THE ATLANTIC TELEGRAPH.

The laying of the Atlantic Telegraph Cable has at length been successfully accomplished. Last week, at a time when no one expected fairs? Do they suffer in like manner? Reduce wages to ten cents a bound for Valentia, Ireland, and the Niagara day, and the President's salary becomes equal and Gorgon for Trinity Bay, on the American to that of eight hundred men. All of these shore. It is 1698 nautical, or 1950 statute people desire, of course, that everything may miles from the telegraph house at the head of Valentia harbor to the one at Trinity Bay, and their appetites must increase with every step for more than two-thirds of this distance the in that direction. Free trade having already water is over two miles in depth. The electric signals sent and received through the food and clothing-need we wonder that they whole cable were perfect. Mr. Field tele- now look anxiously for the arrival of those graphed to Mr. Buchanan at Bedford Springs, informing him of the success of the enterprise, and that as soon as the two ends were connected with the land lines, her Majesty, Queen Victoria, would send a message to the President, and that the cable would be kept | what has already been accomplished, as exhibfree until his answer had been transmitted.

The announcement of the success of this magnificent and stupendous enterprise, gives birth to strange emotions, and one scarcely knows how to express himself. An achievement so gigantic, so vast, so strange, so momentous, is almost incomprehensible-is al- always follow that official men live in a manmost beyond the power of human mind to ner commensurate with their wealth. For the fathom. The N. Y. Tribune says:

"It is not possible to grasp the wondrous beauty and magnitude of this triumph. The ocean has defied man; now man defies the ocean, in so far as the subtle carriage of tho't entertainments, equipage, etc., were unusualis involved. Down, down to its lowest deep- by frequent and of an expensive kind. Their clustered in obscurity and mystery, where no human eye can reach, and where early faiths | was, in this city, a perpetual carnival." placed the water-gods, run these cunning devices by which nation speaks to nation, continent to continent, in the lightnings of the heavens. The old theory of distances, severances and physical possibilities, seems destroyed, to be replaced by new combinations and consqueences. The sea's storms, sucking down argosics and armadas, are now compensated for by the prowess which seizes the deep and uses it for human purposes, declaiming in the language of nature itself-silent and

"Each man must feel freer in the accession of so much power. What the earlier theologies and romantic writings attributed to the functions of supernatural beings-the geniithe Olympians-the force to strike off the dead drag of the flesh, and fly through ether to the uttermest ends of the earth, or to course the eyes of this age and all the nations, in the stern, fierce palpability of human triumph-of the work of man, who, advancing on chaos and the dark, has battled with the Titanic forces, and come off victor.

"We must believe that such a new reading to human possibility must carry as vast moral as it does physical lessons. It cannot be that such a fresh boon from God to man, which exalts the least as well as the greatest of human ity, should not bear with it the principle of love and liberty, even to the humblest and saddest. In the contemplation of such supernal glories accorded to the race, men will grow weary with oppression; they will rise with their newly born destinies; they will mount ever onward and upward, until the better day which has ever fired the heart of poetry and prophecy shall have dawned on the race."

Hox. John Covone.-We are pleased to learn that this gentleman has been re-nominated for Congress in the Indiana, Westmoreland and Armstrong district. Mr. Covode is one of the most deserving men of the last Congress, and there were few more efficient and useful members. He is a practical man, steadily opposed the Kansas iniquity through its various stages, and has always been a strong advocate of protection to American Industry. We hope to hear of his triumphant re-election, although the district prior to his first election was largely Democratic.

J. S. BARNHART, Esq., one of the editors of the Bellefonte Watchman, dropped into our office yesterday. We found him a very agreeable gentleman, a clever, good fellow generally, and only regret that he is such an irreclaimable "Dimmycrat." Still we hope that his "shadow may never grow less."

Mifflin County has expressed her preference for Hon. James T. Hale, of Bellefonte, as the People's candidate for Congress in that district. We know of no one that we would sooner see nominated and elected than Judge Hale. He is a sound tariff man, and would faithfully represent his constituents.

THE DEAR PEOPLE AND THEIR MASTERS.

Throughout the country men are offering to yet are wholly unemployed. Poor houses are lish, received by the latter a few days prior to filled to overflowing. Taxes are rapidly ris- to the Congressional Convention in his Dising. Furnaces and factories are idle. Ships trict, and doubtless used by him to facilitate are rotting at the wharves. Merchants, una-Washington, July 25, 1858 ble to pay rents, discharge their clerks. Labor is, therefore, everywhere superabundant.

Unable to sell his labor, the laborer is unable to purchase his usual supplies of food. The market for food diminishing, prices fail, and pressing the hope that you may be the unanithe former is unable to purchase cloth. Unable to sell cloth, the manufacturer does not need to purchase engines. If so you may say or clothing. Look where we may, commerce is nearly dead-the heavy sufferers by her death being those "dear people" who, like ourselves, must sell their labor, if they would be enabled to purchase food.

