WALKER'S POLICY .--- Some Paul Pry has seen in Washington city, a copy of Gov. Walker's Slavery decreases wherever it comes in conproposed introductory address to the people of | tact with the immigration of white laborers is Kansas, and has divulged its contents. The demonstrated by a recent State census, which leading points in the address are as follows : The people of Kansas, in the State constitupopulation of the State has increased thirtytion which they are about to frame (pro-slavery) must settle the slavery question for themhas increased but fifteen per cent. in the same selves. The President recognizes the validitime. The high prices which negroes comty of the local laws (pro-slavery) providing mand in the Cotton-growing States operate at for the June election, &c.; and in regard to the same moment to promote the results we the stand aloof policy adopted by the free are noticing; and as the extreme value of cot-State party, Mr. Walker, says: "Throughout | ton bids fair to be maintained for a long time our whole Union, however, wherever free gov- to come, the migratory movement of the ernment prevails, those who abstain from the blacks must continue, in accordance with the exercise of the right of suffrage authorize inevitable laws of trade, and will go on increathose who do vote to act for them in that con- sing until it completely drains those more tingency, and the non-voters are as much Northern Slave States in which other labor bound under the law of the constitution, as can readily be substituted. A prime fieldwell as by an overruling moral necessity, by | hand will now command in the Cotton States the act of a majority of those who do vote, as from \$1,500 to \$2,000, which, at the legal rate though all had participated in the election." He has to enforce the laws; he thinks the provisions for the election are smooth and fair, alent to \$20 per month and board-a price for and if there should be frauds in the election. the Convention will be honest. But then, as a of foreign laborers as would speedily cause last resort, if there is a wrong there is a remedy in Congress. He next says: "I cannot hardy men of Iowa and Illinois, who underdoubt that the Convention, after having framed a State constitution, will submit it by a sel-Missouri, are those who are availing thememn oath for ratification or rejection by a majority of the people of Kansas." He enters into an earnest constitutional argument upon | States enabling the older settlers to dispose of this point. But in this connection he also their improved farms at high prices. Thus says: "I have, ever throughout my life, re- the two forces of cheap lands and dear negarded the framing of a constitution by a congroes are solving a political problem, under vention of delegates as but a mere prelimina- the operation of a natural, or if you please, a ry proceeding, expressing but simply the o- higher, law, which is both inflexible and irrepinions of the convention, but obligatory only when ratified by a solemn vote of the people themselves."

Gov. Walker fore-shadows a new course of policy, thus : "It is true that the constitution of a State, as has been the case with many, may be silent on the subject of slavery; in of the legislative power of a State granted in nominations receive from the press are every Lean, on learning the above facts, immediate one general comprehensive clause, the Legislature of the State, elected by the people, might act on the question of slavery as they have done in other States," &c. He thinks that this forthcoming Convention will have the perfect right to adopt this course of non-intervention in their State constitution. In this pre-arranged address, he gives a new kink to the Administration, faintly suggesting a division of the territory-"the great and fertile Indian country, soon, I hope, to become a State, aided and encouraged by the State of Kansas ;" said "fertile Indian country" to be a slave State. It is to be seen whether the Administration will act upon the suggestion. Evidently, the slavery propagandists now despair of holding the entire territory, and would be thankful to get half the loaf rather than no bread.

ANOTHER STARTLING TRAGEDY. We have the particulars to-day of another

TRAGICAL .- It is with regret that we have to chronicle the homicide committed in our vicinity on Wednesday last, by Mr. Hector II. McLean, late of San Francisco, California, upon the person of a Mormon preacher. The deceased, whose name was Parley Parker Pratt had been a preacher and missionary of the Mormons at San Francisco, California, where he made the acquaintance of Mrs. McLean, whom he induced to embrace the Mormon faith.

She was at that time living with her husband, Hector H. McLean; they were happy and prosperous until she made the acquaintance of Pratt, and embraced the Mormon faith. She is the mother of three children by McLean, two boys and a girl, and seems to be an intelligent and interesting lady; converses fluently, and with more grace and ease than most ladies. About two years ago, and soon after she became a convert to Mormonism, she made an attempt to abduct two of her children to Utah, but was detected and prevented by ship-of-war Orion and Basilisk, and by many her brother, who was then in California, and residing with his brother-in-law, Mr. McLean. She soon after, however, found means to elope with said Pratt to Sait Lake, where it is said that she became his ninth wife.

