PENNSYLVANIA COMMON SCHOOLS .- The Superintendant of the Common Schools of the State in his annual report to the Legislature, shows that there are 10,956 public schools in the State, exclusive of the city of Philadelphss, which is under a different superintendence. They have been opened during the year on an average five months and thirteen As'te Judges-Hon. Wm. L. Moore, days. The pupils attending these schools number 541,248; including Philadelphia, the number is 596,008. This number is, however, believed to be considerably below the actual attendance. In the State, there are 9,060 waiting for admission into schools, for want of adequate school accommodations. In Philadelphia, numerous as our schools are, there are, besides, 4,869 applicants waiting for admission. Some townships have never put public schools in operation at all and it is believed that there are now in the State 25,782 children not enjoying the privilege of common schools. Including the cost of buildings, the average cost of instruction is 65 cents for each pupil, or about \$3 624 for the five months and a half that the schools are open. The total cost of the system, including all expenses, and including Philadelphia, is \$2,282,579, or less than \$4 per year to each pupil. The total number of teachers employed, is 13,445. The average salaries of the male teachers per month, is \$24; female teachers, \$16 60. In the city of Philadelphia, of course, the salaries are much higher, for here teaching is a profession, and not, as is too often the case in the country, merely adopted for temporary support. Normal Schools and Teachers' Institutes are doing much to elevate the standard of education in the State, and raising the profession of teacher to an independent and honorable position, taking equal rank with other learned professsions. The Superintendent pays a high compliment to the school system, which is acknowledged to be one of the best in the country, and other States are so much impressed with its structure and working that they are endeavoring to shape their policy by our example. There is a vast amount of information is the Report respecting the operations of the school system in each county of the State, and we are pleased to see that there Is a better supervision, more time bestowed upon the duties, and a gradual and marked improvement in the organizations and operations

LITERARY SOCIETIES .- These Societies are not generally appreciated as they should be, else they would be found in every schooldistrict throughout the State. They certainly afford greater and purer enjoyment than is found plets, early and reliable information of all Bank Failures and changes; true descriptions of all by young men in the manner they occupy their counterfeit, altered and spurious bills; genuine evenings, and leisure moments, where these societies do not exist. We say young men, but those of maturer age, and more cultivated

"If thou hast mind, thou hast to spare, And giving will increase thy share; Put forth thy thoughts with earnest zeal, And make some stubborn spirit feel The grace, the glory, the delight That spring from glory aright."

Women, too, are by no means exempt from the debt they owe society. It is a duty we all owe to each other to contribute what is in our power towards making life a pleasure, and how very useful we all could be even in this small matter of a Literary Society, in which one person appointed by the society each week would read an interesting essay or give us a speech on some interesting subject-where each one could propose a question to be referred to a member for an answer to be read at the next meeting-where debates could be had &c. &c. We do not know how any one could spend an evening more pleasantly or more profitably than at such a meeting. Will not the young people of town and country think seriouly of the advantage and pleasure to be derived in this manner, and organize societies

PAT AND OTSTERS .- Pat, who had just been transplanted, had been sent by his master to purchase half a bushel of Oysters, at the quay, but was absent so long that apprehensions were entertained for his safety. He returned at last, however, pufling under his load in the most musical style.

"Where have you been?" exclaimed his

"Where have I been? Wity, where should I, but to fetch the Oysters ?2 -

"And what in the name of St. Patrick kept

"Long! by my sowl, I think I have been pretty quick, considering all things."

"Considering what things ?"

"Considering what things? Why, considering the gutting of the fish, to be sure." "Gutting what fish ?"

"What fish? Why, blur an owns, the

Oysters ?" "What do you mean ?"

"What do I mean? Why, I mean that as I was resting down forment the Pickled Herring, having a dhrop to comfort me, a jintleman axed me wnat I'd got in my sack. "Oysters, said I." "Let's look at 'em," says he, and he says he," "who sold you these?" "It was Mick Carney," says I, "aboord the Pol Doodle Smack." "Mick Carney, the thief of the world, what a blackguard he must be to give them to you without gutting." "Ain't they gutted?" says I. "Divil a one," says he, "Musha, then," says I, "what'll I do?" "Do," says he, "I'd sooner do it myself than see you abused." And so he takes 'em in doors and guts 'em nate and clane, as yon'll see ;" opening, at the same time, his bag of oyster shells, that were as empty as the head that bore them

A gentleman advertises for information respecting "a black leather CARPET bag." This is almost as good as a recent advertisement of the contents of a lost trunk, among which 60 bushels Buckwheat, in the possession of Wm. were said to be "a green lady's silk dress," and A. Dunlap, of Pike township, as the same belong instructive and for sale at the store of to me.

INRIVALLED ATTRACTIONS! AND PUTNAM'S MONTHLY, TWO GREAT MAGAZINES IMPONE.

