THE ELECTION.

Below we give the returns of the election in this county, as far as heard from. By comparison with last year's result, it will be seen that Packer's majority is less than Buchanan's was in the same districts. Leonard, Independent Democrat, who was run on a question of local interest, so far as this county was concerned. will probably have 400 to 600 majority over Wilcox, Democratic nominee, whilst the chances are that Spyker, the other regular Democrat, will have but a small majority over Matson, Independent American Republican candidate for the Legislature. This estimate is proportionate vote and result in the townships | night of the 7th instant. to hear from, to those given.

We have no returns yet from the other counties of the representative district.

CASH paid for all kinds of Hides and Skins. ected, and are the very best quality; but call and examine, and judge for yourselves.
THOMAS BURNSIDE. Bellefonte, April 29, 1857-tf.

TO THOSE WHO WANT FARMS. A FARM WITHIN THE REACH OF

EVERY MAN.
THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle or purchase a home can do so. The farms consist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring .-The property is located in Elk County, Pennsylvania, in the midst of a thriving population of some 10.000. The climate is perfectly healthy, and the terrible plague of the west fever is unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$20 per acre, payable in instalments, to be located at the time of purchasing, or a share of 25 acres entitling to locate the same for \$300, payabla \$6 per month or 122 acres payable \$4 per month.— Discount for every sum of \$100 and under, paid in advance, a discount of 5 per cent. will be allowed. and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented: First-The soil is a rich limestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great prosperity. Second-It is the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to population and travel the greatest in the Union.) It has five workable veines of the best Bituminous Coal, amounting in the aggregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land of inestimable value. Third-The eminent state geologist Dr. Chas. T. Jackson of Boston, has made a geological survey of the land, and analysed the coal, the iron ore and the limestone. This report together with

maps will be furnished to inquirers.

Fourth—Three railroads are laid out through this property. The Sunbury and Eric Railroad gives us a market for our coal to the Lakes-it runs from Erie to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Eric towards our land in the western direction, the means for the completion of which has been raised-it will soon be finished. The Allegheny Valley Rail road connects us with New York, Boston and Pittsburg. The Venango Road connects us with the

There are already good Turnpike roads rupning through the property, various other roads have been opened to accommodate the emigration and settlement which has already taken place. There is no opportunity equal to it now offered to the man who wants to provide himself a home

can live in presperity and independence in a cli-mate PERFECTLY HEALTHY. No ease of fever ever having been known to oc-eur in this settlement. It is not like going to the backwoods of the West, among perhaps intellerant people, where there is no society churches, or schools, where the price of land is high, and where the emigrant, after being used to the healthtest climate in the world, has to endure sickness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels, stores, saw mills, grist mills, and everything desired. There is a cash market at hand. The lumher trade last year amounted to over two hundred the coal, it will still become more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them ex-tensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of

lands By an ontlay scarcely missed, a substantial provision can be made Persons should make early application, apply or write to E. Jefferies, Secretary, No. 135 Walnut street, below Fifth. Philadelphia. Letters care-

fully answered giving full information.

Shares or tracts of land can be bought or secured by letter englosing the first inslalment of five dollars, when the subscriber will be furnished with books, maps. Ac. Warrantee Deeds given. Persons can also purchase from our agents. Route from Philadelphia to Tyrone on the Pennsylvania Central Railroad, and thence by Stage to the land. This is a delightful season to visit St. Mary's-the best hotel accommodation is afforded. Enquire for E. C. Shultz, Esq., the Agent for the property at St. Mary's. June10-37-3m.

Curwensville, May 27, 1857.

the 16th of April, 1841. Its Weekly edition commenced in September of the same y ar, its Semi-Weekly in May, 1845. It was the first daily in America to issue a double or eight-page sheet at a low price, and it has kept at least even with the foremost of its rivals in the rapid expansion of Newspaper enterprise, which the great extension of Railroads, and the establishment of the Telegraph system have crowded into these last sixteen eventful years. No larger journal is afforded at so low a price in any quarter of the world; none in America, no matter at what price issued, pays an equal amount, weekly or monthly, for intellectual labor. It employs correspondents regularly in the leading capitals of Europe, and at the most important points on this continent, with a liberal staff of writers and reporters at home, regarding full, early and accurate information as the first ob ject of a Newspaper, and the timely and thorough elucidation thereof as the chief end of its Edito-rials. In that spirit, "The Tribune" has been and will be conducted, extending and perfecting its correspondence so fast as the increase of its pa-tronage will justify the expense. Should the current attempt to connect the Old with the NewWorld by the magnetic wire prove successful we shall very soon, at a heavy cost to ourselves and, we trust a corresponding advantage to our readers publish each morning a synopsis of the preceeding day's occurrences throughout Europe. Northern Africa and Western Asia, with regular reports of the markets, the monetary aspects and harvest prospects of hither Europe. With a good atlas beside him and his daily paper on his fireside table, the merican farmer or artisan within a day's ride of the city may then study each evening the doings of the civilized world throughout the day preced ing; and it seems hardly possible that any who can read, but especially one who has children to educate, will longer deny himself the pleasure and profit of a daily journal. The same is true mea-surably of those who live further inland; though, where mails are infrequent, a Semi-Weekly, or e-

where mais are infrequent, a Semi-weekly, or e-ven a Weekly, may seem sufficient.

