S. E. ROW. EDITOR AND PROPRIETOR.

CLEARFIELD, PA., OCT. 28, 1857.

WHAT THE TIMES DEMAND.

Every candid man, if he inquires critically into the causes which lie at the bottom of our present financial troubles, and the deplorable condition of all branches of business, must acknowledge that those difficulties spring primarily from the existing tariff, which is utterly inadequate to protect the industrial interests of our country. So apparent is this truth, that Mr. Buchanan himself, we see it stated the reduction that was made in the tariff during last winter. Over-trading, excessive importations, a consequent drain of gold from our country, and, finally, monetary and business embarrassments, are all in their turn attributable mainly to a lack of proper protection to our manufacturers. This is too plain to require special argument. Every one can see that if our wholesale dealers can buy goods abroad and import them much lower than they can purchase them at home, they will do so; and this has been done during the past eight or ten years, under the operations of a low tariff.

The principle of Protection to American Industry, which was one of the cardinal and cherished doctrines of the old Whig party, has of late years been too much lost sight of. The extraordinary issues that have recently agitated the public mind-the cry of political speculators and charlatans that the tariff question was an obsolete idea; abundant harvests the great influx of gold from California, and other fortuitous circumstances, all tended to withdraw attention from it, and blind our people to the real condition of affairs. They did not believe that all this appearance of wealth and prosperity, was a chimera and a delusion. The late crisis, however-the breaking of banks and heavy business men, and the sweeping away of immense fortunes, like the driven snow under the rays of the noon-day sunhas forced the conviction upon them that we have been standing upon a fictitious basis, and that no auspicious circumstances could longer avert the disasters which will inevitably tollow the violation of the great principle of Protection. Our closed factories, the paralyzed state of every branch of business, the thousands of men and women out of employment, and the distress and suffering that are showing themselves in many places, all bear witness to this sad truth, and speak out unmistakeably that what the times require, is Protection to American Industry. This is a principle for which we have always contended, and the necessity for which we believe is greater now than ever.

THE ULTIMATE OBJECT .- Little doubt can be longer entertained that the ultimate object of the so-called "side-door" leaders is, to carry the "Straight Americans" over to the Free-Trade, Molly Maguire, Slave Democracy. An article in the Philadelphia Press, of the 22d inst., shows which "way the cat jumps." In speaking on the subject, that paper says :-

"We need not take into consideration the vote thrown for Mr. Hazlehurst, because it is manifest that if the Democratic party is true to itself, all this vote will henceforward be enrolled under our banner. Every citizen who voted for Mr. Hazlchurst had more or less confidence in the Democratic party. Those who Americanism has become an obsolete idea."

That is what John W. Forney, that arch poand he knows! Now we ask our American friends, are you thus to be conveyed, body and soul, without "benefit of clergy," to the Democratic party? Will you allow yourselves to be made a chattel of, and sold wholesale, by a few political scoundrels? We trust notwe believe not. We think, pow that the mask is being thrown off, that all true Americans Aggression.

THE OFFICIAL RETURNS of the election in Pennsylvania, which will be found in another column, show that Packer's majority over Wilmot is 42,751-over Wilmot and Hazlehurst 14,619. The aggregate vote for President last fall was 460,176; this fall it is 363,155-a falling of 97,021. The "straight" Fillmore vote last fall was 26,338-Hazlehurst has 28,132. Quite a number of Locofocos voted for him. "Straightoutism" has about run its race-it is clean out of market, and will have to suspend.

THE Clearfield Republican still persists in calling Mr. Wilmot an "abolitionist," but fails to produce a single sentence that Mr. W. has ever spoken or written to establish its charge. acknowledge you are lying-under a mistake.

Onto had all been officialy heard from at Columbus last Friday but eleven Counties, and Gov. Chase's majority was 2,076. The corrections made by the Official Returns are generally in his favor, so that his full official majority is probably over 2,100. The Legislature is Democratic in both branches.

Iowa .- Returns from 59 counties, give Lowe, Republican, about 3000 majority for Governor. The remaining 18 counties are small and cannot vary the result. The Republicans have working majorities in both branches of the Legislature, which secures them a U. S. Senator.

THE ASSEMBLY QUESTION.

In another column will be found the official vote for Representatives, in this district. The result, we are free to say, is not what every sincere friend of the interests of Clearfield county should desire; and when we reflect on the means and arguments used in this county to bring about such a result, we are forced to the belief that a large proportion of people, genglare and glitter of "a little brief authority," and supposed honor.

