You missuble speckled critter, you! What'n thunder ar you squawkink about? Doesanything hurt you bad? Or do you squawk That way in Ginny, where you came from, And so squawk now from educational prejudice? What'n mischief do you pull your homely head Out'n from under your wing and squawk,

You speckled "cuss ?" Something offensive, I reck'n, elswise You'd keep it there, for it looks better hid. What do you get on the fence and squawk for ? Do you see anything alarmink, you white-gilled, Speckle-feathered, squawking fool? How do you expect a feller can read, or rite, Or sleep, or live, you discordant old busted Brass French horn, with all the keys open And the mouth-piece cracked?

I wish I could pizen you, you everlastin', perpetual squawking machine! What're you thinking about ?-home ?-You rascally epitome of a Ginny war gong, A congo tum-tum and conch-shell, And a down-East Village brass band ! Dryup! you speckled parody of a machine shop!

Do you think that's music, you outragious vocal atrocity? You boiler-maker's exacerbated echo! You squawking abstract of Pandemonium,

Do you think a feller can afford to furnish boot jacks And so forth, to chunk you with daily, dog you? Maybe you think it's funny, you speckled pa-

gan of Afrikin extraction! Is your squawkink sass? or are you 'feared of me, sav ?-You brazen-throated, sheet-iron-lunged culmination of foul-creation?

Here's my blackin-brush at you! PAN OF GRAVY .- Ba-a-a ! Ba-a-a !' shricks a half-naked infant of about eighteen months

... What's the matter with mamma's thweet yittle duck?" says its affectionate mother while she presses it to her bosom, and the young earpint in return digs its talons into her face.

unfortunate black. "Well and why don't you bring it here, you

aggravating nigger you," replies the mother of the brawling young one.

Dinah brings the gravy, and little Jim puts his bare feet into the pan, dashing the milkwarm grease about its sweet little shanks to the infinite amusement of its mother; who tenderly exclaims-

"Did mamma's yeetle Dimmey want put to its teeny-weeny footcys in the gravy. It shall paddle in the pan as it chooseys wooseys, and then shall have its pooty red frock on and go and see pappy yappy."

AN ASTRONOMICAL FACT .- A bright star, named Sirius, or the Dog star, passes over us in the season called dog-days; and some people have foolishly supposed that its presence may cause madness or hydrophobia, in dogs. It is caculated to be 2,200,000,000,000 miles distant from the earth; 27,000 times as distant as the sun is. A ray of light from Sirius, travelling as fast as a cannon ball at its greatest speed, would not be seen on the earth for 523,211 years. But this is the nearest fixed and sheds on the place. Good material for the star among all the multitude over us!

ORANGE PEEL.-The New York Journal of Commerce learns that a little son of Robert Oliver, of that city, about five years of age, is now lying in a very critical condition from the effects of eating orange peel. Parents cannot be too cautious in keeping orange peel from their children, as it contains an active poisonous oil, which in many instances has caused the death of persons who indiscreetly made if application be made soon. use of them. Life is jeopardized every time the rind is taken into the stomach.

An Exchange contains the following excellent, plain, practical advise to young men :- "Be content as your mouth is full and your body covered-remember the poor, kiss the pretty girls, don't rob your neighbor's hen roost, never pick an editor's pocket, or entertain an idea that he is going to treat; kick dull care to the devil, black your own boots, sew on your own buttons, and take a paper and

DIED LAUGHING .- A man in Washington county recently occasioned another's death by making him laugh too much. .

Jenkins says his cousin laughed so hard one day that all the pegs flew out of his boots. He lost his front teeth by laughing violently at an apothecary's certificate for coughs. It put him in mind of ready-made cough-ins.

A young woman in male attire has been taken into custody at Philadelphia. Her name is Georgiana Gendler, and she belongs in Springfield, Mass., which place she left about a year since. She has been employed part of this time in rafting, and her last exploit was walking from New York to Philadelphia.

Dr. Shaw, of Texas, states that he has found sweet oil, drank freely, a successful antidote to strychnine in two cases. The oil is to be poured down without regard to the patient's vomiting. This is worth minding.

"Salley," said a feller to a girl who had red hair "keep away from me, or you'll set me afire." "No danger of that," was the answer, "you are too green to burn."

"Frank, where have you been?" In a perfect glow, "I've been playing at an old game -chasing a hoop in Chesnut street."

