CLEARFIELD, PA , SEPT. 9, 1857.

MR. WILMOT'S APPOINTMENTS .- We received a letter on Saturday evening from Hon. Lemuel Todd, Chairman of the American Republican State Committee, stating that Judge Wilmot found it would be impossible for him to meet his appointment at Clearfield on the 23d | votes. of this month. He affirms that it will be beyond his powers of endurance to travel from Johnstown to Clearfield, and from here to Centre county, in the time allotted. The Judge regrets this necessity very much, but he can-

We feel sorry that Mr. W:lmot cannot be here at the time heretofore announced. We were sincerely desirous that the people of this county should hear from his own lips his views and opinions, and it may be possible that an opportunity will yet present itself prior to the election. We thought, as did many others, that it would be almost impossible for him to meet his appointments at all the places designated in the call of the State committee, and are, therefore, not much surprised to hear him recall his appointment for Clearfield. We trust the friends will make it known that no meeting will be held at this place on the 23d, in consequence of Mr. Wilmot's inability to be in attendance at that time.

"IN A PUCKER."-It is really amusing to witness the manner in which some of the Democratic brethren in this county are wriggling and twisting about Packer's position on the log question, and the efforts they are making to smooth over the fact that he was in favor of log-floating and instrumental in defeating a bill in the winter of 1852-3 to protect the raftsmen. Everybody here knows how virulently these same men have denounced log-floating-that they have taken part in meetings, for the purpose of having the legislature pass a law to restrict floating-that they have made loud and repeated professions of friendship to the fafting interest; and yet, when a man, whose antecedents are against the discharge of the duties of which, it elected, he has in his power to frustrate legislation on the subject, the people of this county are asked to forget all this and vote for Packer, solely on account of political considerations, after being coolly told that the log "question is one of conflicting local and personal interests," and that nothing more should be claimed than the very equivocal and uncertain declaration from Packer that he "has no desire to see anything but equal and exact justice done to all parties in any manner connected with that trade, either as raftmen or floaters."-How modest, liberal and unexacting Democrats can become when their party interests may require it!

COL. FREMONT, by a late decree of the U. S. District Court, in California, has had his title to the celebrated Mariposa estate fully confirmed. This settles the falsity of the charges that his claims were fraudulent and unfounded. Judgment was rendered in his favor for the possession of the land and all the improvements, with damages for detention and loss

Our Democratic neighbors are trying to ax up matters for Gen. Packer on the log question. They contend that he is all right on it. In 1853, Mr. Packer wrote a letter in which he acknowledged, or rather boasted that he helped to defeat a bill to prohibit log-floating. Dare they publish that letter now?

Great excitement was aroused amongst the people of Burlington, when the perpetration of the outrage became known, and the clerical hypocrite was obliged to flee for life. He succeeded in getting off. Had he been taken, so high ran the public indignation that he would most probably have been lynched.

The Texan papers abound with statements of Indian hostilities. The Indians had appeared in the vicinity of San Antonio. The Indians had been troublesome along the ronte. They were defeated in two engagements near Fort Lancaster. A sergeant in the 8th Infantry was killed. The Indians were mounted, and armed with Sharp's and Colt's rifles. A thousand head of cattle died of starvation on the Island of Galveston.

From the Quindaro Chindowan, of Aug. 29, we learn that on Wednesday, the 26th instant, there was a Mass and also a Delegate Convention at Grasshopper Falls, to decide upon going into the October election. At the Mass Convention there were between four and five hundred men present, and this number was composed of persons from every section of Kansas-The North, the South, the East, and

After considerable discussion, in which Gov. Robinson, Gen. Lane, and Judge Smith, advocated the policy of voting at the October election, although it was appointed under the bogus laws, and James Redpath, Judge Conway, Wm. Phillips and Rev. Daniel Foster, opposed voting; the following amended report of the Business Committee was unanimously

WHEREAS, It is of the most vital importance to the people of Kansas, that the Territorial Government should be controlled by the bona fide citizens thereof, and

WHEREAS, Gov. Walker has repeatedly pledged himself that the people of Kansas shall have a full and fair vote at the election to be held on the first Monday in October, for Delegates to Congress, Members of the Territorial Legislature, and other officers. There-

Resolved, that we, the people of Kansas, in Mass Convention assembled, agree to participate in said election;

That in thus acting, we rely upon the faithful fulfillment of the pledge of Gov. Walker, and that we, as heretofore, protest against the enactments forced upon us by the votes of the people of Missouri;

That the Mass Meeting proceed to the ap pointment of a Committee to wait upon the Territorial authorities, and earnestly insist upon a revision and correction of the wicked apportionment, endeavored to be forced upon the people of Kansas, to govern the selections of Members of the Terr torial Legislature;

That Gen. J. H. Lane be authorized and empowered to tender to Gov. Walker, the force organized by him under the resolution passed by the Convention at Topeka, on the 15th of July last, to be used for the protection of the ballot-box;

That this Mass Meeting express their unalterable determination to adhere to the Topeka Constitution and Government, and that all our action shall be pointed toward setting that Government in motion in a legitimate manner at an early date.

