which an extensive emigration is now The property is located in Elk County, Pennsylvania, in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the terrible plague of the west fever is unknown, also has an abundance of the best quality of Conl and Iron. The price to buy it out is from \$3 to \$20 per acre, payable in instalments to be located at the time of purchasing, or a share of 25 acres entitling to locate the same for \$300, payabln \$6 per month or 121 acres payable \$4 per month. Discount for every sum of \$160 and under, paid in advance, a discount of 5 per cent, will be allowed. and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented :

First-The soil is a rich limestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great prosperity. Second-It is the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to nonlation and travel the greatest in the Union.) It has five workable veines of the best Bituminous Coal, amounting in the aggregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land of inestimable value.

Third-The eminent state geologist Dr. Chas T. Jackson of Boston, has made a geological survey of the land, and analysed the coal, the iron ore and the limestone. This report together with

maps will be furnished to inquirers. Fourth-Three railroads are laid out through this property. The Sunbury and Erie Railroad gives us a market for our coal to the Lakes-it runs from Erie to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Erie towards our land in the western direction, the means or the completion of which has been raised-it finished. The Allegheny Valley Rail will soon be road connects us with New York, Boston and Pittsburg. The Venango Road connects us with the West

There are already good Turnpike roads running through the property, various other roads have been opened to accommodate the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a cli-mate PERFECTLY HEALTHY.

No case of fever ever having been known to occur in this settlement. It is not like going to the backwoods of the West, among perhaps intollerant people, where there is no society, churches, or schools, where the price of land is high, and where the emigrant, after being used to the healthnest climate in the world, has to endure sickness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels, stores, saw mills, grist mills, and everything de-There is a cash market at hand. The lumsired. ber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it will still become more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them ex-tensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of lands By an ontlay scarcely missed, a substantial provision can be made
