THE RAFTSMAN'S JOURNAL.

THE JOURNAL.

CLEARFIELD, PA., DEC. 2, 1857.

WE are requested to state that Rev. L. L. Still will preach in the Lutheran church on next Sabbath at three o'clock in the afternoon.

WE have several contributions on hand, which shall appear as soon as possible.

THANKSGIVING DAY was observed by a portion of our citizens. Services were held in the Presbyterian church. Rev. Mr. Galloway of that church, and Rev. Dr. McLeod, the Episcopalean clergyman, delivered terse and appropriate discourses, which were listened to with marked attention.

ELLIS ASKEY & WIFE versus DR. M. WOODS .-The trial of a cause of considerable importance, before Alex. Irvin, Christopher Kratzer, and Wm. F. Irwin, arbitrators, attracted our attention in the latter part of the past week, and as the community at large seemed much interested in the event of the suit, we depart from our usual course in reporting only the proceedings of court, to notice this case. This suit was brought for alleged malpractice in the reduction of a dislocation of the left elbow of Mrs. Askey. The evidence disclosed the fact that the arm is now almost straight and stiff, owing, as alleged by plaintiff, to want of proper care and skill on the part of the surgeon. The defendant contended that he had used the proper means to bring the bones into place, and left the patient in the situation recommended by the best surgical authorities; that the rigidity of the joint was the result of plaintiff not following his directions, and of causes over which he had no control. The investigation was a lengthy one, and much medical testimony was produced during the trial. The cause was warmly, and ably contested by both parties-on the part of the plaintiffs by W. A. Wallace, Esq., and by L. J. Crans and J. B. McEnally, Esquires, for the defendant. The award of the arbitrators was in favor of the defendant.

OUR NEW EDUCATIONAL WHEEL.

It has been deemed expedient to obtain a the party. column in one of our county papers, to be devoted to the interests of education. This the editor of the Raftsman's Journal has cheerfully tendered us. Thus a new, and as may be justly considered, an important movement in the educational interests of Clearfield county, has been initiated, and one, if properly carried out, that angurs much good to this important cause. It is a movement in which every man, the rules of eliquette. woman, and child who has come to sufficient years, ought to feel an interest. The education of the children, next to religion, is the great and important subject of the day. Light and knowledge are flying abroad, and intelligence is increasing, and Clearfield, county by crinolinear measurement. must not, shall not fall behind in the intelligence of her people, and the education of her putting on a clean pair of stockings and drinking a glass of cold water an experiment he had not And now. Nov. 19, 1857, articles of association children. Abounding in physical resources, tried for many years before. in enterprise and energy, if the proper means are afforded them, we may expect golden resuits. Although only a new county, and laboring under great disadvantages in many respects, in some she yields the palm to none. Already she has sent forth a Governor, a United States Senator, and a judge to preside over the courts in an eastern district of the State. And wherein does she yield the palm to others in business enterprise and tact, and in the native endowments of her people. She has been behind many other counties in the State in education, because she lacked the advantages; but already she has done a great work for the future. In every new country much preparatory work must be done. This Clearfield county, in many parts, has been doing, and we may anticipate the time, not far distant, when she will have public schools interior to few, if any for charters for twenty-two new banks, one for a others in the State. Other counties have taken the lead of us in the matter of an educational department in the county papers, and in this way have done much towards diffusing educational light and knowledge among their citizens. But wherein they have the advantage of us in time, let them not have in the energy and efficiency with which they carry it forward. Already we have the assurance of the aid of a number of a pail of well water. valuable contributors, to render this department interesting and valuable. But a few are not enough for such a work. We cordially invite the aid and co-operation of all, whether teachers, patrons, or triends of education, who can wield the educational pen. Teachers especially should aid in this important work. Communications should be directed to the Editor of the Raftsman's Journal, who will give them proper attention, and under whose inspection, as editor, they will pass. Articles on the general subject of Education, on some branch, or on school management and the manner of teaching different branches, will be appropriate. We call upon the ladies especially to aid us by their contributions, in making this column interesting and attractive. Let them throw their charms and their attractions around it, and they will add new interest to the great work of Education.

