Othello was a captain bould, Though black as coal by nature, To Desdemona he was bound, A beautiful young craythure.

With her he led a happy life-For she was no virago-Until one day he chanc'd to meet A villain, named Iago.

Says he, your wife's a perjured jade, She is a fuithless lassie, oh! She doesn't care a straw for you; She'd give your eyes for Cassio.

With him she gallavants about, In all her hours of laysure; She stole your pocket handkerchief

For him to wipe his razior. My handkerchief! my handkerchief! Othello then did stammer; My cotton pocket handkerchief! "Oh, d- her, lewd minx, d- her!"

Neither with dagger, nor with dirk-For that would make a foul stir-But first I'll put the candle out, And shlay her with the boulster!

tOthello, Act III, Scene 3.

All a man has to do in these days to pass for a genius, is to button his coat behind, and wear his hat wrong side out. If he can contrive to stumble over an apple stand two or three times, it will help the matter vastly.

An enterprising but ignorant South American has sent to an Albany locomotive shop, for one hundred "cow catchers." He expects to use them in taking wild cattle on the plains of the Paraguay, in place of the lasso.

At a late fireman's supper at Eurlington, Edward Bradley gave the following toast:-"Ladies of '56, like the fireman's bucket, well hooped; and, like firemen, delighting in the AVE YOU SUBSCRIBED exhibition of their hose."

A widely known gent, having been arrested for stealing a gold watch, gave as an excuse that he was unwell; that the doctor told him he had better "take something," and he had "taken" a watch.

Snow flakes, it is said, fall so large in Oregon that the ladies put handles to them and use them for parasols.

HOLLO-WAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened. ened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD. These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any de rangement in their functions, purifying the blood, the very fountain of life, and thus curing discuse in all its forms.

DISPEPSIA AND LIVER COMPLAINTS. Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach or also are complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have faired.

GENERAL DEBILITY. ILL HEALTH. Many of the most despotic Governments have of pened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for per-sons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many ca-ses like a charm. It is also the best and safest medicine that can be given to Children of all ages. and for any complaint; consequently no family should be without it.
