G. PHILIPP GUELICH, Pres't.

CLEARFIELD, Feb. 5th, 1858. Mr. Row :- Dear Sir : Leaving the discordant elements of the County Town in the middle of Court-week, for the purer atmosphere of the country, and passing through a tolerably well cultivated farm settlement, we arrived at Millport, which is a thriving little village at the head of the Little Clearfield Creek navigation, and will doubtless be a point of no little importance when that navigation is completed and the vast quantity of stately oak and pine growing in the valley of that stream, is being put upon its bosom to float to a market. From here I passed through vast forests of pine timber, interspersed with fine farms, to Glen Hope and Janesville. The latter is injured by the plank road to Tipton passing at some distance by it. The former is dull, because dependent on the lumber trade. From here, I returned to Ansonville, which is a beautifully located village, on the turnpike from Lumberville to Gien Hope, surrounded by an extensive settlement of well cultivated farms to support it, many of the occupants of which are emigrants from noble and fair old Scotia. In passing through the various places which we visited, I could not help being struck with the contrast between those who have turned their attention exclusively to the cultivation of the soil, and those who, despising so slow a way of making money, have embarked in the uncertain and vexatious business of lumbering. The one has been for years enjoying what the other has been expecting, and now when the pressure of the times has thrown the lumbermen upon their backs, the farmer stands upright, and firm as his own freehold, comparatively regardless of the suspension of banks and the money gambling movements of the world. The energy and perseverance with which the ignis fatuis of the lumbering business has been pursued, is certainly admirable and speaks well for the industry of those employed in it. If, however, they had exerted themselves to the same degree in clearing and cultivating the soil, they would doubtless have found themselves in better health, with more comfortable homes and fewer debts. But what is past, is past recalling. I would suggest to those lumbermen who are now lying on their cars, waiting for better times, to make a comparison between themselves and those engaged In other business, and see whether they had not better seek a more certain employment. ***

ROBINS' EXPECTORANT.

COMPOUND SYRUP OF WILD CHERRY.

FOR THE CURE OF Bronchial affections, Coughs, Colds, Pleurisy, Broa chitis, Asthma, and all other diseases of the throa and lungs, except Consumption. This invaluable remedy is no quack nostrum, but is prepared from the recipe of a regular physician, who during a practice of twenty-five years, used it with unpar-alleled success. It is a combination of expecto-rant remedies, simple in their character and used by every educated physician. It is easily taken, produces no nausea or other disagreeable effects and gives almost immediate relief. In this everchanging climate, where coughs and colds so fre-quently end in consumption and death, no family ould be without this CERTAIN CURE.

It would be easy to follow in the wake of the ven-ders of patent medicine, and multiply certificates got up for the occasion, of miraculous cures, but no such adventitious aid is necessary in introducing this preparation to the public. Its real value, and never failing success, in accomplishing all promis-ed for it, cannot but give it a wide circulation, and recommend it to all those afflicted with diseases for which it is a remedy. TO CORRESPONDENTS AND OTHERS .- COMMUnications, to secure attention, must be accompanied by a responsible name.

Proceedings of meetings should be handed in early. It is very uninteresting to fill a column with proceedings of a meeting held three or four weeks previous.

Brevity must also be observed. It is not expected that the minutest details should be given in a report for publication.

We are willing, and desire at all times to insert anything that is news, or will edify our readers. At the same time we expect persons to be courteous, and not ask us to do too much for mere accommodation.

Yesterday from 6 to 8 inches of snow fell here. In the evening it rained a little; but during the night it froze. As soon as the snow gets broken down, we will have good sleighing. Some timber was hauled during the last week, and more will be got in this.

BIBLES .- We direct attention to the adver. tisement of the Clearfield County Bible Society, in another column. It may be a matter of interest to many to know that bibles, testaments, &c., can be procured at much lower prices from the Society than elsewhere.

Oun County Commissioners have received a statement of the cost of keeping prisoners in a Slave State, a yell of derision and indignathe Western Penitentlary, from which it appears that, after deducting the amount of their earnings, there is a deficiency of \$143 31 due the Penitentiary from this county.

REVIVAL .- A revival has been in progress in the Methodist church in this place, during the last two weeks, and quite a number of persons have professed religion and connected themselves with the church.

The tradesman who does not advertise liberally, has been very appropriately compared to a man who has a lantern, but is too stingy to buy a candle.