Such being the case with the people, how is it with their masters-the men whom they have placed in the administration of their afsenators, congressmen, comptrollers, and all the better it must be for them. At fifty cents The telegraph fleet, Mr. Cyrus W. Field in- | a day, they can purchase the labor of twice as be cheap-feeling that their power to gratify done so much for them; cheapening land, labor, happy days of "free trade and direct taxation," when a dime shall be considered a fair day's work. Certainly not?

> That point reached, there will be glorious times at Washington, if we may judge from ited in the following picture drawn from the columns of one of our free trade neighbors :

"The present cabinet has been more remarkable than any of its predecessors, for a liberal and hospitable style of living. It is true that most of them are wealthy men, but it does not year ending with this spring, not one of the cabinet expended less than fifteen thousand paid to George Ashman .- Harrisburg Teledollars, and two or three of them expended graph. each twenty-five thousand. Under the home of the leviathans | Douglas and Gwin-and thus fashionable and public life, during the season prior to Lent,

To the people's masters, a "perpetual carnival." To the people themselves, a perpetual "Lent." Such is the prescription of that modern democracy, of which Mr. Buchanan is now the head-of that hard money democracy, which seeks to substitute low wages for that protection to the American laborer, which was given by the tariff of 1842 .- North American.

The present month of August is the proper time for setting out strawberry plants. Now. young masters and maidens, if you "love" the luscious crimson fruit, fit for the gods, don't be lazy or dainty-fingered, but go right to work and make a strawberry bed, even if you have a spot of ground for the purpose no larger than the family breakfast table. He that planteth nor soweth when he might, onght not to gather or reap. "In the sweat of thy under waters of the ocean with the haste of brow shalt thou cat"-strawberries as well as light itself-is here thrust before the dazzled "bread." The drone on the farm or in the city ought to be dragged over the side as the big, greedy, lazy loafers of the bee-hive are.

How they are Bled .- Buchanan office holders, like the unfortunates in the reign of John Tyler, have to pay the piper. The Washington correspondent of the Chicago Times writes that Mr. Cook, the Chicago Postmaster, has informed the Administration that he has subscribed \$7,000 towards the establishment of the Chicago Herald, and has compelled his eighty clerks to subscribe from

There is a mammoth Congressional district in Wisconsin. It is the third, which extends and daughters. from the line of Milwankie county to Lake Superior, and embraces twenty or more counties, having an aggregate population of 350,000 souls, and upward of 60,000 voters. Wisconsin will probably have, under the next apportionment, eight members of Congress.

KANSAS ELECTION .- Last week the Constitutional election was held in Kansas. From the returns received, there is little doubt that the Lecompton constitution is defeated. In Leavenworth there were 139 for the proposition and 1,610 against it. At Kickapoo precinct, 90 votes were cast for, and 53 against admission under Lecompton.

MISSOURI ELECTION .- Francis P. Blair, Jr., is defeated in the St. Louis district, and Barret, Democrat, elected to Congress. There were three candidates in the field, which was the cause of Blair's defeat. The Democrats have evidently also carried the other districts, in consequence of the division in the ranks of the Opposition.

The advices from the country regarding the Corn crop, are very encourageing. In all sections of the country it is doing as well as could

A more undignified epistle than this has not been written by any one-horse ward politician in or out of Indiana-we were about to say since the Foley document, but Foley's letter was dignified in comparison with this miserable thing. Foley merely wished to be sturned looase" in the "Deestric," and promised to be re-elected. But here we have the President interfering in a Congressional Caucus in Indiana, and promising those Democrats who were eager to succeed Mr. English, that they should be well provided for if they would leave English a clear track, and also proposing to throw as much assistance as Mr. E. might | A young child of Thomas Jenks, in the village desire into the District. THAT TARIFF BRIBERY FUND .. - John W. Walcott, who was the hero of the tariff corruption committee of the late session, has been sued by the creditors of Lawrence, Stone & Co., for the recovery of the \$74,000 which he received from that firm for the purpose of influencing the passage of the tariff of 1857. and which, as is well ascertained, he kept in his pocket, probably by an understanding with Sam. Lawrence, who now shelters himself abroad from a presecution at home. The trial may elicit some further facts in regard to Lawrence's financiering. The testimony taken by the Committee of the House is now published, with the report, forming a document of 110 pages. There is nothing in the testimony that shows that any member of Congress received any of the Lawrence fund, but it is conclusively proved that Walcott retained the \$74,000, with the exception of \$4,000

Mr. Lewis Brittin, some time since, fell from a four-story building in Buffalo, a distance of forty-four feet, striking on a stone side walk. Both of his legs and arms were broken; both of his ancles were sprained, and two of his toes were dislocated. His upper jaw was seperated through the nose from the upper part of his face. All his teeth but two or three were broken out, and his jaws were so mangled, that twenty-one pieces of bone were taken from his face. In spite of and moves about nearly as well as before.

A DOCTOR TARRED AND FEATHERED .- A physician in Woodna, Orange county, N. Y., being charged with neglecting his family and paying too much attention to a fair widow, was subjected recently to rough usage by some self-constituted dispensers of justice in that neighborhood. He was ducked in a pond, and then enveloped in a coat of tar and feathers, hoisted on a rail, and escorted from town, while the perpetrators of the deed, principally laborers of the town, were rewarded, it is about midnight. Nor Run Our YET .- The retired physician, "whose sands of life" have been running out for several years past, has turned up in an advertisement in the London journals. "Wishing to do as much good as possible," and being interrupted at New York in his benevolent designs, by Mayor Tieman and the Post Office authorities, he has exported his "sands of Life" to the British Islands-were, probably, they will run as long as he finds it profitable to keep them running.

