"But you will have no seat for yourself," responded one of the young ladies with a smile, hesitating, with true politeness, as to accept-

"Niver ye mind that," said the Hibernian, eyer welcome to't. I'd ride upon the cowcatcher till New York, any time, for a smile from such jinliemanly ladies!' and retreated hastly into the next car, amid the cheers of those who had witnessed the incident.

If you want to find out what a woman is, don't look at her in a ball room, in the saloon. the streets and other public places, but at home and early in the day, about the time she is what she is, not what before she seemed. There is as much difference between them in the two places and time as between the toothache aud the sweetest kiss ever got up. Gentlemen at all skeptical on this point should endeavor to clear the matter up.

When Dr. Johnson courted Mrs. Porter, whom he afterwards married, he told her "that he was of mean extraction; that he had no money, and that he had an uncle hanged!" The lady, by way of reducing herself to an equality with the doctor, replied, "that she had no more money than himself, and that, though she had not a relation hanged, she had fifty who deserved hanging."

In Wesley, Ark., a fourteen year old boy, who had gone to drive the cows from pasture, taking with him a gun loaded for partridges, discovered three wolves among the herd, and secreting himself behind a stump, killed the largest one, and scared off the other two; the wolf killed measured over six feet in length.

[dec17] TO THOSE WHO WANT FARMS.

THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle or purchase a home can do so. The farms consist of purchase a home can do so. The farms consist of LADIES DRESS GOODS the best limestone soil of the most superior quality the OLD SHOP, on third street lately occupied by Jacob Shunkweiler, where he hopes by strict attention and keeping a good stock of assorted iron, to merit the favor of the public. Country produce and cash never refused. An apprentice, from 16 to 18 years of age, will meet with a good situation also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$20 per acre, payable in instalments, to be located at the time of purchasing, or a share of 25 acres entitling to locate the same for \$300, payabln \$6 per month or 12] acres payable \$4 per month.— Discount for every sum of \$100 and under, paid in advance, a discount of 5 per cent. will be allowed, and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

First—The soil is a rich limestone, capable of raising the heaviest crops, owing to which this set-tlement has attained its present great prosperity. Second-It is the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to population and travel the greatest in the Union.) It has five workable veines of the best Bituminous Coal, amounting in the aggregate to over 22 feet which makes 22,000 tons of coal under each acre. This will make the land of inestimable value. Third-The eminent state geologist Dr. Chas.

T. Jackson of Boston, has made a geological survey of the land, and analysed the coal, the iron ore and the limestone. This report together with maps will be furnished to inquirers. Fourth—Three railroads are laid out through this property. The Sunbury and Eric Railroad gives us a market for our coal to the Lakes—it runs from Erie to Philadelphia. A large part of this road has been finished, and is now in running or-der. A heavy force is now working from Erie to-wards our land in the western direction, the means for the completion of which has been raised—it will soon be finished. The Allegheny Valley Rail road connects us with New York, Boston and Pitts-

burg. The Venango Road connects as with the There are already good Turnpike roads running through the property, various other roads have been opened to accommodate the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a cli-mate PERFECTLY HEALTHY.

No case of fever ever having been known to oc-cur in this settlement. It is not like going to the backwoods of the West, among perhaps intollerant people, where there is no society churches, or schools, where the price of land is high, and where the emigrant, after being used to the healthrest climate in the world. has to endure siekness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels, stores, saw mills, grist mills, and everything de-There is a cash market at hand. The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it will still become more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them ex-tensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising familie from want in the future, or to gain a competence by the rise which will take place in the value of lands By an ontlay searcely missed, a substan-
