A meeting of the Bible Society of Clearfield County will be held in the Court House on Wednesday evening of the ensuing Court week, or in case the court room cannot be had, in the Methodist meeting house. Addresses will be made by friends of the cause, who have been engaged. ALEX. McLEOD, Prest.

TEMPERANCE MEETING .- The Washingtonian Temperance Society will hold their quarterly meeting on Monday evening, August 16th, in the court house, at early candle-light. Music will be in attendance and addresses delivered. The public is kindly invited to attend.

G. PHILIPP GUELICH, Prest.

STABBING AFFAIR .- A correspondent informs us that on the 1st., at Cherry-Tree, Indiana county, Mr. Joshua Davis had a difficulty with his brother Benjamin whilst at dinner, and finally struck him with a pen knife, the blade of which hit Benjamin between the sixth and seventh rib. Benjamin tried to take the knife from him when Joshua struck him on the left thigh, severing a large vein. Joshua was arrested, and was to have been taken to Indiana next morning.

HARVEST .- Our farmers are pretty wellthrough with their wheat and rye harvest. From what we can learn, the crop of wheat is an average one, although some fields were almost wholly destroyed by the weevil. The greater part of the hav is also secured. We have had some fine showers during the past few days, which have imparted new vigor to the corn, which looks well. Buckwheat is also improving. The oats are suffering much from rust and the crop will be light.

Self-Possession .- We see it stated that a lady near Newmarket, Tennessee, was recently bitten by a rattlesnake; that she undid her apron string, tied it over the bite, killed the snake, cut off a piece, applied it to the wound, drank a quart of whiskey, and at last accounts was doing well. The vivid imagination of Dunham, of the Lock Haven Watchman, has made several remarkable appendages to the story, for in addition to all that is related of the lady's doings, he has her swallowing three | zen." large pieces of tobacco, smoking six cigars, eating two pounds of "bear's grease," and trying to run down a wolf, besides locating the occurrence in Clearfield county.

MRS. HALE'S RECEIPTS FOR THE MILLION .-This is the most complete work of its character ever published. It is bound up in one handsomely issued volume of near eight hundred pages. It is a thorough and practical Encyclopedia for the whole country. The whole is arranged with an Alphabetical Index to every receipt in the whole work. Every ington a country village or a city village? receipt, every precept is practical, and has been tested and proved worthy of credit. If properly followed, the directions found in the volume will infallibly produce the promised result. Price one dollar and twenty-five cents a copy. Address, T. B. Peterson & Brothers, 306 Chestnut Street, Philadelphia.

CURIOUS PITCHER .- Prominent among the curiosities at the Hermitage, once the home of Gen. Jackson, is a wooden pitcher, remarkable both on account of the artistic skill displayed and the celebrity of the tree from which the wood was procured. It was made of wood from the elm tree under which William Penn made the celebrated Indian treaty. The pitcher was presented by the coopers of Philadelphia; and, although it is not larger than a common cream-jug, it contains seven hundred and fifty staves. The hoops, lid and handle are of silver; the bottom is a magnifying glass, by looking through which one is en-

THE VIRTUES OF BORAX. - The washerwomen of Holland and Belgium, so proverbially clean, and who get up their linen so beautifully white, use refined borax as washing powder, instead of soda, in the proportion of a large handful of borax powder to ten gollons of boiling water; they save in soap nearly half. All the large washing establishments adopt the same. For laces, eambries, &c., an extra quantity of the powder is used, and for crinoline (required to be made stiff) a strong solution is necessary. Borax being a neutral salt does not in the slightest degree injure the texture of the linen; its effect is too soften the hardest water, and therefore it should be on every toilette table. To the taste it is rather sweet, is used for cleaning the bair, is an excellent dentrifice, and in hot countries is used in combination with tartaric acid and bi-carbonate of soda, as a cooling beverage. Good tea cannot be made with hard water; all water may be made soft by adding a tea-spoonful of borax powder to an ordinary sized kettle of water, in which it should boil. The saving in the quantity of tea used will be at least one-fifth.

THE CROPS.—The following in relation to the crops is not without interest at this time : The wheat crop in Indiana will be fully an average one. Oats rather a failure. Corn promising. Grass abundant.

The wheat crop in Ohio will fall but little below an average should the season prove fa-

In Georgia, corn and potatoes promise an immense yield. So also throughout the southwest. Cotton crop is also fine.

In Alabama, the prospects indicate as fine a cotton and corn crop as any ever made in the

The Arkansas crops are tolerably good, the corn, tobacco, wheat and oats crops especially. In Texas, wheat good. Corn more than an average. Cotton a large crop.

New York, Vermont, Massachusetts, New Jersey and Pennsylvania, all promise a full average crop of wheat. Grass an immense yield and potatoes and corn very promising. In Wisconsin, the wheat crop will fall below an average, so also in many portions of Virginia and Maryland. The sugar and cotton crop in the South promises a large yield.

GREAT DISCOVERY OF THE AGE.
IMPORTANT TO TOBACCO CHEWERS. Dr. Gustav Linnard's Taste Restorative Troches the Great Substitute for Tobacco.-It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL disorders to which the race of man is subject, as cureful analasis and long and painful experience have clearly proven that it contains certain narcotic and poinous properties most dangerous in their effocts which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased.

TOBACCO affects also she eutire nervous system, manifesting itself—as all who have ever used the noxious weed will bear testimony—in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character. The "Taste Restorative Troches" are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tick-ling sensation of the Throat—which are always consequent upon abstaining from the use of To-oacco, and by giving a healthy tone to the Stom-

ach, invigorate the whole system Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco

Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 cents per Box. A liberal discount to the Trade
