Swaying, swaying clover blossoms, Trough the meadow green, Bearing rose-leaves on their bosoms: In the garden too they've been.

Shaking, shaking down the dew-drops Look ye, winds, see where they've fell ; Filling up the tiny chalice Of the purple-tinted bell.

Creeping, creeping through the branches, Whispering 'mong the maples green, On the rocky ledge it glances, Clothes the birch in silver sheen.

Idling, idling near the fountain, Tossing up the snowy spray, Rushing wildly to the mountain, Shrieking round the granite gray.

Ling'ring, ling'ring 'long the river, Dancing neath the elm-shade, Making all the long reeds quiver, Waving willows in the glade.

Away, away upon the shell shore,

Sweeping, sweeping o'er the smooth lake; See the waves begin to swell; Passing on from off its surface, Bending hazels in the dell.

Afar out over the sea, Sending back a hollow roar; Ah! the winds have gone from me. MYRRHA MAY.

GREAT DISCOVERY OF THE AGE. Dr. Gustav Linnard's Taste Restorative Troches the Great Substitute for Tobacco .- It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL dis to which the race of man is subject, as cureful analasis and long and painful experience have clearly proven that it contains certain narcotic and poions properties most dangerous in their effocts. which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased. TOBACCO affects also she cutire nervous system, manifesting itself-as all who have ever used the noxious weed will bear testimony—in Lassitude, Nervous Irritability, Water Brash. Dyspepsia, and many other disorders of a similar character. The "Taste Restorative Troches" are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completeling sensation of the Throat-which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stom-

ach, invigorate the whole system. Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco

-A CARD FROM DR. JAMES M. JAR-RETT, OF THE NEW-YORK LUNG IN-FIRMARY.—My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled op-portunities and advantage of pathological research -aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs of the in-tegument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very neces-sary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any culogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration, I have concluded to make such arrangements as will bring the benefits of m experience and treatment within the reach of all and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all dis eases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. Inhaling Vapors, Medical Inha-ters. Sec. Ac. will be forwarded by express to any part of the United States or the Canadas. -My terms of treatment by letter are as follows. viz: \$12 per month for each patient, which will include medicine sufficient for one month's use also. Inhaling Vapor, and an Inhaling Apparatus Payment as follows: \$6 to be paid to Express Agent on receipt of the box of Medicine, and the balance S6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of

TIME GREATEST BIOGRAPHY OF LIFE OF THOMAS JEFFERSON, by Henry S. Rondall, LL. D.-Li 3 volumes, octavs.-This work contains upwards of 2,000 pages, is printed on fine paper, and handsomely bound in various styles. It is illustrated by several engravings on steel, and numerous fac similes; among the former are two fine portraits of Jefferson. The fac similes embrace, among others, the original draft of the Declaration of Independence, in Jefferson's own hand-writing.

This is, in every sense, an authorized work; it

was undertaken under the approbation of his family, and with an unreserved access to all the private papers of Jefferson in their possession; and has received the benefit of their recollections and opinions at every step.

The work contains the expressions of Jefferso

on every great public question which arose, from about sixty years, and embracing the whole fore ing period of the Republic. It contains Jefferson's heretofore unpublished family correspondence; selections from his finest published letters. state papers, etc., etc., etc.

OPINIONS OF THE PRESS "No other Life of Jefferson ever published— probably none that ever will be published—can hear any comparison to this in thorougness, full ness of incident and conscientious fidelity. This biography has evidently been a labor of love and the years of patient, assiduous toil it has cos have been given with ungrudging, untiring enthu-

siasm "-New-York Tribune. "At length the public have a Life of Thomas Jof. ferson that is not only fascinating, and therefore sure to be popular, bu one that will stand the es-sential historic test-that of accuracy and truth fulness. It is seen that the ground-work of the whole is authentic cotemporary material, and of the highest order. To gather it has been the work We would not compare this volume with that inimitable and incomparable biography of Boswell, and yet so faithful is the portraiture that Jefferson is made to draw of himself, that his nature, his very soul, is deliniated with a distine ness not unlike that in which Johnson stands out in the pages of Boswell."-Boston Post.

"Imbued with that enthusiastic admiration of his subject, without which a biographer is rarely successful, Mr. Randall nevertheless does not seek to hide whatever faults he may find, either from himself or from the reader. He prints the picture as Cromwell insisted his should be painted. and all." The picture gains by this in life-like coloring, without losing any of its majestic proportions."-Albany Evening Journal.

"No one who runs his eye, however casually, over this work, will fail to be satisfied that Mr. Randall has added very largely to the stock of the world's information about Jefferson, that he has had access to sources hitherto unexplored, and that he has done more than was ever done by any one before him to illustrate the personality of that great statesman. '-N. Y. Evening Post.

"We have read with delight Mr. Randall's captivating details of Mr. Jefferson's personal history, which he has seduously gathered, and admirably grouped together, from a great variety of authon tic sources, hitherto unexplored. Out of the tempting richness of his materials, the able and clearsighted author has constructed a book, at once most entertaining and instructive-one that should be studied by every patriot of the land."-Rich-

mond, Va.. Enquirer.

"There can be only one opinion as to the abiligeneral impartiality and industry which Mr. Randall has brought into combination in the composition of this biography. He has worthily executed a much wanted book."-Phil-

"It will take place among the choicest classics of American literature, and be consulted by evefuture historian of this country."-Philadel-"We like it because it neither conceals, palliates,

exaggerates, nor distorts, but approaches, in every instance, and in every particular, the career of the noble character whose opinions have done so much to shape the domestic and foreign policy of the notion he contributed so greatly to call into existence."-N. O. True Dalta.

This work will be SOLD EXCLUSIVELY BY SUBSCRIPTION, at the low price of \$7 50handsomely bound in cloth. Experienced Canvassing Agents wanted, in all parts of the country, to obtain subscribers for this work. Applicants should state what counties they would like to canvass.

It is a scene of the greatest improvement out of Philadelphia Seventy-five houses have been built in 4 months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised on this land finds an immediate sale. The water is excellent. and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and retentice of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the area adjoining under cultivation, it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and the best fruits and vegtables come from New Jersey, which are annually exported to the amount of millions of dollars. There are three trains daily to Philadelphia, and to all those who improve the railroad company gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing. This all are expected to do.