FOUND HUNG .- The Upshur (Texas) Democrat tells of the finding of the body of a man suspended to the limb of a tree by the neck in a swamp. A paper bearing the words "horse thief" was conspicuously pinned upon the corpse, which appearently had been hanging some weeks. The only explanation besides were the words "Frier's Point, Miss., Frank Woods." Whether this was the name of the horse thief, or his executioner, is left for in-

Shortly after he left town, the suspicions of Mr. Nevin were aroused, and he made information before Esq. Cohick, charging M'Cullough with obtaining the horse under fa se pretences. A warrant was issued, and placed in the hands of Constable Flattery, who immediately started in pursuit. When about five miles below Johnstown, M'Cullough rode up on the mountain and, it is alleged, shot the horse twice in the head. He was, with much difficulty, arrested, and is now safely lodged in jail to await his trial at next Court. The horse, we believe, is still living.

BUCKS COUNTY .- On the 31st of July Jacob

Pool, Inn keeper of Bristol Borough, and John Arrison, his wife and daughter, also of Bristol. were arrested upon the charge of making and issuing spurious notes, purporting to be issued by the Syracuse Bank of New York. They were taken before a magistrate and gave bail for their appearance at the September term. JEFFERSON COUNTY .- On Saturday morning the 31st July, a man, whose name we did not learn, living some four miles north of the Boro of Punxsutawney, took down his shot gun and started to the woods for the purpose of looking for game. When a short distance from the house, his gun was accidentally discharged, the load of shot passing thro' the eft hand immediately above the joint of the fore-finger, and entering the throat and breast of the unfortunate man. Dr. Woods was sent for, repaired to the spot, extracted as many of the shot as could be reached, and dressed the wounds in a proper manner.

WESTNORELAND COUNTY .- The barn of Mr. Elias Tharp, near Irwin's Station, was entirely destroyed by fire a few days since. Everything in it at the time was destroyed. It is not known how the fire originated, but it is supposed it was from the heat of the new hay. Loss heavy. . . . . A lad named Kelly aged about tourteen years, and employed on the farm of John Thomas, two miles from Greensburg, was kicked in the abdomen, by a sucking colt, all these injuries, however, he has recovered, a few days ago. He lingered in great agony for thirty hours, when he expired.

NORTHAMPTON COUNTY .- A terrible tornado occurred in Lower Bethel township on the 30th July. The building, along with a considerable quantity of hay that it contained was entirely destroyed.

DELAWARE COUNTY .- Rev. Charles Maughin, the Catholic priest, charged with unmereffully whipping an inoffensive woman, has left for parts unknown-of itself a confession of guilt. We shall, probably, have no more defences of his character from the Rev. Haviland, and no more denials of the truth of the charges against him, from the Catholic papers.

CHESTER COUNTY .- From all parts of Chester county, there are complaints of the grasshoppers. Never were they more numerous, and where the ground is dry and parched, they fields the blades are all eaten off. As yet myriads of the insects are small, but they have proved themselves good feeders.

INDIANA COUNTY .- A son of Mr. Bruse, of had three of his fingers cut off on Monday evening last. The boy was setting on the wood-pile where a younger brother was chopping, and his fingers coming in contact with the axe, they were severed from the hand. ARMSTRONG COUNTY .- On Saturday, the 24th

Absolute Success of the Cable.

TRINITY BAY, N. F. Aug. 7, 1858. The complete success of the Atlantic cable is placed beyond all doubt. Signals are now being made through the whole extent of the cable, but it is unlikely that the cable will be haps weeks, as the electricians will require time for a series of experiments with their recording instruments. Due notice will be given of the opening of the line for business.

SENATOR SUMNER .- Paris papers inform us that Senator Sumner is under the care of the most distinguished physicians. They affirm that the brain is sound, though there is some remaining effusion, and the spinal marrow is also sound—the trouble being in the spine itself. He is submitting without analysthetics, rected. Seized, taken in execution, and to be sold with the greatest fortitude, to a course of counterirritants-being cotton soaked in some inflammable substance, and ignited. He writes cautiously, but hopefully.

John A Washington .- It is everywhere conceded that this man is capable of any meannesss; but it is said that the terms of the contract with the Association for the sale of Mount Vernon legally preclude his stealing the body of Washington. One of its clauses

"And that the said vault, the remains in and around it and the enclosures, shall never be removed or disturbed; and that no other persons hereafter shall be interred or entombed within the said vault or enclosure."

NEWSPAPERS A WIDOW'S RIGHT .- A Vermont Judge of Probate, has incorporated it as a part of the law of his court, that the administrator of an estate must allow the widow the cost of a newspaper, she making her own seection, from the common fund. The common law of America now recognises the newspaper as a family and individual necessity.
