A gash about four inches long was cut in the top of his head, besides being knocked insensible for some time. Surgical aid was called in immediately, and at last accounts the patient was doing as well as could be expected.

SCHOOL EXHIBITION AND PIC-NIC .- On last Saturday afternoon, the school in Lawrence township under the charge of Miss Heisey, had a public exhibition in the grove above our town. The exercises were of an interesting character. After an address to the throne of grace, the scholars went through their various both scholars and teachers. Rev. Dr. McLeod then made some very appropriate and interesting remarks, and was followed by H. B. Swoope, Esq., who alluded to the laying of the Atlantic telegraph cable as an evidence of the Atlantic telegraph cable as an evidence of tween two sleeping children at Peori. How Does IT COME ?- Mr. Editor: It seems somewhat singular to me, that housekeepers in our town have to pay such high prices for beef, when it is a notorious fact that cattle are selling at very low rates all through the country. Can any one explain how this comes? It is right that men should have fair, remunerative prices for their beef-I want to see the dealer have a good, living profit-but I think we are paying too much, when the low price of cattle is taken into consideration.

express to that portion of the Beau Monde of your village my kind and warmest acknowledgements for their liberal patronage and kind treatment whilst with them; to my former and present pupils of ladies and gentlemen, permit me also to say, that their lady-like and gentlemanly deportment, whilst at my duty as a teacher, have afforded me many pleasurable emotions, (as also my invenile class.) In conclusion, may we all live many a happy day, so that we may providentially meet again at some future time.

Apropos-many thanks are due by myself particularly, and my school, to those gentlemen composing the School Directors, for their kindness in the use of the Hall.

Very respectfully, A. BONNAFFON.

THE WAR IN CHINA .- The intelligence of the movements of the allied squadrons on the coast of China, is of the utmost importance. On the 20th of May, the French and English vessels attacked the forts defending the entrance of the Pei-ho, and after a severe conflict captured them, thus opening the passage to the capital of the Chinese Empire. The forts were four in number, mounting in all, according to the telegram, one hundred and thirty-eight guns, although previous information had fixed the number at seventy-nine. There was also a large line of earth-works well armed and defended. Indeed, all the detences were overcrowded with troops. In addition to these artificial advantages was a natural one in the form of a sand-bar, stretch. ing across the mouth of the river, a mile in breadth, and seldom affording more than two or three feet of water. What with the gunboats, however, and the courage of the English, and daring bravery of the French, all the forts were promptly taken, notwithstanding the hardlhood of the native soldiery in their defence. It is now understood that the allied flotilla will at once advance towards Pekin, doubtless anticipating that its approach will be prevented by the submission of the Emperor. The distance from the discharge of the Pei-ho to the Capital is variously stated at from one hundred to one hundred and forty in which Bigler denounces the President and Cab-

A FAILURE .- The attempt to get up a convention in New York to nominate Gerrit Smith for a Governor was a failure. There were only 100 in attendance, half of whom were from Syracuse, where the convention was held, and three-fourths of these seceded before the nomination was made. On the proposition to nominate Mr. Smith there were but seven votes cast. As Mr. Smith said he would not accept the nomination if the convention was a "sham," he will have a good excuse for declining it.

A CARD FROM DR. JAMES M. JAR-RETT, OF THE NEW-YORK LUNG IN-FIRMARY .- My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research
aided not a little by a perfect system of Medical Inhalotion-has combled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs of the in-tegument. I do not advise the use of Medical Innalation of any kind, to the exclusion of general reatment; and although I consider it a useful aduvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of ny treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known o need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above such arrangements as will bring the benefits of my experience and treatment within the reach of all. and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to arrangement will give cutire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all dis orders will be cases as above, and that the medicines, the same as attended to sed in the Institution, prepared to suit each individual case. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treat ment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty

days. Letters for advice promptly answered. For further particulars address JAMES M. JARRETT, M. D. No. 820 Broadway, corner Twelith St., N. Y. P. GREAT DISCOVERY OF THE AGE. IMPORTANT TO TOBACCO CHEWERS. Dr. Gustav Linnard's Taste Restorative Troches, the Great Substitute for Tobacco.—It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL disorders to which the race of man is subject, as cureful analasis and long and painful experience have clearly proven that it contains certain narcotic and poionous properties most dangerous in their effects. which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased. TOBACCO affects also she catire nervous system, manifesting itself-as all who have ever used the noxious weed will bear testimony-in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character. The 'Taste Restorative Troches' are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitia-ted or destroyed by great indulgence, complete-ly removing the irritation and accompanying tickling sensation of the Throat-which are always onsequent upon abstaining from the use of Topacco, and by giving a healthy tone to the Stom-

ach, invigorate the whole system. Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco

Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 cents per Box. A liberal discount to the Trade. Prepared solely by the undersigned to whom all orders should be addressed. JAMES E. BROWN, Druggist,