90.000 COPIES THE FIRST MONTH! MAGNIFICENT PROGRAMME FOR 1858 \$20,000 IN SPLENDID WORKS OF ART.

FIVE-DOLLAR ENGRAVING TO EVERY SUBSCIBER. The Great Labrary Offer .- Agents Getting Rich ! The union of EMERSON'S MAGAZINE and PUTNAM'S MONTHLY has given to the consolidated work a circulation second to but one similar ublication in the country, and has secured for i combination of literary and artistic talent proably unrivalled by any other magazine world. During the first month, the sale in the trade and demand from subscribers exceeded 90,000 copies, and the numbers already issued of the con-solidated work are universally conceded to have surpassed, in the richness of their literary contents, and the beauty and profuseness of their pictorial illustrations, any magazine ever before issued from the American press. Encouraged by these evidences of favor, the publishers have determined to commence the new volume in January with still additional attractions, and to offer such inducecents to subscribers as cannot fail to place it, in circulation, at the head of American magazines. With this riew they now announce the following splendid programme. They have purchased that superb and costly steel-plate engraving.

"THE LAST SUPPER," and will present a copy of it to every three-dollar subscriber for the year 1858. It was engraved at a cost of over \$5,000, by the late celebrated A. L. Dick, from the original of Raphael Morghen, after Leonardo Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary \$3 engravings. The first impressions of this engraving are held at \$10; and it was the intention of the artist that none of the engravings should ever be offered for a less sum than \$5, being richly worth that amount. Thus every three-dollar subscriber will receive the Magazine one year-cheap at \$3-and this splendid engraving, richly worth \$5; thus get-ting for \$3 the value of Eight dollars.

We shall commence striking off the engravings immediately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers. We shall, therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings early, and from the first impressions, should send in their subscriptions withut delay The engraving can be sent on rollers. by mail, or in any other manner, as subscribers

Fifth: Because you will very likely draw one of the three thousand prizes to be distributed on the 25th day of December, 1858-perhaps one that is worth One Thousand Dollars. THE NEW-YORK STEAM SAW-MILL AND MACHINE COMPANY .- CAPITAL \$250.000-This company has been organized with the above capital for the purpose of supplying the demand for the Combination PORTABLE STEAM SAW-MILL, and other lesproved Machinery. They have purchased the entire machinery business heretofore carried on by J. M. Emerson & Co., also the Montgomery works at Yonkors, on the Hudson, near this city, and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds as more liberal rates, than has ever been offered at

THE COMBINATION SAW-MILL, was patented betober, 1856, and is now generally acknowledged to be the obsapest, most practical, and efficient umber manufacturing machine in the world. arge number of them are in successful operation in different sections of this country, Canada, Cuba, and South America, and wherever their merits have been tested they are being adopted by lumber manufacturers in preference to all other mills.

The following letter expresses the general opin on of those who are using the Combination Mill: Messrs Emerson à Co-Gentlemen: I have tried the saw-mill purchased of you, and will say that it performs well, and more than meets my expectations. I am well pleased with its performance. I set it up on a small stream that afforded constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3,000 feet of beautiful lumber in 12 hours, with something less than one cord of wood. It is the very thing we have needed in our county for a long time. With a little trouble and expense, we are able to move it from five to ten miles per day, and set it up in the heart of the timber, which saves the great burden of hauling

the logs a long distance to the mill. Yours, respectfully, Jusse Kenn, Jr. Louisville, Tennessee The Company have purchased Lund's Patent Feed Arrangement, which is illustrated and des-cribed in the Scientific American for October 24. This adds greatly to the efficiency of the mill. The Combination Mill, with all the recent im-provements, and steam power of fifteen horses, is capable of sawing from 3.000 to 4,000 feet in 12

ours, and is sold for 1 850 THE NEW YORK CIRCULAR SAW-MILL Is manufactured only by this Company. It is of superior construction, and sold for 25 per cent less than other mills of no greater capacity. A mill with 36 to 54-inch saw can be sold for \$450 to \$566.

and with a 20 horse engine and boiler is sold for 52,200. Steam Engines and Bollers; Engines of from 1 to 100 horse power; Locomotive, Tubuiar, Flue and Cylinder Boilers furnished at greatly reduc-

ed prices from former quotations. Drawings, with plans and specifications for build ings and machinery, furnished gratis to our customers. Competent mechanics are sent out to put up and set in operation our machinery, when required

We also manufacture Shingle Machines, Plan-ing Machines, Sugar-Mills, and machinery in general. Special attention paid to getting up Shafting and Pullies for manufactories, and all kinds of Mill-wright work. This company are selling in great numbers a Patent Contest Burr-Stone Mill, for flour, cornmeal, and all kinds of feed, which is pronounced

by experienced millers, both in this country and Europe, The Best Mill ever constructed. It will grind more grain in the same time, and with half the power, of any mill of the same price in the We also furnish other styles of Grisi-Mills when required. J. M. EMERSON & CO., Agents.
