THE RAFTSMAN'S JOURNAL.

THE JOURNAL.

CLEARFIELD, PA., OCT. 7, 1857.

Cusa P. O .- Our subscribers at Cush postoffice, in answer to their inquiry, are hereby informed that we have issued the Journal regplarly, and that it has been mailed at Clearfield office every Wednesday evening. Where the fault lies as to their not receiving our paper we are unable to say. Perhaps some one of the Post-masters may be able to impart the required information. We would be much obliged for any information respecting the last three numbers of the Journal mailed to our Cush friends. We shall make it our business to ferret out where the fault lies, and take prompt steps to have the guilty parties properly attended to.

FALSE REPORT .- On the announcement of the suspension of all the Banks in Pennsylvahia, a report was spread thro' the vicinity, that the Hon.W. L. Moore's Coal Bank, of this borough, had suspended operations. This, we have been credibly informed, is not the fact, as the "Bank" still continues to "issue," and that all "checks" for shining mineral will be promptly filled as heretofore. As this "bank" was opened under the -individual liability" law, and the "deposit" is abundant, the public need not apprehend its failure. It is one of the permanent institutions of our borough.

ATTEMPT TO BREAK JAIL .- On Sunday night the fellow that is confined in jail charged with horse stealing, attempted to make his escape. The noise he made attracted the Sheriff's attention about 10 o'clock, when it was found that he had divested himself of hobbles and irons, had torn off some planks, and commenced digging a hole through the wall. Some hours ofter, the Sheriff was awakened by a thumping noise, and going to the cell found he was trying to draw the steeple out of the floor. The Sheriff then decaded it necessary to fasten his hands on his back with cuffs.

On Saturday evening, September 19, an unknown person attempted to ride away a mare, belonging to Mr. Joseph Jordan, of Lawrence township, which was taken from a pasture field. After riding about a mile at full speed, the fellow saw a neighbor of Mr. Jordan's apbroaching him-whom he evidently recognized-when he jumped off and took to his heels. The mare was returned to Mr. Jordan, who put mit of a high and bare hill, remote from timher into another field. The next morning ber of any kind. when he sent for her she was dead.

A FINANCIAL CRISIS is said to exist in Germany, A letter from Vienna, dated Sept. 7, says :- "Last week several failures occurred here, as well as at Prague and Pesth. The most important of these is a hardware estabishment, with liabilities amounting to several hundred thousand guilders, and having extensive connections abroad. There never was a time-not excepting the years 1847 and 1848 -when the failures were so numerous as now ; every day one or more suspensions are announ-The worst is, an early improvement cad. cannot be expected. The Bank of Credit has inmited its transactions, and refuses all applications for new loans, giving as the reason, that it is not in a condition to expand its business." If some of our financiers were a Germany they would preach, in the face of the facts calling for contraction, that it was necessary for the bank to expand its business, to save the community from disaster.

A FISH STORY,-Our Greenfield township correspondent, says the Hollidaysburg Whig, sends us an account of a giging party on the night of the 18th ult., in the little stream passing Claysburg, which captured no less than 70 suckers and catfish and 5 cels-one of the cels resuring 3ft. 2 inches in length and 9 inches iu circumference and weighing 41 lbs! But mother party in the same stream on the same hight giged an eel measuring 4ft. 4 inches in length and weighing 51 lbs!

A NEW IDEA .- THE SUGAR CANE .- A new idea with regard to the Chinese Sugar Cane, of which we hear so much now-a-days, is suggested by the Montgomery (Ala.) Mail. It is, that the cane will degenerate into broom corn about the third year of its culture. It is a matter of importance to the planters everywhere, many of whom have considerable quan-

Bennet, of the New York Herald, it is said, loses \$75,000 by the failure of Persee & Brooks, who were his bankers. "Old Potosi" has been striving long and hard to create a panic-now he has his reward ; just as the Manhattan Bank, which created the revulsion of 1837, was one of the institutions most thoroughly ruined by it.

TIt is said that ex-President Fillmore is about to marry a lady in Montreal. The Portland Advertiser thinks this a pretty business for a Know Nothing. "Americans must rule America," and here we have the great chief of

migration !

HOW THEY ARE OFF IN THE WEST .- One of our Illinois exchanges, descanting on the financial derangement which evrerywhere prevails, thus consoles itself and its readers :--"What debts we may be owing to the East, we have the produce now in our granaries to pay. We have not speculated in stocks, or other fancy securities, but our expenditures have been made in purchasing, enclosing, and breaking the richest soil, with which Heaven ever blessed the agriculturist. These kinds of investments have something to fall back upon. The stocks they produce (corn stalks) are paying stocks, which good, strong fences protect from depredations of all "Bulls and Bears."

NOT SO BAD OFF AS WE SEEM .- In the inflation of prices produced by the abuse of credit in 1837, the prices of food ran up to an enormons height, in some cases exceeding the high prices of the present year. Flour was \$12 per barrel, and other articles in the same exorbitant proportion. So completely had industry been deserted from labor to speculation, that we were actually obliged to import grain from Europe, a fact unexampled in our history before or since. Now, however, the case is different. Bountiful crops have everywhere blessed lal-or with a rich reward, and, instead of having to import grain, we have plenty of it to export.

SLIGHTLY PERSONAL .- The editor of the Louisville Democrat lately said, "We live neighbors to the Free States, and we see some tities growing and some of whom have pur-chased machinery for grinding their crops, that this question should be determined. It would be well if every person who has a field of the cane would examine it and see if a por-tion of it is not in all respects like broom corn and entirely without the sacharine juice. The Mail knows this to be the case in at least two sekls, and hears that it is the case in others.