The Tribune deals with questions of Political Economy, Public Policy, Ethics, Material Progress and whatever may affect the Intellectual, Moral, Social and Physical well being of mankind, dog matic Theology alone excepted. Its leading idea is the honoring of honest useful Work in whatever sphere or capacity, and the consequent elevation of the Laboring class in knowledge, virtue and general esteem. It is necessarily hostile to Slavery under all its aspects, to Intemperance in whatever form or degree with its accessories, to War save in the defense of Country and Liberty against actual invasion, and to every form of Gambling. Desiring to see Production extended and encouraged, while wild Speculation and uscless Traffic are curtailed, it favors the policy of sustaining and diversifying Home Industry by a discriminating Tariff—a policy which tends to increase the price of Grain to the farmer while diminishing that of Bread to the artisan, by reducing the distance a cross which their respective products are exchang ed and, of course, reducing the cost of their trans for Regarding Fillibusterism in all its phases, and every form and device of National covetousness, with unqualified abhorrence as the bane of Republics and in their triumph the grave of Equal Human Rights, we seek by every means to woo and win the attention of our countrymen from projects of aggrandizement abroad to enterprises of development and beneficence at home, foremost among which we rank a Railroad through the heart of our territory to connect the waters of the Atlantic with those of the Pacific. Believing that the goods of this life are not yet fairly distributed. and that no one ready to work should ever famish in unwilling idleness, it lends an open car to every suggestion of Social improvement which does not countervail the dictates of eternal Morality nor war upon that natural right of every one to whatsoever he has fairly produced or honestly acquired, whose denial must sink mankind into the chaos and night of barbarism and universal squal-or. With a profound consciousness that idlers, drunkards, libertines and profligates can never be other (in the main) than needy and wretched, it bears aloft the great truth that Prevention is better than Punishment-that the child trained up in the way he should go, will rarely in after years desert that way for the thorny paths of Vice and Crime-that a true Education-Religious, Moral and Industrial as well as Intellectual-is the most

effective temporal antidote to the errors and woes of our race. Recognizing in the most degraded specimen of Humanity a divine spark which sh be reverently cherished, not ruthlessly tradden out, we have charity for all forms of evil but those which seek personal advantage through the de-basement of our fellow-beings. The champion of fain be the interpreter to each other of men's better impulses and aspirations, the harbinger of general concord between Labor and Capital, and among those whom circumstances or misapprehencotemporary once observed that he never knew a hard, grasping, niggardly employer who did not hate The Tribune, nor a generous, large-souled, kindly one, willing to live and let live, who did not like it. We ask no higher praise, no warmer The circulation of The Tribune is at this time

as follows: Daily, 32,000 copies; Weekly, 176,800 copies; Semi-Weekly, 16,000 copies; California and European, 6,000 copies; Total, 230,800 copies. That of the Semi-Weekly and Weekly we believe to be exceeded by no other newspaper published in the world; that of the Daily falls behind that of some of our cotemporaries. Had our hostility to Human Slavery and the Liquor Traffic been more guarded and politic, our Daily issues would now be some thousands heavier and our Advertising far more lucrative; but of our patronage genrally we have no reason, no wish, to complain Of late, a concerted effort has been made to diainish our rural circulation through the influence of the Postmasters, some of whom embark in it eagerly, others under political restraint, while a large number, we are happy, for the sake Human Nature, to state, refuse to be dragooned into it at all. Still, we have been made to feel the heavy hand of Power, and have doubtless lost thousands of subscribers in consequence. Pretexts to which no individual in his private capacity would have stooped have been relied on to justify the stoppage of our papers within reach of their subscribers and owners, and their retention in the Post-Office till their value was destroyed. Postmasters have been schooled by rival journals-several of them living on their self-proclaimed ability to serve as an antidote to The Tribune—as to their political duty to premote at our expense the dissemmination of gazettes of adverse polities. We shall outlive this warfare, but we do not affect indifference to it. In the open field of discussion, we fear nothing; but in the tens of thousands of rural neighborhoods where the Posmaster can induce many of his quiet neighbors to take the jour-nal he recommends we have already lost some paand Free Soil throughout the land to take care that this official warfare on our circulation be not prosecuted without counteraction. We employ no | ed in the best manner. traveiling agents, for we will not consent to have the public harrassed with the solicitations of strangers in our behalf. We strike the name of each subscriber to our Weekly and Semi-Weekly from our books as soon as his term has expired, for we will not haunt our patrons with duns for arrears which they may say they never intended to incur, for papers which perhaps they never read; we rethe renewal of our subscriptions solely on he volunteered efforts of those who. liking our paper, believe its influence salutary and worthy to be extended; and thus far our reliance has been justified, as we trust it may continue to be. The Tribune is printed on a large imperial sheet. 321 by 44 inches, folded in quarto form, and mail-

ed to subscribers at the following Daily Tribune, per annum, - -SEMI-WEEKLY TRIBUNE.
