County Meeting.

All those opposed to the present National Administration, and who are in favor of the sovereignty of the people over their own concerns, of opposition to foreign influence, and protection to American industry," are requested to meet at the Court House, in the borough of Clearfield, on WEDNESDAY EVENING, THE 23d OF JUNE, for the purpose of electing conferees, to meet the conferees of the other counties in the District, to elect Senatorial and Representative Delegates to the State Convention to assemble at Harrisburg on the 14th of July next.

H. B. SWOPE,
Chr. American County Executive Com.
S. B. ROW,
Chairman Am. Republican Co. Ex. Com.

A COUNCIL AS A COUNCIL.—During the last six months we have been called upon to do a little advertising for the Borough, for which we, as a matter of course, expected to get paid, and accordingly a couple weeks since we made out our bill, which we here append for the inspection of the public, namely:

To S. B. Row, Dr.
Dec. 16, 1857—Publ. notice for charter, \$1.00
Feb. 17, 1858— " statement of finances, 5 squares 24, 3 75
Feb. 24, 1858— " ordinance relative to dogs, 4 sq. 24, 3 60

Total, \$7.75
The charges are made in strict accordance with our terms at the time of publication, and we took it for granted that the bill would be promptly paid. Any one can, therefore, imagine our surprise when we called a few days since and found that the "city fathers" had laid the bill on the table.

The conduct of the council—or rather the controlling portion of it—is strange. We are at a loss to understand them. Our bill is an honest one, and the advertising was done "by authority." Whether, as on a former occasion, the political opinions of the majority—for three out of the five are Locofocos—led them to think that we should not be paid for what we do—or whether, "infused with self and vain conceit," they merely wished to make a display of their "little brief authority," does not fully appear. If they were actuated by motives of economy, they had better commence retrenchment and reform in another quarter.

We have no desire to indulge in harsh language against those who refused to pay us our dues; but we wish to lay the facts before the public to show how contemptible men can make themselves with a little effort.

ROMANCE.—On last Thursday night, Hon. Ben. Rush Bradford, whilst remaining over night at Moore's Hotel, in Luthersburg, this county, was robbed of a wallet containing \$215.00 in money and some valuable papers. It was the same night on which the circus performed there. Mr. B. was awakened by a rap at his room door, upon opening which the person who rapped excused himself by saying he had made a mistake. Afterwards Mr. B. and his wife, who accompanied him, were awakened by one of the windows, which had been left open, closing with a crash. It is supposed the fellow entered the room through the window, and as he went out caused it to fall. The gold watch of Mrs. B. was lying on a table, but was left untouched. No clue to the robber or robbers has yet been discovered.

LATER.—After the above was in type, we learned that the robbery wasn't a robbery after all, and that Mr. Bradford has recovered his money and papers, though from the circumstances mentioned he could be easily led to believe that his wallet had been taken from his room. It now appears that he dropped it out of doors in the evening; that a portion of the money fell out of the wallet; that the pocket book was found by one man and the balance of the money by another, both of whom were connected with the circus; that the next day they called at a hotel in Brookville for a detector to examine some money; that the hotel keeper, to whom one of the bills was shown, identified it as belonging to Mr. B.; and the latter, being in that town, was sent for and recovered his lost property, suitably rewarding the finders.

A "MRS."—On last Wednesday evening a "free fight" was raised at Lumber City, in which several of the citizens of that region and some of the hands connected with Mable & Crosby's circus took an active part. Stones, clubs, chairs, steel knuckles and "fistices" were handled freely, and a general knocking around and bruising of heads took place. It is said to have been "big pig, little pig, root hog or die," with all who took part in the fun, but as the showmen were the most expert at rooting, they came out "big pig." We do not know who was at fault in raising the fight, tho' it is quite easy to tell who was in it. The next day warrants were issued for the arrest of the showmen, but we are not aware that any of them were apprehended.