The woman who burst into tears, we are glad to learn, has been hooped.

TO THOSE WHO WANT FARMS. THE RIDGWAY FARM COMPANY has made ar-

rangements by which all who desire to settle or purchase a home can do so. The farms consist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring.— The property is located in Elk County, Pennsylva-nia, in the midst of a thriving population of some The climate is perfectly healthy, and the terrible plague of the west fever is unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$20 per sere, payable in instalments, to be located at the time of purchasing, or a share of 25 noreentitling to locate the same for \$300, payabln \$6 per month or 121 acres payable \$4 per month. count for every sum of \$100 and under, advance, a discount of 5 per cent, will be allowed and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

First-The soil is a rich limestone, capable of raising the heaviest grops, owing to which this setlement has attained its present great prosperity. Second—It is the centre of the great North Wes Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to population and travel the greatest in the Union.) has five workable veines of the best Bituminous Coal, amounting in the aggregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land of inestimable value Third—The eminent state geologist Dr. Chas. T. Jackson of Boston, has made a geological sur-

vey of the land, and analysed the coal, the iron ore and the limestone. This report together with maps will be furnished to inquirers.

Fourth—Three railroads are laid out through this property. The Sunbury and Eric Railroad gives us a market for our coal to the Lakes-it runs from Eric to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Eric to wards our land in the western direction, the means for the completion of which has been raised-it will soon be finished. The Allegheny Valley Rail road connects us with New York, Boston and Pitts-

burg. The Venango Road connects us with the There are already good Turnpike roads running through the property, various other roads have been opened to accommodate the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a cli-mate PERFECTLY HEALTHY.

No case of fever ever having been known to oc cur in this settlement. It is not like going to the backwoods of the West, among perhaps intollerant people, where there is no society, churches, or ools, where the price of land is high, and where the emigrant, after being used to the healthiest climate in the world, has to endure siekness and pain, and perhaps rains his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels stores, saw mills, grist mills, and everything de-There is a cash market at hand. The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it will still become more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them ex-tensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of lands By an ontlay scarcely missed, a substan-

tial provision can be made Persons should make early application, apply or write to E. Jefferies, Secretary, No. 135 Walnut street, below Fifth, Philadelphia. Letters care-

tully answered giving full information.

Shares or tracts of land can be bought or secur ed by letter enclosing the first inslalment of five dollars, when the subscriber will be furnished with books, maps, &c. Warrantee Deeds given. Persons can also purchase from our agents.

## AYER'S CHERRY PECTORAL, FOR THE RAPID CURE OF

Colds, Coughs, and

Hoarseness. BRIMFIELD, MASS., 20th Dec., 1855.
DR. J. C. ATER: I do not hesitate to say the less remedy I have ever found for Coughs, Hourseness, influenza, and the concomitant symptoms of a Cold. is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MODTLEY Prop. of Perce. N. V.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your Pacrostal myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other rentedy."

Croup, Whooping Cough, Influenza. BROTHER AVER: I will cheerfully certify your Pactoral is the best remedy we passess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and

commend your medicine to our people.
HIRAM CONKLIN, M. D. AMOS LEE, Esq., MONTERRY, Is., writes, 3d Jan., 1856; Allos Like, Esq., Monther, IA, writes, 3d Jan., 1856;
"I had a tedious influenza, which confined me in doors
six weeks; took many medicines without relief; finally
tried your Pretonal by the advice of our clergyman.
The first dose relieved the sureness in my throat and
lungs; less than one half the bottle made me completely
well. Your medicines are the chempest as well as the best
we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Brouchitis. WIST MANCHESTER, Pa., Feb. 4, 1866.
Sin: Your Chenny Pactorial is performing marvellous cures in this section. It has relieved several from alarm-

ing symptoms of consumption, and is now enting a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant. A. A. RAMSEY, M.D., ALBION, MONROE Co., IOWA, writes, Sept. C. 1855; "During my practice of many years I have found nothing equal to your Channy Property for giving ease and relief to consumptive patients, or curing suckess are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its

effects upon trial. Consumption.
Probably no one remety has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CRERE PECTORAL affords relief and comfort.

## Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been L taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penstrating properties stimulate the vital activities of the body, remove the electractions of its organs, purify the blood, and expel disease. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have buffled the best of human skill. While they produce powerfa; effects, they are at the same time, in diminished dozes, the safest and best physic that can be employed for children.
