-----PRETTY Goop .- A few weeks ago a substantial farmer of this county, a staunch republican, had a hired man, an unyielding democrat. The farmer, accustomed to attend church himself, tried very hard to prevail upon the man to do likewise but in vain. The man persisted in spending the Sabbaths in hunting or fishing. On being pressed for the reason why

he would not attend church, his answer was, "Because he is forever preaching politics." The farmer, thinking the argument would be

overcome, if he could only get the man to attend, hired him on a certain Sabbath to go. On returning home the man said :

"There, it was just as I told you it would be -all politics from beginning to end."

"No" said the farmer ; "not so ; there was not a word of politics in the whole discourse." "Yes" said the man, "there was. The text was politics."

"Why, what was it ?" asked the farmer. "This," said the man : "If the Republicans scarcely be saved, where will the cursed Democrats appear ?"

"No, it was not," was the reply. On the contrary, it was, "If the righteous scarcely be saved, where shall the ungodly and sinner appear ?"

"I know it," was the answer ; but darn him, I knew what he meant !"-- Wayne Democrat.

THE NORTH AND THE SOUTH .--- The most cloquent of all Southerners, as I think, Mr. Prentiss, of Miss., was addressing a crowd of some 4,000 people in that State, detending the tariff. and, in the course of an eloquent period which rose gradually to some beautiful climax, he painted the thrift, the energy, the comfort, the wealth, the civilization of the North, in glowing colors, when there rose up on the vision of the assembly, in the open air, a horseman of magnificent proportions; and, just at the moment of thushed attention, when the voice of ment of hushed attention, when the voice of and offer them precisely at prices asked in all oth Frentiss had ceased, and the applause was a- er stores in the city. To agents we make advan bont to break forth, the horseman exclaimed, "D-n the North !" The curse was so much in unison with the habitual feeling of a Mississippi audience, that it quenched their enthusiasm, and pothing but respect for the speaker kept the crowd from applauding the horseman. Prentiss turned his tame foot around and said. "Major Moody, will you rein in that steed a moment ?" He assented. Said he, "Major, the horse on which you sit came from Upper Missouri : the saddle that surmounts him came from Trenton, N. J.; the hat on your head was made in Danbury, Conn.; the linen of your shirt is Irish, and Boston made it up ; your broadcloth coat is of Lowell manufacture, and was cut in New York ; and if to.day you surrender what you owe the "d-n North," you would sit stark naked." ## Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been Is taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PRES have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distempor, stimulate staggish or disor-dered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerons diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being angar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Corehave been made which surpass belief were they not anbstantiated by men of such exatted position and characteas to forbid the suspicion of untruth. Many eminent clorgymen and physicians have lont their names to certify to the public the miliability of my remedice, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.