After the elopement of Mrs. McLean, her parents, who reside near New Orleans, wrote to Mr. McLean, in California, to send the children to them. He did so. Several months after this, Mr. McLean received news that his and the entire conduct of the ceremonies was widow and 10 children. wife had been to her father in New Orleans, and eloped with the two youngest children .-He immediately left San Francisco for New Orleans, and on arriving at the house of his father-in-law, he learned from them that Mrs. McLean had been there, and after an ineffectual effort to convert her father and mother to Mormonism, she pretended to abandon it her-

self, and so far obtained the confidence of her parents, as to induce them to entrust her in the city of New Orleans with the children; of Wilmot and all the candidates of the Peo- but they soon found she had betrayed their which case, in the absence of any prohibition ple's Ticket. DEATH OF LIEUT. STRAIN, U. S. N .- LICUtenant Strain, U. S. N., whose name is well known to all residents on the Isthmus as connected with the Darien Exploring Expedition undertaken by the United States Government in 1853, of which he was the commanding officer, came out a passenger in the Illinois, to day evening in the Lock Haven Cemetry. join the sloop of war Cyane, at Aspinwall, and, we regret to say, died on Thursday night, shortly after his arrival. His remains were interred in Mount Hope Cemetry, the corpse being accompanied to its last resting place by the officers of the Cyane and of the British of the residents of Aspinwall. On arriving at the grave, the Episcopal burial service was read by the Chaplain of the Wabash, and three volleys were fired over the grave by the sailors aforesaid. The pall-bearers and sailors in attendance were in charge of Midshipman Grove, and the sailors (vice marines) in charge of Midshipman Allen. Both these officers and their detachments performed their duties well,

creditably executed.

THE REWARD FOR M'KIM'S ARREST .- The Philadelphia Evening Journal, of the 19th, states that the "large reward" of over twentyfive hundred dollars, offered for the arrest and conviction of David Stringer M'Kim, the murderer of Samuel T. Norcross, has dwindled to five hundred paltry dollars, and for this there are two claimants, Messrs. Koons and Wolf .-This diminution has been caused by the backing out of parties, who, before the arrest, were willing to bestow indefinitely large sums upon the captors. The reward claimed by Wolf has been attached in the hands of the officials at Harrisburg by his creditors. The Journal states that there are several rich phases in connection with the M'Kim affair, which may be made public hereafter.

GENERAL WILLIAM WALKER

The career of Gen. Walker in Nicaragua has been brought at last to its long anticipated termination. On the 1st of May, yielding to the conviction which must long before have forced itself upon his, as it had upon the minds of all calm lookers on, he retired with his staff and 260 men, being the remnant of his force, from Rivas, upon the San Juan del Sur, and went on board the U. S. sloop St. Mary, where the whole party was kindly taken under protection by Captain Davis and brought him to Panama, whence they have found their way in Empire City to New Orleans. They were re ceived upon their landing by a large concourse of citizens, who are said to have lionized them considerably. The General will most probably, if wise certainly, retire at least to his native State of Tennessee, where his father and family reside. He has lost two brothers in the war, and he himself has had a narrow escape. His own, family has suffered with hundreds of others, whose sons have been induced by him into participation in his fillibustering career. The history of his expedition is full of instruction, and it is to be hoped that its moral will not be lost sight of. We shall learn full particulars of his final retreat by the Illinois.now due at New York. It is stated that Walker capitulated to the U.S. Commodore, because he (Capt. Davis) had signified his intention to Walker's reserve, and that Costa Rica was not known in the articles of capitulation. This language is unintelligible to us, as we have had been at war with Walker, or of any instructions having been sent out to Capt. Davis to arrest Walker or to interfere in any way, for or against him.

