FLYING .- A fellow having imbibed rather freely, took it into his head that he could fly, and to get a good position, ascended a sign post and started. He was questioned next day as to how he liked flying with the following property, to wit, I that the following property of 3400 feet in the woods, 4 hogs. The above property, now in possession of John Robison, of Chest township, has only been left in his care, liked flying. "Oh!" said he, "it's nothing to fly. the lighting is the hardest part of the operation.'

SCIENTIFIC AMERICAN.—PROSPEC. TUS .- Volume Fourteen begins September 11, 1858.-MECHANICS, INVENTORS, MANU-FACTURERS AND FARMERS .- The Scientific American has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of Soptember. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. If the Mechanic or Artizan washes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep total with the inventor wishes to be a second with the way of the way wishes to keep posted with the times, and to em-ploy the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other machines and appliances, both of peace and war—all these desiderate can be found in the "Sci-entific American," and not elsewhere. -A CARD FROM DR. JAMES M. JAR-RETT, OF THE NEW-YORK LUNG IN-FIRMARY .- My connection for the past eight ears with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs of the inegument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general reatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseas s, yet I deem it very neces-sary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have se ong had the honor to preside, are too well known to need any culogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration. I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all dis eases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. Inhaling Vagors, Medical Inha-ters. &c., &c., will be forwarded by express to any part of the United States or the Canadas. TERMS -My terms of treatment by letter are as follows. \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: S6 to be paid to Express Agent on receipt of the box of Medicine, and the balance So at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treat-ed as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address

JAMES M. JARRETT, M. D. No. 820 Broadway, corner Tweltth St., N. Y. P. THE GREATEST BIOGRAPHY OF THE AGE.—NOW READY: THE LIFE OF THOMAS JEFFERSON, by Heny S. Randall, LL. D .- In 3 volumes, octavo .-This work contains upwards of 2,000 pages, is printed on fine paper, and handsomely bound in various styles. It is illustrated by several engravings on steel, and numerous fac similes; among the former are two fine portraits of Jefferson. fac similes embrace, among others, the original draft of the Declaration of Independence, in Jef-

ferson's own hand-writing. This is, in every sense, an authorized work; it was undertaken under the approbation of his family, and with an unreserved access to all the priate papers of Jefferson in their possession; and has received the benefit of their recollections and

opinions at every step.

The work contains the expressions of Jefferson on every great public question which arose from his advent to public life to his death—a period of about sixty years, and embracing the whole formson's heretofore unpublished family correspon-dence; selections from his finest published letters state papers, etc., etc., etc.

OPINIONS OF THE PRESS. "No other Life of Jefferson ever publishedprobably none that ever will be published—can bear any comparison to this in thorougness, fullness of incident and conscientious fidelity. This biography has evidently been a labor of love and the years of patient, assiduous toil it has cost, have been given with ungradging, untiring enthusiasm." - New-York Tribane.

"At length the public have a Life of Thomas Jefferson that is not only fascinating, and therefore sure to be popular, but one that will stand the essential historic test—that of accuracy and truthfulness. It is seen that the ground-work of the whole is authentic cotemporary material, and of the highest order. To gather it has been the work of years. We would not compare this volume with that inimitable and incomparable biography of Boswell, and yet so faithful is the portraiture that Jefferson is made to draw of himself, that his nature, his very soul, is deliniated with a distinctness not unlike that in which Johnson stands out in the pages of Boswell. -Boston Post.

sed with that enthusiastic admiration of his subject, without which a biographer is rarely successful. Mr. Randall nevertheless does not seek to hide whatever faults he may find, either from himself or from the reader. He prints the picture as Cromwell insisted his should be painted, "warts and all." The picture gains by this in life-like coloring, without losing any of its majestic proper-

tions."-Albany Evening Journal. "No one who runs his eye, however easually, over this work, will fail to be satisfied that Mr. Kandail has added very largely to the stock of the world's information about Jefferson, that he has had access to sources hitherto unexplored, and that he has done more than was ever done by any one before him to illustrate the personality of that great statesman,"-N. Y. Evening Post,

We have read with delight Mr. Randall's captivating details of Mr. Jefferson's personal history which he has seduously gathered, and admirably grouped together, from a great variety of authentic sources, hitherto unexplored. Out of the tempting richness of his materials, the able and clearsighted author has constructed a book, at once most entertaining and instructive-one that should be studied by every patriot of the land."-Rich-

mond, Va., Enquirer.

There can be only one opinion as to the ability, general impartiality and industry which Mr. indall has brought into combination in the composition of this biography. He has worthily executed a much wanted book."-Phil-

adelphia Press.
"It will take place among the choicest classics of American literature, and be consulted by every future historian of this country."-Philadeltia Evening Bulletin.

"We like it because it neither conceals, palliates, exaggerates, nor distorts, but approaches, in every instance, and in every particular, the career of the noble character whose opinions have done so much to shape the domestic and foreign policy of the notion he contributed so greatly to call into existence."-N. O. True Dolta.