EXPENSIVE WARS .- Fighting Indians appears to be a very expensive luxury for the general government. Nobody can tell how many millions it cost to drive a few red-skins out of the swamps of Florida, and catch "Billy Bowlegs." And now it appears, from official documents, that the necessary expenses incurred for the suppression of the Indian hostilities in Washington Territory, were nearly a million and a half of dollars, and the total expenses unpaid in Oregon, for similar purposes, are four millions five hundred thousand dollars. For the maintenance of the volunteer force in the former, not including the pay of the volunteers, the expense was nine hundred and mxty-one thousand dollars, and in the latter over three millions. At the lowest estimate, the Indian troubles in the Pacific territories of Oregon and Washington, have cost the naessary more than ten millions of dol-

Well versed in Scripture-a certain Buffalo lawyer. In summing up a case he said, "there, gentlemen of the jury, is a witness who has taken the stand unmindful of the command of the twelve apostles, which says, 'Thou shalt not bear false witness against thy neighbor.' '

Worthy of note.-Several captains of vesels recently arrived at New York, state that the Gulf Stream runs this year 40 or 50 miles nearer the American coast than heretofore The fact is mentioned on accounting for the extraordinary mildness of the winter weather thus far.

Couldn't think of any thing to say for a ong time-the youth who came to town to see his intended wife. At last, a great snow falling, he took the occasion to say that his father's sheep would be all undone. "Well," said she. taking him by the hand, "I'll keep one of them."

Annoyed-a physician, by an old lady, who was always sure to accost him in the street, for the purpose of telling her ailments Once she met him as he was in a great hurry. "Ah! I see you are quite feeble," said the doctor : "shut your eyes and show me your tongue." and the doctor, quietly moving off, left her standing there for some time in this ridiculous position, to the infinite amusement of all who witnessed the scene.

When, during the last Presidential contest, a Republican journal or speaker in a Free State expressed apprehensions or convictions that the triumph of Buchanan would render Kansas tion was set up by the supporters of the Nebraska bill. We were accused by them, not merely of exciting fears of an impossible evil, but of knowing that no such result as we predicted was possible. But now Mr. Buchanan coolly tells us in his Extraordinary Message that "Kansas is at this moment as much a Slare State as Georgia or South Carolina," and not a murmur of remonstrance is heard from any but the Douglas men. THE NEW-YORK STEAM SAW-MILL AND MACHINE COMPANY .- CAPITAL \$250.000-This company has been organized with the above capital for the purpose of supplying the demand for the Combination PORTABLE STEAM SAW-MILL, and other Improved Machinery. They have purchased the entire machine-ry business heretofore carried on by J. M. Emer-son & Co., also the Montgomery works at Yonkers, on the Hudson, near this city, and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds at more liberal rates, than has ever been offered at any other establishment

THE COMBINATION SAW-MILL, was patented October, 1856, and is now generally acknowledged to be the cheapest, most practical, and efficient lumber manufacturing machine in the world. A large number of them are in successful operation in different sections of this country, Canada, Cuba, and South America, and wherever their merits have been tested they are being adopted by lumber

manufacturers in preference to all other mills. The following letter expresses the general opin-ion of those who are using the Combination Mill: Messrs. EMERSON & Co-Gentlemen: I have tried the saw-mill purchased of you, and will say that it performs well, and more than meets my expeotations. I am well pleased with its performance. I set it up on a small stream that afforded constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3.000 feet of beautiful lumbor in 12 hours, with something less than one cord of wood. It is the very thing we have needed in our county for a long time. With a little trouble and expense, we are able to move it from five to ten miles per day, and set it up in the heart of the timber, which saves the great burden of hauling the logs a long distance to the mill.

Yours, respectfully, JESSE KERR, JR.,

Louisville, Tennessee. The Company have purchased Land's Patent Feed Arrangement, which is illustrated and des-cribed in the 'Scientific American' for October 24. This adds greatly to the efficiency of the mill.

The Combination Mill, with all the recent improvements, and steam power of fifteen horses, is capable of sawing from 3.009 to 4,000 feet in 13 ours, and is sold for 1.650. THE NEW YORK CIRCULAR SAW-MILL

Is manufactured only by this Company. It is of superior construction, and sold for 25 per cent lees than other mills of ne greater capacity. A mill with 36 to 54-inch saw can be sold for \$450 to \$500. and with a 20 horse engine and boiler is sold fo 82.200.

Steam Engines and Boilers; Engines of from I to 100 horse power; Locomotive, Tubular, Flue and Cylinder Boilers furnished at greatly reduced prices from former quotations. Drawings, with plans and specifications for build-ings and machinery, furnished gratis to our custo-

mers. Competent mechanics are sent out to put up

and set in operation our machinery. when required

We also manufacture Shingle Machines, Plan-ing Machines, Sugar-Mills, and machinery in

general. Special attention paid to getting up Shafting and Pullies for manufactories, and all

Mills when required. J. M. EMERSON & CO., Agenta-fant No. FI Broadway, Ban
