Previous to 1782, shot were made by dropping lead into water, and they were invariably flattened on one side. In that year, Mrs. Watts, the wife of a shoemaker, who had been earnestly thinking of some method of making the shot perfectly round, is said to have dreamed that it could be done by dropping the lead from a great height. She and her husband

Semi-Weckly in May, 1845. It was the first daily in America to issue a double or eight-page sheet at a low price, and it has kept at least even with the foremost of its rivals in the rapid expansion of Newspaper enterprise, which the great extension of Railroads, and the establishment of the Telegraph system have crowded into these last sixteen eventful years. No larger journal is afforded at so low a price in any quarter of the world; none in America, no matter at what price issued, pays an equal amount, weekly or monthly, for intellee tual labor. It employs correspondents regularly in the leading capitals of Europe, and at the most important points on this continent, with a liberal staff of writers and reporters at home, regarding full, early and accurate information as the first obeet of a Newspaper, and the timely and thorough elucidation thereof as the chief end of its Edito rials. In that spirit, "The Tribune" has been and will be conducted, extending and perfecting its correspondence so fast as the increase of its patronage will justify the expense. Should the current attempt to connect the Old with the New World by the magnetic wire prove successful we shall very soon, at a heavy cost to ourselves and, we trust corresponding advantage to our readers publis each morning a synopsis of the preceeding day's occurrences throughout Europe, Northern Africa and Western Asia, with regular reports of the markets, the monetary aspects and harvest prospects of hither Europe. With a good atlas beside him

and his daily paper on his fireside table, the A-merican farmer or artisan within a day's ride of the city may then study each evening the doings of the civilized world throughout the day preced-ing; and it seems hardly possible that any who can read, but especially one who has children to educate, will longer deny himself the pleasure and prefit of a daily journal. The same is true mea-surably of those who live further inland; though, where mails are infrequent, a Semi-Weekly, or c-

ven a Weekly, may seem sufficient.

The Tribune deals with questions of Political Economy, Public Policy. Ethics, Material Progress and whatever may affect the Intellectual, Morai, Social and Physical well being of markind, dogmatic Theology alone excepted. Its leading idea is the honoring of honest useful Work in whatever sphere or capacity, and the consequent elevation of the Laboring class in knowledge, virtue and general esteem. It is necessarily hostile to Slavery under all its aspects, to Intemperance in whatever form or degree with its accessories, to War save in the defense of Country and Liberty against ectual invasion, and to every form of Gambling Desiring to see Production extended and encour-aged, while wild Speculation and useless Traffic are curtailed, it favors the policy of sustaining and diversifying Home Industry by a discriminating Tariff—a policy which tends to increase the price f Grain to the farmer while diminishing that of Bread to the artisan, by reducing the distance a-cross which their respective products are exchang ed and, of course, reducing the cost of their trans for. Regarding Fillibusterism in all its phases. and every form and device of National covetous pess, with unqualified abhorrence as the bane of Republics and in their triumph the grave of Equal Human Rights, we seek by every means to woo and win the attention of our countrymen from projects of aggrandizement abroad to enterprises of development and beneficence at home, foremost among which we rank a Railroad through heart of our territory to connect the waters of the Atlantic with those of the Pacific. Believing that the goods of this life are not yet fairly distributed. and that no one ready to work should ever famish in unwilling idleness, it lends an open ear to every suggestion of Social improvement which do not countervail the dictates of eternal Morality nor war upon that natural right of every one to whatsoever he has fairly produced or honestly ac-quired, whose denial must sink mankind into the chaos and night of barbarism and universal squalor. With a profound consciousness that idlers, drunkards, libertines and profligates can never be desert that way for the thorny p Crime-that a true Education-Religious, Moral out, we have charity for all forms of evil but those basement of our fellow-beings.