EVADING THE LAW.—Yesterday Mr. Fred K. Smell was arrested and brought before Judge Moore, on a charge of slandering a woman. After a hearing, Frederick was informed that he would have to go to jail, or give bail in the sum of \$200 for his appearance at the next court; whereupon he asked leave of absence to hunt some one who would go his bail. Instead, however, of doing this, Frederick, it is hinted, indulged in a few potatoes, and then took his bed and pretended to be sick, groaning and tossing around in an agonizing manner, and when the sheriff called upon him he found him going through these interesting manoeuvres. During the course of the afternoon, the sheriff called a second time, and requested Frederick to accompany him, which he declined and became "obstreperous," when the sheriff called in assistance and took him to "limbo."

Prof. Bonafon, an experienced teacher of dancing, is at the Mansion House in this place, for the purpose of getting up a class. He teaches all the modern figures, and persons desirous of becoming pupils should give him a call immediately.

CLIPPINGS AND SCRIBBLINGS.

Was to adjourn—congress on the 14th.
A fine coat may cover a fool, but never conceals one.
Won't pay printers—that august and sapient body, the town council.
Being tapped—any quantity of lager beer, ale, and bad whiskey, in this place.
An attempt was made on the 2nd inst. to fire the office of the Sumbury American.
What work is there in five letters, if you take away two six will remain? Sixty.
The Corner Stone of the new college edifice, at Bethany, Va., was laid on the 21st ult.
Mrs. Gaines is in Washington, urging her claims to a pension as the widow of Gen. Gaines.
We have heard of a fellow who was determined to commit suicide if he perished in the attempt.
The emancipation movement in Russia is going forward earnestly. Serfs will all be free before long.
Dr. Franklin used to say that rich widows were the only pieces of second hand goods that sold at prime cost.
Leavenworth in Kansas, has 7,000 inhabitants, two daily papers, two theatres, and several churches and schools.
Gen. Scott will soon be seventy-two years of age, of which time fifty years have been spent in the service of his country.
Exciting—the hog-lug question. For it's "big pig, little pig, root hog or die," with some persons, with others it's "run up."

Several ladies of fashion at Washington City, are introducing *lager beer* into their houses, as a refreshing morning beverage to offer visitors.
It is stated as a curious fact that every general officer in the army of the American Revolution was a Free-Mason—except Benedict Arnold.
A Merchant lately advertised for a clerk "who could bear confinement." He received an answer from one who had been seven years in jail.
It is proposed to establish a new order of knights, to be called "Knights of Leocompton." Each member is to wear a collar labelled "I am a Backslider."

The Chicago *Dinner* will have several persons in that city, who supply families with milk, who have not a cow in the world. They manufacture it from chalk and drugs.
"Jury," said an Arkansas Judge, "you kin go out and find a verdict. If you can't find one of your own, get the one the last jury used." They returned a verdict of suicide in the 9th degree.
The combined production of the gold mines of California and Australia, for the past seven years, is six hundred and eight millions of dollars. What a heap of dross it would make if altogether.
A New Hampshire man, who is at the gold diggings in California, has discovered a vein of a spade had enabled him to discover "several very small grains of gold and several tons of exaggerated dross."

Gen. William Walker, as every body expected, got off at New Orleans from any punishment for his violation of neutrality laws—an offence for which he was on trial. The District Attorney entered a *nolle prosequi* in the case.
The largest timber raft ever floated down the Susquehanna river was brought to Wrightsville, Pa. It was floated out of the Sinnemahoning creek in sections, and rafted at Lock Haven. It is 348 feet long and 22 feet wide.
A most melancholy casualty occurred at the village of Roscoe, Illinois, on the 21st inst. A centaur of a small stream was swept away, the tide carrying off the dwelling house of Rev. H. H. Hiley, and ending the death, by drowning, of his wife and eight children.
Hughes of Indiana, and Harris of Illinois, members of Congress, indulged in some personal remarks the other day, in the House, which led to the passage of a resolution, and the consequent settling the difficulty amicably.
Well—Patented.—The trustees of the Agricultural Society of Hillsboro' county, N. H., have placed on the committee on darning and patching, John H. Jones, Joseph Patch, and Edward Patch, all of different towns. If that isn't a patched up committee, we should like to see one.