Gov. Robinson, who favored the policy of seizing upon the Territorial Legislature thro' the October election, said "That this would spike the guns at Lecompton, which, playing into the Free State party, would wrest the power from the hands of those who have been and are now depriving the people of Kansas of reliable Free State men to the Legislature, and leave the matter in their hands, depending upon them to carry out the will of the maiority."

NOMINATION OF A DELEGATE TO CONGRESS .-Gen. J. H. Lane inquired if any delegate desired to present to the Convention the name of any candidate except Mr. Parrot. No other name being offered, Hon. Marcus J. Parrot, of Leavenwarth, was nominated by acclamation as Delegate to Congress. The nomination was received with three cheers, amidst great enthusiasm.

Of the nominee, the Chindowan says: Mr. Parrot acted with the Democracy in Ohio, but when he became acquainted with their acts and policy here, he abandoned a party that retained nothing that was democratic save the name, and took sides with the people who had been wronged and outraged.

A NOVEL SPECULATION .- Mr. R. C. Jennyes, a lawyer in Troy, who has long rejoiced in the most ample and luxuriant of locks hanging gracefully over a wide and easy collar, was, on Wednesday, shorn of his hirsute glory by a committee of citizens, who had purchased of him the right to do so by paying him the round sum of one hundred dollars. The hair was removed, by a ferocious looking barber, with a pair of shears three feet long; a supernumerary lifted each separate lock with a pitch fork, and laid them on the plates; while a negro with a banjo played the dead march. And the lawyer arose, pocketed his \$100, and went forth cropped. It was a good speculation for

FREE PASSES .- A fireman on the New York Central Railroad asked the Superintendent for a pass, which he declined to give, saying:-The Company employ you and pay you so much for your services, and there our trade ends. If you were at work for a farmer for a dollar a day, and wanted to go to Saratoga, would you expect him to hitch up his team and take you there for nothing?" The fireman answered : "No, sir; but if he had his team hitched up and was going directly to Saratoga, I would think he was a mean bog if he didn't let me ride."

BORN TO BE HANGED .- It appears from a report which is in circulation that it is very unpleasant to be born in a certain house in Chester county, Penn. Since the year 1794 there have been five executions for capital offences in the county. Edward Williams, who was hanged in 1830, and George Pharo, who was executed in 1851, were both born in a house which stands about a mile from West Chester. Ingram, who was recently hanged in Illinois for the murder of his wife, also first saw light in this same unlucky house.

THUNDERBOLT IN CHURCH .- In Colchester. Connecticut, on August 23d, a thunder bolt struck a church in which were two hundred people just separating. It came down the lightning rod knocking the Sexton against the stove, upsetting two women, tearing a shoe of each to tatters and blistering them from hip to toe; attacked the wire on a young girls bonnet burning the flesh under her chin where the two ends of the wire nearly met, and passed down her right arm. Others were stunned but no one killed. PENNSYLVANIA ITEMS

ARMSTRONG COUNTY .- On Saturday last, John Green, of Washington, while returning a great variety of interesting matter relating home, accompanied by his wife, with a lantern in hand, met a cow, which he had purchased but a short time before, going along the road, having broken out of the pasture field. He drove her back to the bars, and while in the act of letting them down, she jumped past him, her horn striking him under the ear, tearing it out, and prostrating him insensibly upon the ground. No serious results are apprehended.... The dwelling house of Mr. David Hall, at Slate Lick, was destroyed a few nights age, together with nearly all the contents. . . . A very violent hail storm occurred on Saturday, near Freeport; the stones being as large as a hen's egg, and covering the ground to a considerable depth. The Messenger thus describes its effects: Shingle roofs were split to pieces, the growing corn was perfectly stripped of its blades and shoots, the apple trees were left naked of leaves, and barren of fruit, the buckwheat was entirely destroyed, the forest trees were left almost as naked as in mid-winter, and the fruit trees of all kinds were almost entirely stripped of their foliage and fruit. The fowls, which were without shelter, were killed by the weight and force of the hail

