One of the front wheels of the wagon coming in contact with a log, Mr. M. took hold of it, for the purpose of assisting the horses in pulling the wheel over the log. One horse starting a little sooner than the other, his arm was caught between the wheel and the toona. wagon-bed, and bruised very badly.

CAGED AGAIN .- On last Friday, James Curly was ledged in the county prison, on a charge of setting a barn op fire in Karthaus townmap, a short time since. He was tried, convicted and sentenced to nine months imprisonment in the County jail, at the last August Court, for cutting loose a raft, but escaped however, a short time after he was imprisoned.

Going UP .- Passing down town a day or two since, we observed that the workmen were engaged in laying the foundation of the New Meeting House, which our Baptist friends have had in contemplation of erecting for some time. It is to be a brick edifice. We wish them success in the enterprise in which they are engaged, and hope they may be enabled to complete their building without delay.

POCKET PICKED .-- Col. John Patchin, of Burnside township, this county, had his pocket picked of \$65, whilst getting shaved in a barber shop in Philadelphia, on last Monday evening. There was no other person in the shop at that time, and whilst one fellow was shaving his face, it is supposed the other was shaving his pocket.

FOR THE CURE OF Bronchial affectious Coughs, Colds, Pleurisy, Bron chitis, Asthma, and all other diseases of the throat and lungs, except Consumption. This invaluable field remedy is no quack nostrum, but is prepared from the recipe of a regular physician, who during a practice of twenty-five years, used it with unpar-alleled success. It is a combination of expecto-rant remedies, simple in their character and used by every educated physician. It is easily taken, produces no nausea or other disagreeable effects, and gives almost immediate relief. In this everchanging climate, where coughs and colds so fre-quently end in consumption and death. no family hould be without this CERTAIN CURE.

It would be easy to follow in the wake of the ven-ders of patent medicine, and multiply certificates got up for the occasion, of miraculous cures, but no such aventitious aid is necessary in introducing this preparation to the public. Its real value, and never failing success, in accomplishing all promis-ed for it, cannot but give it a wide circulation, and recommend it to all those afflicted with diseases for edy. Prace 371 C

THE AUCTIC SEARCH AGAIN .- The selfsacrificing devotion of Lady Franklin has been at length again successful, and a new expedition is nearly ready to buffet the storms and breast the ice-drift of the stern and scowling regions of the pole. The London Times took strong grounds against the encouragement by Government of this new expedition, and that excellent monthly, Household Words, as strong from Augusta, Ga., to New York. on the other side. But the wife has at length prevailed, and a screw steam yacht called the Fox, schooner-rigged and built for the late Richard Sutton, is now ready for the perilous search. This vessel is to be strengthened for the service she is to enter upon, and at once got ready for sea. She sails about the last of June, and will be commanded by Capt. Mc-Clintock of the Royal Navy, who has already conducted one expedition in search of Sir John Franklin. It is, we think, quite idle to suppose that there will be any direct fruit of this cruise, or, in other words, that she will ever find so much as a bone of the lost Sir John Franklin. Lady Franklin appears to have found new encouragement in the report of Dr. Kane, who remarks upon the atmost invincible proclivity of himself and men to sink into the status of the Esquimaux, to live on blubber, and dress and hybernate as they do. The inference is that by so doing their lives might have been prolonged, and she acts on the hope that Sir John has become an Esquimaux in habit, and thus perhaps has lengthened out his existence ; or if not he, probably some one or more of h s 136 men.

13 The St. Louis Democrats Quinda Correspondence of the 16th says that the Legislature adjourned on the night of the 13th. Acts were passed providing for taking the census, apporteining the state and providing for an election of state officers and Representatives in Congress on the first Monday of August, and also locating the seat of government at Topeka. A joint resolution was also passed for memoralizing Congress for admission into the Union under the Topeka Constitution .-The census act provides for the appointment of five marshals whose deputies will take the census immediately ; the apportionment of the state will give the Senate not more than 20 members and the House 60. Some of the territorial judges pronounce parts of the census law inoperative. It is reported that Gov. Weiker has been informed that the Constitution will not be submitted to the people.

EMORMOUS GOLD BOULDER FOUND .- The Maryoville Herald says that the Downieville Tunnel Company, at Centreville, have found the largest boulder containing gold perhaps ever struck in California. Up to last accounts they had extracted \$17,000, and had not yet ascertained its full size. They estimate the amount of gold it contains at not less than \$100,000 ! This boulder is a fair set-off to one from Austrail, which the English papers have recently mentioned as being on exhibition in London, and which weighs, (quartz and gold.) four hundred pounds, and is valued by some sanraise individual at £20,000, or \$100,000. | cratic party to paces."

THO THOSE WHO WANT FARMS. A FARM WITHIN THE REACH OF EVERY MAN

THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle of purchase a home can do so. The farms consist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring .--The property is located in Elk County, Pennsylvania, in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the terrible plague of the west fever is unknown. H also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to 529 per aere, payable in instalments, to be located

at the time of purchasing, or a share of 25 acres entitling to locate the same for \$300, payabla \$6 per month or 121 acres payable \$1 per month.-Discount for every sum of \$100 and under, paid in advance, a discount of 5 per cent. will be allowed. and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented :

First-The soil is a rich limestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great prosperity. Second-It is the centre of the great North West loal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to popu-lation and travel the greatest in the Union.) It has five workable veines of the best Bituminous Coal, amounting in the aggregate to over 22 feet, which makes 22,000 tops of coal under each acre. This will make the land of inestimable value. Third-The eminent state geologist Dr. Chas. T. Jackson of Boston, has made a geological sur-

vey of the land, and analysed the coal, the iron ore and the limestone. This report together with maps will be furnished to inquirers. Fourth-Three railroads are laid out through this property. The Sunbury and Eric Railroad gives us a market for our coal to the Lakes-it runs

from Eric to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Erie towards our land in the western direction, the means for the completion of which has been raised-it will soon be finished. The Allegheny Valley Raif road connects us with New York, Boston and Pittsburg. The Venango Road connects us with the

There are already good Turnpike roads running through the property, various other roads have been opened to accommodate the emigration and settlement which has already taken place. There is no opportunity equal to it now offered to the man who wants to provide himself a home

schools, where the price of land is high, and where the emigrant, after being used to the healthrest climate in the world. has to endure sickness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels, stores, saw mills, grist mills, and everything de sired. There is a cash market at hand. The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it will still become more valuable, as a