Attention.—A Camp of Instruction is ordered by the Commander-in-Chief of the forces of Pennsylvania, to be held at Williamsport, and it is to continue from Tuesday, September 7th, to Saturday, September 12th. All the uniformed companies in the State are invited.
The people of St. Paul, Minnesota, have recently been treated to the most remarkable exhibition in the amusement line ever seen. It was nothing less than an Indian battle, fought so near the town that everybody turned out to look at it. Could not the Sioux and Chippewas engage in this affair engaged for a tour through the country?
The Grand Lodge of Free and Accepted Masons of New York, adjourned on Monday afternoon, after having effected a full and complete union with the Grand Lodge over which M. W. James Jenkinson presided. The division between these two bodies dates as far back as 1819, and the reunion effected on Monday is a grand event among the brethren here. Congratulatory speeches were made by Capt. Rynders, James Jenkinson, and W. F. Lewis. Representatives of the Grand Orient, of France, Peru, Venezuela, and of the Grand Lodges of Missouri, Canada, Minnesota, Saxony, &c., were present.

LADY TAMING.—The great success of Rarey in taming fractious horses in England, has suggested to a crafty Yankee the idea of applying the secret art to women, especially those who have promised to obey, and have, of course, never done so. He charges \$50 a lesson. Here are some of his certificates:
This is to certify that Mr. Paul Prettyman has succeeded in subduing my wife. He took her into his den, most restless condition, and in one hour she was cooking a beef-steak with the placidity of an angel. J. P. HONKER.
New York, May 8, 1858.
Mr. Prettyman has full liberty to refer to me. His art I consider the great desideratum of married life. He quieted Mrs. Simpkins, who was always ugly in double harness, and accomplished wonders. Not a shirt button has been missing since the date of his trial. P. SIMPKINS, Newark, N. J.
People having "obstreperous ribs," can be accommodated with the remedy.

NEW WAY TO KILL RATS.—A writer in the Rochester Union proposes a new method for killing rats. His own house being overrun with the vermin, the servant-girl, who had seen the effects of "Old Bourbon Whisky" on bipeds, thought she would try an experiment on the rats. Accordingly she took a small quantity, and made it very sweet with sugar, crumpling in bread enough for the crowd, and set the dish in the cellar. A few hours after she went down and found several rats gloriously "fuddled," engaged in throwing besopods and hauling one another up to drink. These were easily disposed of; those not killed left the premises immediately, suffering with a severe headache. The writer adds that the medicine is quite agreeable to take.

COULD NOT BEAR PROSPERITY.—About a year since a young man named James Dean, at that time working as a journeyman carpenter in Chicago, received a legacy of about \$40,000 by the death of an uncle in Australia. The New Covenant announces that he died last week from the effects of dissipation.

A WHOLE VILLAGE DESTROYED.—The Chicago Press, of the 2d, has the following particulars of the sad tragedy attending the destruction of the village of Ellison by a whirlwind:—Fourteen persons were killed almost instantly, and ten more are supposed to be mortally wounded. Of these latter, two died next day, three on Monday evening, making nineteen in all. Ellison is a village in a township of that name, lying due south of the line of the Chicago, Burlington and Quincy Railroad. The tornado struck the village about half-past five o'clock, and during its continuance no rain fell. The houses were frame structures. There was a large tavern stand and three stores, those of Samuel Johnson, Joseph Knowles and another. The appearance of the dwellings and structures after the passage of the whirlwind is described by one eyewitness "as if one should tear to pieces and scatter a lumber-yard." Of roofs and walls, and the various structures, there was seen, in many instances, scarcely a trace, as if a giant's hand had reduced and torn them to shreds and splinters. They lay scattered over the fields. Here a piece of broken furniture, and there a shattered door, and beyond an undistinguishable mass of timber and boards, floor beams, ceiling and rafters. Even the bodies of some of the sufferers were torn to pieces.
A Report is current in Illinois that Senator Douglas will be a candidate this Fall for the House, probably in place of Col. Harris, whose health though improved, is still very precarious. Mr. Douglas possibly remembers that Henry Clay, after having been twice sent for fragments of terms to the Senate, was elected to the House, and, on the first day of his membership that body was chosen its Speaker. The next House will be absolutely obliged to recast the Revenue policy of the Government, and to do something towards the much needed Retrenchment of Expenditures, whereof so much has been said and so little effected. The Senate is so constituted that an able, energetic, capable statesman, who aspires to be not negatively but positively useful to the country, must naturally prefer a seat in the House. These considerations give plausibility to the report respecting Mr. Douglas which reaches us from Illinois. Should he be a candidate for the House from Col. Harris's or any other Democratic District, the opposition to him is not likely to be formidable, whether the postmasters shall be finally instructed to support or oppose him.

