TYRONE & CLEARFIELD RAILROAD .- CHEER-ING INTELLIGENCE. - THE WORK PROGRESSING RAPIDLY .- A few days since we received a lettor from our esteemed friend, James E. Montgomery, Esq., the energetic and obliging engincer-in-chief of the Tyrone & Clearfield Railroad-a work in which all are more or less interested, and one which should certainly claim a large share of our time and attentionfrom which we gather the following cheering information relative to the progress of the work on this road. Mr. M. says :-

"The work is progressing very rapidly, and in point of construction very favorably. On the Eastern side of the mountain, the roadway presents quite a finished appearance. Section No. 10, in Emigh's Gap, is completed and has received a final estimate, whilst sections Nos. 7 and 9 are so far advanced as to warrant the belief that they will both receive final estimates at the next meeting of the Board. Sections Nes. 6, 8, 11 and 14, are all very far advanced towards completion and will require but a few weeks to prepare them for the superstructure. The heavy work upon section 12which includes the high embankment across Mount Pleasant Run-is progressing very rapidly and will be finished in good time for the balance of the work. There is a large force employed upon it, and the Contractor, Mr. Campbell, gives the work his immediate supervision. On the Western Division, there is one section (17) entirely finished, and two othconstruct.

"The above will show the amount of work already done upon this important road, and I hope it may serve to awaken new life and increased vigor in its behalf. The friends of the measure should lose no opportunity of bringing this enterprise into general notice, and should not suffer the proper interest to flag."

We feel very much like hurrahing over this intelligence, and we know that it will send a thrill of pleasure through every friend of the road. Many supposed that by this time the work would have been suspended, instead of being, as it actually is, far advanced towards completion. It is needless to speak of the importance of this road, as it must be plainly manifest to every one who has any knowledge of this region of country. But we have no hesitation in expressing it as our opinion, that, when once completed to this place, one-fourth at least of the way-freight that would be shipped from Philadelphia by the Pennsylvania Central Road, would diverge from it at the point where the Clearfield & Tyrone Road in-

route, will be proposed in a short time, and we an instant. trust every one who can possibly go, will do so, and lend his influence in pushing the road to an early completion.

Wheat in old ground is not so good; in some fields it was almost entirely frozen out; but in new ground it is unusually good. The rye and oats are also doing well. The corn will require working immediately, and we may look for a good crep, notwithstanding the backwardness of the season.

CAME BACK .- John Uzzle, who escaped from the jail in this borough, some months since, dinately dear, that the acid in rhubarb, gooseand for whose arrest, together with that of another man named Curly who escaped at the same time, the Sheriff recently offered a re- fauit, and without affecting the flavor. A less ward, came back voluntarily last Thursday and delivered himself up to the Sheriff, and is now serving out the time which he had been senteneed to be imprisoned. The reason he assigned for coming back was, that as a reward had been offered, somebody would apprehend him, and so he thought he might as well return himself. If we recollect aright, he had been sentenced, at the March term of Court, to pay a fine of \$10 and be imprisoned thirty days, for having struck another person with metal knuckles. Curly is still at large.

TOO THOSE WHO WANT FARMS. A FARM WITHIN THE REACH OF EVERY MAN.

THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle or purchase a home can do so. The farms consist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring.— The property is located in Elk County, Pennsylvania, in the midst of a thriving population of some 10.000. The climate is perfectly healthy, and the terrible plague of the west fever is unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$20 per acre, payable in instalments, to be located time of purchasing, or a share of 25 acres entitling to locate the same for \$300, payabln \$6 per month or 121 acres payable S4 per month.— Discount for every sum of S100 and under, paid in advance, a discount of 5 per cent, will be allowed. and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented: First-The soil is a rich limestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great prosperity Second-It is the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market (according to popu lation and travel the greatest in the Union.) has five workable veines of the best Bituminous Coal, amounting in the aggregate to over 22 feet. which makes 22,000 tons of coal under each acre. This will make the land of inestimable value.

Third-The eminent state geologist Dr. Chas T. Jackson of Boston, has made a geological survey of the land, and analysed the coal, the iron ore and the limestone. This report together with mans will be furnished to inquirers.

Fourth-Three railroads are laid out through this property. The Sunbury and Erie Railroad gives us a market for our coal to the Lakes-it runs from Eric to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Eric towards our land in the western direction, the means for the completion of which has been raised-it will soon be finished. The Allegheny Valley Rail road connects us with New York, Boston and Pittsburg. The Venango Road connects as with the