When Judge Leonard was announced as the jority of the voters of this county were in his tavor, and would have voted for him, if they had been left to a free exercise of their opinions. For ourselves, we were willing to lay aside political preferences in this instance, go for the interests of our county, and practice what we professed; but our motives were imtions misrepresented, by the dictators of the | Zion." Democratic party. Notwithstanding this, we remained passive, having entire confidence in the honesty of purpose of our citizens. We yet believe we were correct in our impressions. and that the masses would have stood up for their local interests, had not false reports somewhere, attributes the distress in part to and false issues, to suit different precincts, been raised, and the party lash applied to and by aspirants; had not individuals been asked as "a personal favor" to act against their expressed feelings; and had they not been implored to "stick to the ticket," for fear of injuring Gov. Bigler's popularity! We wish to be understood as speaking with all due deference of that gentleman, yet we should like to know what Senator Bigler has ever done, as a public man, for Clearfield county, that her citizens should sacrifice their most vital interests to preserve an appearance of political influence for him & He was in the State Senate, and has occupied other positions in which he might have done much towards protecting our raftsmen, and did he do anything? And yet, as said before, the people of Clearfield were asked to sacrifice their own interests, yea. their very bread and butter, to keep up his show of popularity! We are glad to be able to say that many disregarded the ties of party, and that a majority, though small it is, considered the Honorable gentleman's "popularity" of less importance than the protection and preservation of that business, upon which our people are mainly dependent.

## THE KANSAS ELECTION.

It is now ascertained beyond a doubt that the grossest frauds have been practiced in making out some of the returns of the recent election in Kansas. Parrot, the Free State candidate, is, however, thought to be elected Delegate to Congress; but the Legislature is still in doubt, and depends entirely upon what the Without the Douglas and Johnson district, the Legislature stands:

Council-Republicans 6; Pro-slavery 4. House-Republicans 19; Pro-slavery 12. The Districts in which Johnson and Douglas counties are embraced, elect 3 Councilmen and 8 Representatives. If the Pro-slavery party would carry these, it would give them a majority of one in each branch of the Legislature. The way they went about accomplishing this, exhibits the boldest attempts at fraud ford, which is on the Shawnee Indian Reserve. borders on Jackson county, Missouri. It is not to be found on any map yet published, and is in fact of a rather imaginary character; yet the voting feats of this phantom district are astonishing and extraordinary beyond all conception. The election was held on Monday, the 5th Oct. On Tuesday the returns were made from Oxford, showing 88 majority for the pro-slavery candidates all around. Counting Oxford at 88, the Republican majority in the Douglas and Johnson district was ascertained to be 1,200. This was a loss to the proslavery party of 3 councilmen and 8 represenstill call themselves Americans must see that | tatives. With a judicious arrangement of mat- city, if necessary, before he will submit to the ters in the balance of the Territory, this loss | demands of the government. could have been sustained without throwing litical trickster, and editor of the Press, says, the Legislature out of the hands of the Border Ruffians. The interior counties, however,

almost unanimously returned Republican members. This put things wrong, when, presto! a mistake of sixteen hundred and fourteen votes was discovered in the Oxford precinct, in favor of the pro-slavery ticket-not one Free State vote on the list! This, it will be seen, would give the 3 members of council and 8 of will array themselves on the side of those who the House, in the Johnson and Douglas disare battling for Protection to American Labor, | trict, to the pro-slavery party, which added to and against Political Romanism and Slavery | the number given above would give them a majority of one in each branch of the Legislature!

No reason has yet been assigned for the marvellous "error" that was found in Oxford. Some people pretend to think the Shawnee tribe of Indians made a grand rush at the polls the day after the election, and voted the National Democratic ticket in spite of the Judges of Election. Yet it is said to be a singular fact that the 1614 names on the poll list, and all three of the signatures of the Judges, are in the same hand-writing ! So gross a fraud, of course, finds few apologists, and it remains to be seen whether Walker and Stanton will see the people of Kansas, whom they promised to protect, thus cheated. If our Federal functionaries will not promptly protect the people of that territory, who went into this e-Come, trot out the proof, or act the man and lection under promises of protection, against this villainy, we may reasonably anticipate se-

The Minnesotian thinks the returns vet prior to the election? Some are curious to know whether there was "a screw loose," and whether the umbrella was designed to protect the agent's person, or Gov. CF Packer's majority over Hazlehurst is at least 160,000. Wilmot's majority over Hazlehurst exceeds 118,000. That Hazlehurst is a rapid candidate-he is. Wonder whether anybody heard something drap!

THE ELECTION .- Sufficient is known about the recent election in Pennsylvania, to know that the allies of Slavery interests, aided by the Molly Maguires and the influence of popery have again carried the State by a handsome majority. However much we deplore this result we still have a hope that good will eventually result from it. The friends of Freedom and a Protestant nationalty may learn the importance of more active, energetic and harmonious action. We are unwilling to believe that this! result is a fair expression of the sentiments of the people of the great Keystone State. Humbuggery and deception were extensively practiced, and no means were left untried by the enemy to bring about this state of things.

The Protestant sentiment is too deeply rooted in our people to thus contribute to the encouragement to the Papal Hierarchy, if they had not been grossly deceived. Already is there an association for political purposes in full operation in our country, commonly known as the Molly Magnires, which is said to be composed almost exclusively of Roman Catholies. This association acted in harmony with the so-called Democratic party at the last election. Will not American citizens soon take warning of the impending danger and unite togother to stay the progress of the political power which a foreign ecclesiastical Potentate is exerting over our elections? Will they choose their own rulers or will they permit a foreign power to dictate for them? -Indiana Register.
