TAMMONTON LANDS .- New England Settlement .- Rare Opportunity.- To all wanting Farms-in a healthy place, twenty-field miles from Philadelphia, on the Camelon and Atlantic Railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 series divided up into farms of 20 n eres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$20 per acre, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrions man to hay a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are creeting large improvements. It is a scene of the greatest improvement out of Philadelphia Seventy-five houses have been built in 4 months. Practical farmers and business men from the length and breadth of the U nion are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised on this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or clay foam, with a clay bottom and retentine of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the area adjoining under cultivation, it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annual ly exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order oget a place to live in at first. Curpenters and builders are on hand to put up houses on the best terms.

In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and har-dy in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia.

and to all those who improve the railroad company gives a free ticket.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing. This all are expected to do. They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and locations are not held on refusal.

The Hammonton Farmer, a monthly literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cents per annum.

Title indisputable. Warrantee deeds given, clear of all incumbrance, when purchase money is paid. Route to the land :-Leave Vine street wharf, Philadelphia, for Hammonton by railroad at 75, A. M , and 54, P. M.; when there inquire for Mr. Lyrnes. Boarding conveniences will be found, etters and applications can be addressed to S B. SCIENTIFIC AMERICAN. PROSPEC TUS.—Volume Fourteen begins September 11, 1858.—MECHANICS, INVENTORS, MANU-ACTURERS AND FARMERS.-The Scientific American has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of Soptember. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. If the Mechanic or Artizan washes to know the best machine in use, or how to make any substance em-ployed in his business—if the House-wife wishes to get a recipe for making a good color. &c .- if the Inventor wishes to know what is going on in the way of improvements-if the Manufacturer wishes to keep posted with the times, and to employ the best facilities in his business-if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical lab-oratory or in the construction of telegraphs steam-ships, railroads, reapers, mowers, and a thousand other machines and appliances, both of peace and war—all these desiderata can be found in the "Scientific American." and not elsewhere. A CARD FROM DR. JAMES M. JAR-RETT, OF THE NEW-YORK LUNG IN-FIRMARY .- My connection for the past eight cars with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled op-portunities and advantage of pathological research aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-passages. By Inhalation. the vapor and curative properties of medicines are directly addressed to the diseased organs of the in-tegument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseas is, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration. I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to risit me at my office Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can, now be consulted personally or by letter, on all discuses as above, and that the medicines, the same as used in the Institution, prepared to suit each in-dividual case. Inhaling Vapors, Medical Inha-ners, 4c., 4c., will be forwarded by express to any part of the United States or the Canadas. Tenus My terms of treatment by letter are as follows. viz: \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: So to be paid to Express A-gent on receipt of the box of Medicine, and the balance So at the expiration of the month, if the patient be cured or is entirely satisfied with the reatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For

THE GREATEST BIOGRAPHY OF THE AGE. —NOW READY: THE cy Soaps and Perfumery a great variety.

LIFE OF THOMAS JEFFERSON, by Hen- Also, Prunes Figs, Raisins, Almonds, Pea-nuts ry S. Randall, LL. D.-In 3 volumes, octavo.rious styles. It is illustrated by several engrav-ings on steel, and numerous fac simeles; among the former are two fine portraits of Jefferson. The fac similes embrace, among others, the original draft of the Declaration of Independence, in Jef-

ferson's own hand-writing.

This is, in every sense, an authorized work; it was undertaken under the approbation of his family, and with an unreserved access to all the pri-vate papers of Jefferson in their possession; and has received the benefit of their recollections and

opinions at every step.

The work contains the expressions of Jefferson on every great public question which arose, from his advent to public life to his death-a period of about sixty years, and embracing the whole forming period of the Republic. It contains Jefferson's heretofore unpublished family correspondence; selections from his finest published letters. tate papers, etc., etc., etc. OPINIONS OF THE PRESS.

"No other Life of Jefferson ever published-probably none that ever will be published-ean pear any comparison to this in thorougness, full-ness of incident and conscientious fidelity. This biography has evidently been a labor of love. and the years of patient, assiduous toil it has cost, have been given with ungrudging, untiring enthusiasm " - New Vort Tribuy

At length the public have a Life of Thomas Jefferson that is not only fascinating, and therefore sure to be popular, bu one that will stand the es-sential historic test—that of accuracy and truthfulness. It is seen that the ground-work of the whole is authentic cotemporary material, and of the highest order. To gather it has been the work of years. We would not compare this volume with that inimitable and incomparable biography of Boswell, and yet so faithful is the portraiture that Jefferson is made to draw of himself, that his na-ture, his very soul, is deliniated with a distinctness not unlike that in which Johnson stands out in the pages of Boswell. - Boston Post

"Imbued with that enthusiastic admiration of his subject, without which a biographer is rarely successful, Mr. Randall nevertheless does not seek to hide whatever faults he may find, either from himself or from the reader. He prints the picture as Cromwell insisted his should be painted, "warts and all." The picture gains by this in life-like coloring, without losing any of its invjestic propor--Albany Evening Journal.

"No one who runs his eye, however casually, over this work, will fail to be satisfied that Mr. Randall has added very largely to the stock of the world's information about Jefferson, that he has and access to sources hitherto unexplored, and that he has done more than was ever done by any one before him to illustrate the personality of that great statesman. -N. Y. Evening Post.

We have read with delight Mr. Randall's cap-tivating details of Mr. Jefferson's personal history, which he has seduously gathered, and admirably grouped together, from a great variety of authensources, hitherto unexplored. Out of the tempting richness of his materials, the able and clearighted author has constructed a book, at once most entertaining and instructive-one that should be studied by every patriot of the land."-Rick-mond, Va., Enquirer.

It will take place among the choicest classics of American literature, and be consulted by every future historian of this country."-Philadel-

"We like it because it neither conceals, palliates exaggerates, nor distorts, but approaches, in every instance, and in every particular, the career of the noble character whose opinions have done so much to shape the domestic and foreign policy of the notion he contributed so greatly to call into existence."-N.