CENTRE COUNTY .- The American Republicans have placed in nomination the following ticket :- Assembly, Samuel M'Williams; Sheriff, Henry M'Ewen; Prothonotary, George B. Weaver; Register, M. P. Crothwaite; Treasurer, Wm. Baird, Jr; Commissioner, Geo. W. Shoup; Auditor, J. M. Marshall, and Coroner Frederick Burkett. The Democrats nominated Samuel Gilliland for Assembly, Thos. M'Coy for Sheriff. Jesse L. Test for Register, John Hofler for Prothonotary, Isaac Buffington for Treasurer, Jacob Evahard for Commissioner, C. Marks for Auditor, and D. Derr for Coroner. . . . . ELK COUNTY .- Mr. Cummings of Elk Creek Mill on Friday, met with a shocking accident which terminated fatally. He was at work on some logs, when by some means one of them started and rolled on him causing such internal injuries that he died the next day. Mr. Cummings was about 58 years of age and had recently moved into this County from the State of Maine. He was a man of exemplary character and had the respect and confidence of all who knew him. He leaves a family who deeply mourn their loss. We shall endeavor to get the particulars of this meloncholy event from persons who know the circumstances, and publish them in our next. . . . LUZERNE COUNTY .- Miss Curtis, a school teacher, while on her way home near Scranton, was overtaken by a man, grappled by the throat brutally thrown upon the ground, and robbed of her gold watch, chain, and locket; she bravely resisted the insult, but his superior strength compelled her to give up her jewelry. She was but a short distance from her boarding house, but he held her so tightly by the throat that she was unable to give utterance to a single loud sound. The villian tore the jewelry from her in the most brutal manner, then made his escape. The robber escaped though vigilant search was made.

FAYETTE COUNTY .- Mr. Isaac Hurst, son of Nathaniel Hurst of Walnut Hill, Dunbar township, while engaged in thrashing grain on a farm of Col. A. M. Hil's, on last Thursday, 27th ult., had his left arm torn off almost to his elbow. This sad accident occurred to Mr. Hurst while he was attempting to relieve the straw carrier, which had choaked. Drs. J. K. Rogers and Cummings amputated the arm above the elbow. We understand from Dr. Rogers that the patient is doing as well as could be expected under the circumstances.

LANCASTER COUNTY .- Mrs. Horst, widow of John Horst, of Rapho township, was drowned on the 17th inst., by falling in a tub of water. When she was discovered, life was extinct, and all effort to resuscitate her was unavailing. The deceased was very old and feeble. . . . On Monday last, in Lancaster, a little girl named Rose Buchanan was so badly injured by her clothes accidentally taking fire, that she died

CLARION COUNTY .- While a son of Charles Stewart, of Greenvile, Clarion county, aged about 2 years, was playing in the tan yard of Mr. Samuel Craig, on the 31st ult., he accidently fell into the pool, and before he was discovered and rescued was dead. Although but half an hour in the water, all attempts made to resuscitate him under the medical treatment of Dr. James Stewart proved unavailing.

THE SIAMESE TWINS OUTDONE .- One of those remarkable malformations occasionally met with, both among the higher and lower orders of the animal creation, presented itself, a few days since, in the practice of one of the physicians of Sing Sing, New York. It was a child, having two perfectly distinct heads, developed equally as regard size and shape, which are united to a single body, each by its own neck. The shoulders are broader than natural; but in other respects the body is not unlike that of other children at birth; it has but two arms and two legs. An internal examination was made, as it was dead born, which exhibited a most singular arrangement of the organs contained in the chest and abdomen. Two perfect and entire spinal columns were formed; each had the usual number of ribs-viz :- twenty tour-making fortyeight in all. The middle or internal sets of ribs were united together, so that the entire chest constituted but a single cavity, containing four lungs, the middle pair being united. Two wind-pipes led to the lungs. One heart circulated all the blood to this strange body. Two food pipes led to a single stomach, and except that it had but one kidney, the right, the abdominal viscera were single and natural. -Republican.

ATLANTIC TELEGRAPH CABLE. The New York Times says: "we publish this morning to the deplorable accident to the Atlantic Telegraph Cable. From these accounts, and from the letter of an intelligent correspondent on board the steamer Niagara, it would appear that the expedition must have failed, even though the cable had not parted when it did. Though the chief engineer tor laving down the the cable, Mr. Bright, has given his certificate exonerating all persons on board the Niagara from all blame for the melancholy mishap, yet there has not satisfactory reason been given for the immediate act which led to the parting of the wire. It seems that the cable had several times slipped off the "controller," and became jammed, by which its safety was imperiled, owing to the imperfection of the machinery for paying it ont. But, even though it had been suffered to run freely and no accident had befallen it, the chances were all against its reaching its Western terminus, in concequence of the cable being too short. There was a surplus of about six hundred miles, but at least a thousand miles were needed. Sufficient allowance had not been made for sweeping away the cable by under currents. After all, it may have been most fortunate that the ships did not proceed further. To have laid the cable nearly the whole distance, and then to have been compelled to let it slip because it was not long enough, would have been a much greater calamity than that which has retarded the completion of this great work. They now know what the perils are which must be guarded against, and the experience of the first experimental trip will give them almost surety of success, when they make another trial. It is not yet known whether another attempt will be made this year. But, as there is usually a long spell of fine weather immediately after the equinoctial gales, we should suppose that it would be less costly to make the attempt to