100,000 DOLLARS.
Clear gain to Clearfield county, per annum, by manufacturing their pig-iron into Shingles, on Huey's Celebrated Patent *Shingle Machine*, which makes a beautiful shingle out of comparatively inferior timber, that would not make split shingles at all. The mode of operation is: It saws and planes the shingle smooth on both sides at one operation, and will turn out ten finished shingles every minute while it is kept running at its speed, which would be six thousand per day of ten hours, if kept running all the time; but allowing one-half of the time for greasing and other necessary arrangements, it will make 3,000 per day, which is a very safe calculation. All the hands necessary to run it two; a man to attend to the sawing and a boy the planing. We will here insert a few words from the Lancaster Daily Express:
"I received the first premium at the York and Lancaster county fairs, where the practical operation of this machine produced the following profitable result: from one cord of select pine shingles procured at a saw-mill, costing ten dollars, it manufactured in less than one day two thousand shingles, sold for SIXTEEN DOLLARS per thousand."
It combines all the advantages of Woodworth's and Norcross's Planing Machines; besides which it possesses one great advantage which no other Planing Machine ever invented does—that is, it will plane a straight, beveled or tapering piece of timber, wherein its great value lies. Although we might fill sheets with its praises from eastern papers, we will only insert a small extract from the Lancaster Inland Daily Times:
"It was invented for the purpose of making shingles, staves, heading and lath, and for sawing and planing straight or beveled work, flooring, weatherboarding, &c. Its use during the last six months has proved it to possess a full capacity for manufacturing all the various articles above mentioned." The same paper says: "The flour barrels made from the staves prepared by this machine, are as smoothly finished as the best quality of Cedar ware." For further information address NATHAN GRIEST, Unionville, Centre Co., Pa., Attorney for said Patent in said State, from whom all persons wishing machines, with the right to use them, can be supplied, or the right to manufacture and sell machines in any part of the State not yet sold. HO! YE HUNGRY AND THIRSTY!
The appeasing of hunger and the quenching of thirst, is a matter that has attracted the attention of many wise heads in various ages of the world. What conclusions they have arrived at, and what theories they have propagated, it is needless to mention here. In these latter days men have conceived the idea that "inner man" can be at least bountifully supplied by means of restaurants. With this laudable purpose in view, and a desire to gain a livelihood, the undersigned has fitted up an elegant saloon in the basement of Graham's Carters new building on Second Street, Clearfield, Pa. GREAT DISCOVERY OF THE AGE.
IMPORTANT TO TOBACCO CHEWERS.
Dr. Gustav Lazard's Taste Restorative Troches, the Great Specific for Tobacco.—It is a well known and incontrovertible fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL disorders to which the race of man is subject, as careful analysis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose the organ to be seriously diseased. TOBACCO affects also the entire nervous system, manifesting itself—as all who have ever used the noxious weed will bear testimony in Lassitude, Nervous Irritability, Headache, Dizziness, and many other disorders of a similar character. "Taste Restorative Troches" are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritable and burning tickling sensation of the Throat—which is always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stomach, invigorates the whole system. Persons who are irritable, undervaluing their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco Chewing. These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 cents per Box. A liberal discount to the Trade. Prepared solely by the undersigned to whom all orders should be addressed. JAMES E. BROWN, Druggist. Corner 2d and Race streets, Philadelphia. April 14, 1858-ly.
