Co Sunday next, 14th inst., Rev. Dr. Mc-Lead will supply the Pulpit of the Methodist Episcopal Church in Clearfield, morning and evening, Rev. Mr. Barnhart being absent.

PINE COUNTY .- We see published in the Indiana papers the proceedings of a meeting of the friends of Pine county, held at the Cherry Tree on the 20th ult., at which John Mahaffey presided. A compromise, by which the boundarles were enlarged so as to take in Edmund Williams in Ferguson township, this county, and thence to the mouth of Witmer's run on Clearfield creek, and thence to the north-east corner of Chest Tp. in Cambria county, was agreed upon. A report was also adopted, setting forth the inconveniences the people of that region suffer, and the advantages to be gained by the formation of a new county. It does seem unjust that a portion of the citizens of our county should be compelled to travel nearly forty miles to reach the county seat. The counties, from which it is proposed to detach Pine, embrace a very large scope of territory, and doubtless a rapid development of all their resources is retarded by the inconveniences to which a portion of their population is subjected. Petitions are now before the Legislature urging the formation of Pine county, and efforts are being made to have a bill passed this winter. The friends of the new county, if they wish to succeed, will have to move actively and harmoniously.

TYRONE & CLEARFIELD RAILROAD .- At a meeting of the Managers of this road, held at Phillipsburg on last Friday, George W. Leufter, Esq., was elected Chief Engineer. Mr. L. is a man of much practical experience at engineering, having been in the employ of the Pa. Central company, afterwards was engaged .in Tennessee, and more recently, we believe, upon the Ft. Wayne and Chicago road. He is, perhaps, one of the best locating engineers in the United States, and his experience will doubtless aid in expediting the completion of our road. He is to go over and examine the work already performed on the route, and report at the next meeting of the Board. We understand that arrangements are contemplated being made with the Central Company for furnishing the iron that will be required for the track.

THERE is no telling what a party, like a day, may bring forth. Somebody has by these lines poeti-c RANS-omed from oblivion the party beld at Weaver's on last Friday night: Winter still lingers. WRIGHT MERRILLY resounds The tinkling sleigh-bell and Romn's gladsome voice NoW ALL ACEIbity is banished -one REEDS In smiling faces, pleasure. Harder MOORE Than Stone must be HEARTS-wicked the deeds Of those who shoot the lips and cry; oh, Shaw! WHAT SON devoil of sorRow could refuse To join the throng when HILLS repeat What gladdens Forests solitude; or choose To LOCKE their hearts 'gainst joy? Their feet WILL son and daughter move-what sings the muse To join-as WEAVERS shuttle fleet.

SKATING .- For some days the ice on the Susquebanna at this place has been in excellent skating order, and good use is being made of it. Quite a number of persons may be seen daily exercising themselves in various ways, some dashing along rapidly, others circling around, and not a few performing the extraordinary feat of measuring their length on the surface of the ice-(we did that so well on Monday that the most unbounded applause burst forth from all present.) Undoubtedly, however, skating is fine amusement and good exercise, and we wonder that our ladies do not indulge in it. In the New England States, it is very common to see ladies skating.

THE LUMBER BUSINESS .- By this time the great bulk of the timber has been hauled to the river banks, and preparations will now be made for raiting-in and running the same as soon as the river opens and there is a freshet. The quantity of timber will not be quite as large as last spring, should it all be run to lee' is concerned; he has a good mind and a clear market. It may, however, happen that, if the market is dull and meney scarce, a portion of It will remain at home. This would cut the stock down considerably. But if the prospects are favorable, it will all be run.

Those who wish to secure a truthful likeness on glass, (i. e. an ambrotype,) would do well to call at Purviance's Photographic Gallery, on 2d st., as he is now supplied with good chemicals, &c. His terms are cheap and accommodating; he never charges unless the picture is satisfactory. Remember the place: 2d St., next door to Merrell & Carter's Iron and Tin-ware establishment.

A Sale of personal property will take place at Dr. A. T. Schryver's on the 19th inst., as will be seen by an advertisement.