MR. BUCHANAN'S APPEAL TO GOD .- Mr. Buchanan's unction in behalf of the laws of Kansas, as displayed in his letter to Professor Silliman and others, reminds one of the fervor with which Phillip II. swore to maintain the power of the Inquisition, at Valladolid, in 1559. Seated in his chair, with his sword in his hand, the King listened to the following oath, which was recited by the Inquisitor General, Valdex: "Your Majesty swears by the cross of the sword, whereon your royal hand reposes, that you will give all necessary favor to the Holy Office of the Inquisition against heretics, apostates, and those who favor them, and will denounce and inform against all those who, to your knowledge, shall act or speak against the faith." The King, in a loud voice, answered, "I swear!" Then they burned thirteen persons alive, by way of ratifying the oath.

Mr. Buchanan, with equal fervor, asks the aid of God to enable him to inforce the laws of Kansas, which his own Secretary of State declared, in the Senate last year, to be infamous, a disgrace to the country and the age, and which were enacted by invaders of the Territory, and not by its people. It is something very like injustic to Phillip II. and his associates to bring them into a comparison with the President and his advisers : for the former were fanatics, who really believed they were doing the work of heaven, whereas our sovereign and his inquisition have no faith in their own doctrines. Then the world has made immense progress since the sixteenth century, and the Kansas code would have reflected dishonor on that time, and the Inquisition itself. We believe that ours is the only country in which such a code could be blasphemously upheld by the chief of the nation. Even King Bomba would be ashamed to call on God to help him do the infamous work that he finds necessary to the maintenance of his authority. But he is a decent tyrant, bad as he is, and at least affects a regard for religion. -Boston Trav.

Hypogrisy Unveiled .- The boldest piece of Hypocrisy which has yet come to pass, says the Reading Press, is about being played on the National Native Americans, by the Packer newspapers. They are now check byjowl, but a more discordant set of fellows were never rocked in the same cradle. The Packer papers are as smooth, as easy, and as courtens to the Native Americans going for Hazelburst as a soaped pig's tail on a race. They administer 'soft soap' largely and urge them forward by patting them softly on the back. Yet it is plain to every body, that like the Anaconda, the Packer papers, are merely smoothing them over, with their peculiar glandular secretions. preparatory to swallowing them-horns and hoofs. Now it is notorious, that when the American party was strong, and they were afraid of it-when the plunder was endangered by the power and popularity of "Sam," that these same papers denounced the Americans as enemies of civil and religious liberty, pirates, adherents of the dark lantern order, and every effort that was foul and despicable, was freely applied to the Americans, who are now so high in favor with the very same Democracy. There is pure and unadulterated hypocricy for you. It is worthy of the rotten cause we only wonder that Americans will suffer themselves to be the tools of a party which is the worst enemy to Americanism we have to contend against. How long will they stand it? Look out for the cunning bypocrites!

BUCHANAN SURPASSING PIERCE.-More than year ago Pierce's officials, acting under the command of that tyrant, arrested and imprisaned several of the Free State leaders in Kansas, upon a ridiculous charge of treason. After keeping these men prisoners for several months, so great and overwhelming was the pressure of public opinion, Pierce was forced to abandon his purpose of trying them, and a nolle prosequi was entered in their several But under the mild and gentle reign of peace, under the benign administration of Buchanan,

when good will to all men on earth, and especially in the Territory of Kansas, was to gild that administration with glory, lo! and behold! Dr. Robinson is arrested, and tried before Cato, not the ceusor,) upon a charge of usurpation of the office of Governor of the State of Kansas. Robinson has been long known as the head and front of the Free State party, and was one of Pierce's treason prisoners. It was not enough that he was persecuted and imprisoned under the rule of Franklin I. Mr. Buchanan must now push matters still further. He uses his power so as to endeavor to produce doubt, dismay, and flagging coursels among the Free State men. If Robinson had been convicted he would have been subjected to an imprisonment of at least a year's duration. His party would in the meantime have been deprived of

This trial of Governor Robinson is but a part of that diplomatte, cunning system of arrangements which he and Walker have made, to per secute the Free State men, sneakingly, skulkingly, without any exercise of force, into sub-mission. The tax decision of Cato—the beeagurment of Lawrence-the arrest of Free State men at Franklin, and the trial of Robinson-are all pin-points marking various posi-tions upon their chart of action .- Phil'a Times.
