PREPARED FOR THE "RAFTSMAN'S JOURNAL." INDIANA COUNTY .- One night last week, a man who was attacked by the night-mare, set the goodly people of Indiana Borough into an uproar, by screaming fire and murder, after dashing out a window in his sleeping apartment. The cause of alarm was soon discovered and the crowd left "instanter." On the night of the 9th some of the secolored population" raised a fuss with some young men, in front of the Indiana House, resulting in one of the former running his head against a poker, which brought him to his proper level and put him on his good behavior for the time being. . . . On Saturday evening, the 12th, a man named Wegman, of Pine township, was lodged in the county jail, on a charge of stealing wheat from James Duncan. . . . One day last week, an Irish pediar, named Lot M'Ireny, fell in company with several teamsters some nine miles from town, who were coming from Maboning for goods. He contracted with them to bring bim and some rolls of oil-cloth to town, and on the way a difficulty arose between them, leading to a muss. On arriving here, the pedlar made information against the teamsters for assault and battery, upon which they were arrested and bound over. They, on their part, alleged that the pedlar had been actuated by malice, and instituted proceeding against him for perjury. He was put to jail, where he will probably be kept until court, when the whole affair will come up for judicial investigation.

SCHUYLKILL COUNTY .- The miners at Jeanes ville, York Town and Andenreid collieries, are Il out on a strike. The men at the two last collieries were perfectly willing to continue working, but a gang of ruffians, numbering some 200, came from Jeanesville to York Town, and threatened the men with death if they continned working. A miscreant by the name of Tarball, a man of notoriously bad character, has been making inflammatory speeches and tomenting the evil feeling amongst them. This is the more to be deprecated, as most of the men have but little, if anything, laid up. The present state of the coal trade is such, that it is impossible for the operator to pay

An ingenious novelty has just been brought out on the North Pennsylvania Railroad, in the shape of a station indicator, which informs the passengers of the name of the station or place which the train may be approaching. A cylinder, placed in a conspicuous part of each car, contains the names of all the stopping places on the line of the road. As the train reaches or leaves one station, the brakesman turns out and exposes to view the name of the next. It is a great boon to travellers, especially strangers.

100,000 DOLLARS

Clear gain to Clearfield county, per annum, by manufacturing their pine timber, into Shingles on Huey's Colobrated Patent Shingle Machine, which makes a beautiful shingle out of comparatively inferior timber, that would not make split shingles at all. The mode of operation is: It saws and planes the shingle smooth on both sides at one operation, and will turn out ten finished shingles very minute while it is kept running at its speed, which would be six thousand per day of ten hours, if kept running all the time; but allowing onehalf of the time for greasing and other necessary arrangements, it will make 3,000 per day, which is a very safe calculation. All the hands necessato run it is two; a man to attend to the sawing and a boy the planing. We will here insert a few words from the Lancaster Daily Express :

"It received the first premium at the York and Lancaster county fairs, where the practical operation of this machine produced the following profitable result : from one cord of select pine slabs procured at a saw-mill, costing ten dollars, it manufactured in less than one day two thousand shin-

Sles, sold for SIXTEEN DOLLARS per thousand." I combines all the advantages of Woodworth's and Norcross' Planing Machines; besides which it possesses one great advantage which no other Planing Machine ever invented does-that is, it will plane a straight, beveled or tapering piece of timber, wherein its great value lies. Although we might fill sheets with its praises from eastern papers, we will only insert a small extract from the Lancaster Inland Daily Times:

"It was invented for the purpose of making shrugles, staves, heading and lath, and for sawing and planeing straight or beveled work, flooring, weatherboarding, &c. Its use during the last six months has proved it to possess a full capacity for manufacturing all the various articles above mentioned ' The same paper says : "The flour barrels made from the staves prepared by this ma-chine, are as smoothly finished as the best quali-ty of Cedar ware." BISHOPS OF PENNSYLVANIA .- Since the establishment of the Episcopal Church, in this country, there have been but three Bishops in Pennsylvania. The first of these, the venerable Wm. White, was consecrated at Lambeth Palace, by Scottish Bishops, in 1787. When his health failed, with advancing years Rev. Henry U. Underdonk, D. D., was elected Assistant Bishop, and was consecrated, October 25th, 1827. On the death of Bishop White, in 1837, Bishop Onderdonk succeeded him, and continned to perform the duties of Bishop of the diocese until his resignation in May, 1845. Rev. Alonzo Potter, D. D., was then elected to the diocese, and was consecrated Septem ber 23d, 1845. If Bishop Bowman, now elected Assistant Bishop, should survive Bishop Potter, he will become Bishop of the diocese.

A Jew in Cincinnati was making handsome gains by the sale of lottery tickets, and invested his said gains in real estate, which, fearing prosecution and fines on account of his illegal business, he conveyed to his wife. After a while he grew jealous of his wife, and, satisfied of her infidelity, he resolved to take poison, but was dissuaded by his friends. At this juncture his wife, with all his property in her possession, has commenced suit for a divorce, whereat he feels uncomfortable.

The Evansville (Indiana) Journal says that it is estimated that, at the present time, there are some two thousand people from other States sojourning in Indiana and Illinois, for the express purpose of getting divorced from their wives or husbands.

GREAT DISCOVERY OF THE AGE. Dr. Gustav Limard's Taste Restorative Troches, the Great Substitute for Tobacco.—It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL disorders to which the race of man is subject, as cureful analasis and long and painful experience have clearly proven that it containscertain narcotic and poisonous properties most dangerous in their effects which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased. TOBACCO affects also she entire nervous system manifesting itself—as all who have ever used the noxious weed will bear testimeny—in Lassitude Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character. The "Taste Restorative Troches" are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire sys-tem, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat-which are always consequent upon abstaining from the use of To bacco, and by giving a healthy tone to the Stom-

ach, invigorate the whole system. Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned to whom all orders should be addressed.
