TEMPERANCE MEETING .- The Washingtonian Temperance Society adjourned to Monday evening next, at early candle light, in the Court House. The public is kindly invited to attend.

G. Philipp Guelich, Pres't. to attend.

THE LUMBER BUSINESS .- We have recently been making inquiries about the prospects of the lumber trade the ensuing spring. The existing financial troubles must necessarily have a depressing effect, as the eastern dealers will find it difficult to raise funds, without paying ruinous rates of discount, to pay the balances now due or falling due, let alone making further purchases. Another thing worthy of attention is, that a considerable portion of last years' stock remains unused in the hands of the consumers. With these facts before them, our heavy dealers, who have heretofore been in the habit of advancing money to pay the expenses of making timber, &c., will be tardy about doing so now. Indeed, one of the heaviest dealers in the county told us that he designed making no advancements. It is clearly manifest, that when there is a general paralysis of business, such as the country is now experiencing, the lumber trade cannot escape; and it is equally clear that as every branch of trade has suffered a decline in prices, it is not at all likely that this one will be an exception, more particularly when its relative position to other branches of business, is taken into consideration. It is not surprising, therefore, that men are timid about making advancements, for no one is able to foresee how they will, to use a common phraze, "get their money back" in the spring.

If a large business is done next spring, it cannot reasonably be expected that more cash will be realized from sales than will pay the expenses of running, if even that, and those who have bestowed their winter's labor on it, and undergone the hardships incident to rafting, will find themselves in a worse situation than if only a light business were done. We think it is clearly the policy of every man to contract his operations this season, or at least hold back until such time as a brighter prospect presents itself.

It is a gratifying fact that there is enough grain, or nearly so, in the county, to supply the home demand for a year to come. The advantage to be derived from this can be easily judged when it is known that at least \$150,000 worth of flour and produce were brought to this county during the past sammer. The present years' experience has demonstrated satisfactorily that, with ordinary attention, the farms in this region can be made productive, and we entertain no doubt that, if more care were bestowed on that branch of industry, it would become not only remunerative, but profitable. We trust that the subject of increasing farming operations, and cultivating and improving our lands better, will receive more consideration than it has heretofore.

RAIN! RAIN!!-Mun! Mun!!-During the last six or eight days, rain has fallen in considerable quantities in this region, but the showers were more like those that usually fall in April than in November. In conscquence of so much rain, the ground has become perfectly saturated, and the roads are unusually muddy, rendering travel difficult and disagreeable. Monday night was very stormy and quite a number of trees were blown down in different sections.

PRINTERS IN OFFICE. -The two United States Senators from Pennsylvania, the Governor and Canal Commissioner elect, the Speaker and Chief Clerk of the House of Representatives, are all practical printers. The present Chief Justice and the newly elected Judge Thompson of the Supreme Court, worked as journeyman printers at Harrisburgh, thirty years ago. The business of printing is evidently going down when typos becomes office-

GOLD AND SILVER IN THE WORLD .- The products of the California mines the last six years are put down at \$443,091,000; those of Australia, since their discovery, at \$296,-813,000; or \$789,904,000 in all-an increase of about one-third, according to the best statistical writers, on the value of precious metals known in 1850. The total value of gold and silver in the world at the present time is npwards of \$2,000,000,000.

WHEAT IN IOWA .- The Iowa City Republican states that the farmers in that vicinity are offering their wheat at forty cents a bushel, and cannot find purchasers. The Republican adds :-- "The same state of facts is reported of the Muscatine and other river markets; and indeed, we may say the markets generally of the State."

The Philadelphia Press is unable to understand why it is that Hon. Edward Stanley, formerly a North Carolina Whig, should identify himself with the Republicans of Califorpia, "unless his late tendency to piety prepared him for it." One thing is certain-it don't take a great "tendency to piety" to prepare any one to become a modern Democrat.

THAGEDY IN PHILADELPHIA .- On last Wednesday, the 4th inst., Mr. Thomas W. Smith, a travelling agent for De Bow's Review, entered the .St. Lawrence Hotel, on Chestnut street, where he found Mr. Richard Carter, a resident of Tamaqua, and President of the Anthracite Bank. Smith entered the front sitting room, where Carter was sitting in conversation with his nephew, and requested an interview. The nephew retired, and a few minutes after, a shot was fired, and Carter was seen to step towards Smith, when the latter fired again, and Carter fell forward on the floor. Smith fired two more shots at him after he fell. Carter died instantly without a groan. The prisoner then passed into the street where he was arrested by an officer. Smith gives as the reason for his conduct, that he had married a young female, with whom he became acquainted at a Seminary, and who Mr. Carter represented as his ward or adopted daughter, believing her to be a virtuous woman. Four months after they were married she was delivered of a child, which he alleges is Mr. Carter's, in whom, claiming to be a man of honor. and occupying a highly respectable position,