PROGRESS OF ROMAN CATHOLICISM IN THE U-SITED STATES .- In the year 1808, there were in the United States one diocese, two bishops, sixty-eight priests, eighty churches, two ecclesiastical institutions, one college and two female academies. In 1856 there were fortyone dioceses, two apostolic vicarates, two thousand eight hundred and eighty-two churchos and stations, nineteen hundred and two priests, thirty-five ecclesiastical institutions. sixty-two male and one hundred and seventeen female religious institutions, fifty-eight literary institutions, &c., &c. This increase is mainly the result of the large emigration to this country. The relative strength of the Church is not increasing.

PARTY DISAFFECTION .- A NEW MOVE ON THE CHESS BOARD .- We see it stated that a large number of disaffected Democrats, with the entire body "of the Liquor League," embracing the legion of Dutch and Irish doggery-keepers scattered broad-cast over the State, are about to unite with the straight Americans in the nomination of Col. JOHN W. GEARY for Governor,--Packer and Wilmot both being obnoxious to these very virtuous and excellent patriots. Such a combination if consummated, ought to disgust every good citizen of the country, and we think it would. Running under such auspices. Col. Geary, or anybody else, would merit, as he would receive, a most inglorious defeat.

TTIn Michigan, the Democracy are having a very bad time of it, on the Dred Scott decision. The Kalamazoo Gazette (Democrat) seize upon the schooner Granada, which held went over to the Republicans. The Coldwater Sentinel does the same, and the Grand Rapids Herald says : "There is no use of disguising the fact that the Democratic party of Michigan no information of the United States having is in an exceedingly dispirited condition; and unless there is some change in its tactics or leaders, many a long day will elapse before the reign of Fusionism will cease."

On arriving at Fort Gibson, and while there. he found letters in the postoffice to his wife from Pratt, some of which were mailed at St. Louis, and others at Fint postoffice, Cherokee nation. McLean, then, upon affidavit made by himself, obtained a writ from the United States Commissioner at this place for their arrest, and succeeded in getting them arrested by the United States Marshal. They were brought to this place for trial, and after an examination before the Commissioner, were discharged. Pratt, as soon as released, mounted his horse and left the city. McLean soon after obtained a horse and started in pursuit, and overtook Pratt about eight miles from the city, and shot him. Pratt died in about two hours after receiving the wound. FATAL ACCIDENT .- Two men were killed on the Harrisburg and Lancaster Railroad on Thursday morning, May 28, by the Express Mail Train going west. They were walking towards Harrisburg, on the west track, and stepped to the other to avoid an approaching freight train from the west, not noticing the mail train which was close upon them. The engineer blew his whistle, but the engine struck them before they had time to save themselves, killing them instantly. The name of Fitzgerald was found upon one of them, and a considerable amount of counterfeit money. together with some burglars tools. A boot and shoe store, in Middletown, was broken open and plundered the evening before the accident, and from the fact of the chisels found upon the deceased corresponding with the marks on the rifled premises, it is presumed that the bodies are those of the burglars. > LOOKING GUILTY .- Nothing can be more absurd than the idea of "looking guilty" proves guilt. An honest man charged with crime is much more likely to blush at the accusation than the real offender, who is generally prefor the event, and has his face "ready for the occasion. The very thought of being suspected of anything criminal will bring the blood to an innocent man's cheecks, in nine cases out of ten. The most "guilty looking" person we ever saw, was a man arrested

This invaluable remedy is no quack nostrum, but is prepared from the recipe of a regular physician, who during a practice of twenty-five years, used it with unpar-alleled success. It is a combination of expecto-rant remedies, simple in their character and used

by every educated physician. It is easily taken, produces no nausea or other disagreenble effects and gives almost immediate relief. In this ever changing climate, where coughs and colds so fre quently end in consumption and death, no family should be without this CERTAIN CURE.

It would be easy to follow in the wake of the ven-ders of patent medicine, and multiply certificates got up for the occasion, of miraculous cures, but no such adventitious aid is necessary in introducing this preparation to the public. Its real value, and never failing success, in accomplishing all promised for it, cannot but give it a wide circulation, and recommend it to all those afflicted with diseases f which it is a remedy.
