ent of the American Farmers' Magazine asserts that the weevil, midge, Hessian fly and rust may be exterminated from wheat by preparing it for sowing, as follows :- Wash the wheat thoroughly in several waters in a tub, attring it well until the water runs off clear. After this take two quarts of caustic lime to every bushel of grain, and mix it well with the wet wheat in the tub. The amount of water in the tub should just cover the grain, which must be left to soak for twelve hours. This fime lye kills all the seeds of the insects, and the wheat is then rendered fit for sowing by turning it over among dry wood ashes on the barn floor, and using a pound of the flonr of sulphur to each bushel. It is stated that the sulphur protects the grain from the attacks of vermin, while the alkali dissolves the insect ova in the seed. Wheat thus prepared has yielded large crops in New England. We have seen this grain prepared for sowing by various modes, such as salt brine, lime and ashes, but we like the above method better than any hitherto known to us. Farmers residing in sections subject to the attacks of the Hessian fly, who do not sow fall wheat until October, should give this method of preparing it a trial. It cannot injure the grain, and we believe it will be the means of greatly benefitting it.

IN THE CLOUDS .- A few days since, at the holding of the Illinois State Fair at Centralia, two children-brother and sister-were carried to the clouds in a balloon, by the accidental giving way of the fastenings. The children were thought to be lost, but the balloon descended about seventeen miles from the place of starting, at daylight next morning, and caught on a tree adjoining a farm house. The farmer happened to be up at the time, looking at the comet, when an immense spectre rose on the tree before him. On approaching it, a weak and pitcous voice called to him, "Come and let us down, we are almost froze." Immediately comprehending the nature of the case, he got an axe, cut away some limbs, and drew the car to the ground. The little boy was first lifted out, when he ran away several yards and contemplated the balloon with intense astonishment. The little girl told their sorrews and adventures with an almost broken heart. She said that her brother soon cried himself to sleep, and she cried until she slept a little, and then awakened in the tree. On the children being brought to Centralia, a genjoy of the people, and the photograph of the voyagers were taken, and many presents made

At a license suit recently tried in Cincinnati, a witness was called who did not taste the liberal patronage, and to call in and try the artifiquor, but testified positively that it was whisky he saw sold and drank, for he could tell it a mile off. The council for defence asked him if he drank any of it. "Drank any of it? he if he drank any of it. "Drank any of it? he answered, "why, no, don't you see I'm alive?"

"My son," said Spriggles, Sr., to Spriggles, Jr., thinking to enlighten the boy on the propagation of the hen species, "my son, do you know that chickens come out of eggs ?" "Do they," said Spriggles, Jr., as he licked his plate-"I thought eggs come out of chick-

A CARD FROM DR. JAMES M. JAR-RETT, OF THE NEW-YORK LUNG IN-FIRMARY .- My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs of the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success my treatment in the above diseases, and the high haracter of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all dis cases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. Inhaing Vapors, Medical Inha-ters. &c., &c. will be forwarded by express to any part of the United States or the Canadas. Thinks My terms of treatment by letter are as follows. \$12 per month for each patient, which will include medicine sufficient for one month's use; also Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: So to be paid to Express Agent on receipt of the box of Medicine, and the balance S6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. THE GREATEST BIOGRAPHY OF THE AGE.—NOW READY: THE LIFE OF THOMAS JEFFERSON, by Hen-This work contains upwards of 2,000 pages, is printed on fine paper, and handsomely bound in various styles. It is illustrated by several engravings on steel, and numerous fac similes; among the former are two fine portraits of Jefferson. The fac similes embrace, among others, the original draft of the Declaration of Independence, in Jef-

ferson's own hand-writing.

This is, in every sense, an authorized work; it was undertaken under the approbation of his family, and with an unreserved access to all the private papers of Jefferson in their possession; and has received the benefit of their recollections and opinions at every step.

The work contains the expressions of Jefferson

on every great public question which arose from his advent to public life to his death—a period of about sixty years, and embracing the whole form-years, within a term of four years. about sixty years, and embracing the whole forming period of the Republic. It contains Jefferson's heretofore unpublished family correspon-dence; selections from his finest published letters. OPINIONS OF THE PRESS.

"No other Life of Jefferson ever published-probably none that ever will be published-ean bear any comparison to this in thorougness, fullness of incident and conscientious fidelity. This biography has evidently been a labor of love. and the years of patient, assiduous toil it has cost, have been given with ungradging, untiring entkusiasm "-New-York Tribune.

"At length the public have a Life of Thomas Jefferson that is not only fascinating, and therefore sure to be popular, bu one that will stand the essential historic test-that of accuracy and truthfulness. It is seen that the ground-work of the whole is authentic cotemporary material, and of the highest order. To gather it has been the work of years. We would not compare this volume with that inimitable and incomparable biography of Boswell, and yet so faithful is the portraiture that Jefferson is made to draw of himself, that his nature, his very soul, is deliniated with a distinctness not unlike that in which Johnson stands out in the pages of Boswell. -Boston Post. "Imbued with that enthusiastic admiration of

his subject, without which a biographer is rarely successful, Mr. Randall nevertheless does not seek to hide whatever faults he may find, either from himself or from the reader. He prints the picture as Cromwell insisted his should be painted, "warts and all." The picture gains by this in life-like coloring, without losing any of its majestic propor-

"No one who runs his eye, however casually, over this work, will fail to be satisfied that Mr. Randall has added very largely to the stock of the world's information about Jefferson, that he has had access to sources hitherto unexplored, and that he has done more than was ever done by any one before him to illustrate the personality of that

great statesman."—N. Y. Evening Post.

"We have read with delight Mr. Randall's captivating details of Mr. Jefferson's personal history, which he has seduously gathered, and admirably grouped together, from a great variety of authentic sources, hitherto unexplored. Out of the tempting richness of his materials, the able and clearsighted author has constructed a book, at once most signed author has constructed a book. It once most entertaining and instructive—one that should be studied by every patriot of the land."—Richmond, Va., Enquirer.

"There can be only one opinion as to the abili-

ty, general impartiality and industry which Mr. Randall has brought into combination in the com-position of this biography. . . . He has worthily executed a much wanted book."—Phil-

"It will take place among the choicest classics of American literature, and be consulted by every future historian of this country."-Philadelphia Evening Bulletin.

"We like it because it neither conceals, palliates, exaggerates, nor distorts, but approaches, in every instance, and in every particular, the career of the noble character whose opinions have done so much to shape the domestic and foreign policy of the notion he contributed so greatly to call into existence."-N. FIAMMONTON LANDS.—New England Settlement.—Rure Opportunity.—To all wanting Farms.—in a healthy place, twenty-five miles from Philadelphia, on the Camden and At-lantic Railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10.000 acres divided up into farms of 20 acres and upwards. The soil is of the best quality with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. is now being extensively improved by good roads and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia Seventy-five houses have been built in 4 months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised on this land finds an immediate sale. The water is excellent. and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and re-tentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the area adjoining under cultivation. it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best

quality of muck manure. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order oget a place to live in at first. Carpenters and builrs are on hand to put up houses on the best terms. In settling here the emigrant has many advan-

tages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. sides, he has a mild climate and an open winter.
