healthy and der and John McCoy, terra tenants. Aigorous existence."

Having thus given Mr. Buchanan's own smooth and polished language, let us see what is the meaning of it in plain English, when he says "reduce our nominal standard of prices throughout the whole world, and you cover the country with blessings and benefits."-Now, what did Mr. Buchanan mean by this language, if he meant anything, but that our standard of prices should be reduced to that of the hard money currency of Europe? And what is the European standard then, to which he desired our own to be reduced? According to the best authorities on that subject, Porter's Progress and Wade's History of the Middle and Working Classes, two recent publication's, containing statistics collected by the British Government, the standard of prices for labor in Europe, is as follows :-

Wages in France.-Calais common laborers 71d, per day, with board, and without dwelling; Boulogne, 5d. per day, do. do.; Nantes, 8d, per day, without board and without dwelling; Marseilles. 4d. to 7d. per day, with board and without dwelling. The food in some districts "consists in rye bread, soup made of millet, cakes made of Indian corn, now and then some salt provisions and vegetables, rarely, if ever, butcher's meat." In others, "wheaten bread, soup made with vegetables, and a little grease or lard twice a-day, potatoes, or other vegetables, but seldom butcher's meat."

Sweden .- "The daily wages of a skilled agriculturist are 7d. or 8d.; while the unskilled obtain no more than 3d. or 4d. and board themselves. Agriculturists in the southern provinces live upon salt fish and potatoes; in the northern provinces, porridge and rye bread form their food."

Bavaria .- "Laborers are paid at the rate of 8d. per day, in the country," without board. Belgium .- "A skilled artizan may earn, in Summer, 1s. 2. to 1s. 5d.; in Winter, from 10d. to 1s. 2d.; unskilled, half as much, without board; live upon rye bread, potatoes, and milk." Agricultural laborers have less.

day, without board; Holstein, 7d. per day, without board."

Netherlands .- South Holland laborers, Sd. to 4d. per day, with board; North Holland, 20d. per day, without board ; Antwerp 5d. per day, do.; West Flanders, 96s, to 104s. per

per year, with board." Haly .- "Trieste laborers, 12d. per day, without board; do. 6d. per day, with board; Istria, 8d. to 10d. per day, without board; do. 4d. to 5d. per day, with board; Lombardy, 4d. to 8d a day, do; Genoa, 5d. to 8d. per day, do, and without lodgings; Tuscany, 6d. per day, with-

out either."

Saxony .- "In 1837 a man employed in his own loom working very diligently from Monday morning to Saturday night, from 5 o'clock in the morning until dusk, and even at times with a lamp, his wife assisting him in finishing and taking him the work, could not possibly earn more than 20 groschen (about 60 cents) per week. Nor could one who had 3 children aged 12 years and upwards, all working at the foom as well as himself, with his wife employed doing up the work, earn in the whole more

than \$1 weekly." These are facts which speak for themselves. This is the doctrine of James Buchanan, in 1840. Ten cents is about the average standard of European labor. And it is to this standard he wished ours to be reduced. How do you like it, ye honest laboring men of

Pennsylvania? A printer out West, whose first son happened to be a very short, fat little fellow, named him Brevier Fullfaced Jones.

day week fully three-fourths of the Irishmen at work on the Louisville and Portland Canal were discharged. On Monday and Tuesday few or none of them could be found in Louisville; but the vote of Floyd county, Indiana, just opposite over the river, was increased by about the number of discharged Irish.

Hon. Thomas F. Marshall, of Kentucky, delivered a speech in Louisville, on the 18th inst, in which he recommends a union of the Fremont and Fillmore men where it was necessary, to beat Buchanan.

A MARVELLOUS REMEDY FOR A MARVELLOUS AGE !! HOLLOWAY'S OINTMENT.

THE GRAND EXTERNAL REMEDY. BY the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affec-tions of the Heart, inflammation of the Lungs Asthmas, Coughs and Colds, are by its means of feetually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

[ERYSIPELAS, SALT RHEUM AND SCORBUTIC HUMORS.

No remedy has ever done so much for the cure of diseases of the skin, whatever form they may assume, as this Cintment. No case of Salt Rheum, Scurry, Sore Heads, Scrofula or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment. giving advice as to its application, and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS AND

OLCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Uintment, when having to cope with the worst cases of sores, ulcers wounds, glandular swellings, and tumors. Profes sor Holloway has, by command of the Allied governments, dispatched to the hospitals of the East, large shipments of this Ointment, to be used un der the direction of the Medical staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints even of 20 years' standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot Both the Ointment and the Pills should be used