CURWENSVILLE, Pa., March 8th, 1858. MR. EDITOR :- The Curwensville Saxe-Horn Band gave a concert at Pennsville on last Satnrday night, which deserves at least a passing

Accompanied by some of our music-loving citizens, our band started for the usually quiet village of Penn, at 4 o'clock P. M., at which place they were invited to supper by Mr. W. W. Anderson, the very polite and accommodating landlord, (with whom we would recommend all travellers to stop.) After supper, the Band proceeded to the school-house, (one of the best in the county,) which was soon filled by an appreciative people, among whom we noticed Broad Brim, as well as pretty women. The liberal donation of some \$12 to \$15, encouraged all hands to do their best. After the exercises, the band proceeded to the residence of Wm. C. Foley, Esq., where all partook of supper, prepared under the direction of his accomplished lady and daughter, and such a delightful repast we never sat down to before. After supper and a few more tunes all started for home, promising never to forget

our pleasant trip to P.

It is doubtful if there can be found one family of like number, in the State, whose average age will beat the above

MYSTERIES OF A LUMP OF COAL .- For years no one supposed that a piece of soft coal, dug from its mines or bed in the earth, possessed any other quality than being combustible, or was valuable for any other purpose than as fuel. It was next found that it afforded a gas which is also combustible. Chemical analysis proved it to be made of hydrogen. In process From G. D. Lanich, collector of tax of 1856, \$135 45 of time mechanical and chemical ingenuity devised a mode of manufacturing this gas and applying it to the lighting of buildings and cities on a large scale. In doing this, other products of distillation were developed, until step by step, the following ingredients or materials are extracted from it :- 1. An excellent oil to supply light-houses, equal to the best sperm oil, at lower cost. 2. Benzole-a light sort of ethercal-fluid, which evaporates easily, and combined with vapor or moist air, is used for the purpose of portable gas lamps, so called. 3. Naptha-a heavy fluid, to dissolve gutta percha, India rubber, etc. 4. An oil excellent for lubricating purposes. 5. Asphaltum, which is a black, solid substance, used in making varnishes, covering roofs and covering vaults. 6. Parrafine-a white, crystalline substance, resembling wax, which can be made into beautiful wax candles; it melts at a temperature of f10 degrees, and affords an excellent light. All these substances are now made from the soft coal of Kentucky, and manufactured by a company at Clovesport in that State. They have twelve retorts in operation day and night, consuming eight or ten tons of coal every twenty-four hours. One can hardly realize, as he takes a lump of heavy, smutty coal in his hand that he holds concentrated therein all these different ingredients chained within, and which a little heat prop-

wly applied will liberate .- North American.

ROBINS' EXPECTORANT COMPOUND SYRUP OF WILD CHERRY.

FOR THE CURE OF Bronchial affections, Coughs, Colds, Pleurisy, Bron chitis. Asthma, and all other diseases of the throa and lungs, except Consumption. This invaluable remedy is no quack nostrum, but is prepared from the recipe of a regular physician, who during a practice of twenty-five years, used it with unpar-alleled success. It is a combination of expecto-rant remedies, simple in their character and used by every educated physician. It is easily taken, produces no nausea or other disagreeable effects, and gives almost immediate relief. In this everchanging climate, where coughs and colds so frequently end in consumption and death, no family hould be without this CERTAIN CURE.

It would be easy to follow in the wake of the venders of patent medicine, and multiply certificates got up for the occasion, of miraculous cures, but no such adventitious aid is necessary in introducing this preparation to the public. Its real value, and never failing success, in accomplishing all promis-ed for it, cannot but give it a wide circulation, and recommend it to all those afflicted with diseases for

which it is a remedy. Price 371 Cents per Bottle.
Prepared exclusively by
THOMAS ROBINS, Druggist, March 4, 1857.-tf

M E T H I N G N E W West End of Spring Creek Bridge, Cheapside,
Betlefonte, Penn'a.

The general character of the Scientific American is well known, and as heretofare, it will be chiefly devoted to the promulgation of informachiefly devoted to the promulgation of informa-tion relating to the various Mechanical and Chem-ical Arts, Manufactures, Agricultice, Patents, In-ventions, Engineering. Mill Work, and all inter-ests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 fine-ly executed Engravings, and Notices of American and European Improvements, together with an Official List of American Patent Claims published

weekly in advance of all other papers.
It is the aim of the editors of the Scientific American to present all subjects discussed in its col-umns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combating and exposing false theories and practi-oes in Scientific and Mechanical matters, and thus preserve the character of the Scientific Amas a reliable Encyclopædia of Useful and Enter-

taining Knowledge.

Specimen copies will be sent gratis to any part of the country.