Strange creatures are mankind. How many reputations have bled by whisper. How many field. Pa. benevolent deeds have been chilled by the shrug of a shoulder. How many individuals have been shunned by a gentle, mysterious hint. How many chaste bosoms have been wrung with grief at a single nod. How many graves have been dug by false report. Yet you will keep it above the water by the wag of your tongue, when you might sink it forever. Destroy the passion for tale-telling, we pray. Lisp not a word that may injure the character of another. Be determined to listen to no story that is repeated to the great injury of another, and, as far as you are concerned, the slander will die. But tell it once, and it may go as on the wing of the wind, increasing with each breath, till it has circulated through the State, and has brought to the grave one who might have been a blessing to the world.

ROBINS' EXPECTORANT, COMPOUND SYRUP OF WILD CHERRY.

FOR THE CURE OF Bronchial affections. Coughs, Colds, Pleurisy, Broa chitis, Asthma, and all other diseases of the throa and lungs, except Consumption. This invaluable remedy is no quack nostrum, but is prepared from remedy is no quack hostrum, but is prepared from the recipe of a regular physician, who during a practice of twenty-five years, used it with unpar-alleled success. It is a combination of expecto-rant remedies, simple in their character and used by every educated physician. It is easily taken, produces no nausea or other disagreeable effects, and gives almost immediate relief. In this everchanging climate, where coughs and colds so fro quently end in consumption and death, no family should be without this CERTAIN CURE.

It would be easy to follow in the wake of the venders of patent medicine, and multiply certificates got up for the occasion, of miraculous cures, but no such adventitious aid is necessary in introducing this preparation to the public. Its real value, and never failing success, in accomplishing all promised for it, cannot but give it a wide circulation, and recommend it to all those afflicted with diseases for which it is a remedy. DAILY TELEGRAPH FOR THE SES-SION — PROPOSED ENLARGEMENT The Harrisburg Dasly Telegraph is now in the second year of its existence. It started last fall rather as an experiment, and has succeeded beyond the most sanguine expectations of its publishers. It has gradually won its way to public favor. until it has placed itself upon a firm and sure basis, and is now one of the permanent "institutions' of the Capitol. It shall be the effort of the publishers to continue it in the spirit in which it has been conducted, to add to its general and local in-terest, and to merit its steadily increasing patronage; and should its increased patronage in sub-scription and advertising be commensurate with their hopes and expectations, it is their intention to enlarge it about the first of January next, by the addition of four more columns. This will give us additional room for our advertising patrons, without intrenching upon the space allotted to the reading matter. During the Legislative session it is the most desirable paper in the State. The

paper will be strictly neutral in politics. During the approaching session of the Legisla-ture, it is our intention to make the "Damy Tena correct and reliable exponent of the EGRAPH doings of the Legislature of Pennsylvania. With of more than ordinary importance. The derangement of the currency. and the peculiar position of the Banks, will require, or, at least, will excite much legislation. Incorporated companies for manufacturing, mining and other purposes, will also require much legislation. It shall be our province to present to the readers of the Telegraph full and impartial legislation upon these and all other subjects, wherein they may be interested. Business men throughout the State, who desire

a correct knowledge of the doings of their representatives during the sessions of the Legislature. and there are many such, do not properly appreciate the Telegraph Through its columns can obtain this knowledge, and also receive the very latest news of the day, domestic and foreign, by telegraph and mails; and will be a perfect mirror of the news throughout the world. sons who desire correct information, and who once take the Telegraph, would not do without it again. The Local department will be attended to as usual, and will give a faithful record of everything

of interest occurring in our immediate midst The Telegraph will be published every evening, (Sundays excepted.) on the following terms : FOR THE SESSION. | FOR THE YEAR.
