Be she fairer than the day, Or the flow'ry meads in May ; If she be not fair to me, What care I how fair she be?

Shall a woman's virtue move Me to perish for her love? Or her well deservings known, Make me quite forget my own? Be she with that goodness blest,

Which may merit name of best, If she be not good to me, What care I how good she be? Which, or good, or kind, or fair, I will ne'er the more despair; If she loves me, then believe, I will die ere she shall grieve.

If she slight me when I woo, I can scorn and let her go: If she be not fit for me, What care I for whom she be?

The season for the commencement of winter schools is not far distant, and it becomes the duty of directors to see that school houses are in order, the window lights all set, plenty of good fuel provided, a broom, a pail, a cup, Tuesday and Fridays at 111 A. M., and deblack-boards; and even outline maps and a parts same days at 1 P. M. globe should be provided, and some attention paid to the comfort of both the teacher and his pupils. If colds, sore throats, and sickness occur to either the one or the other, as too frequently happens, resulting in death from neglect of duty on the part of the directors, holders of a sacred public trust, and if they betray it, they deserve to be arraigned before a criminal tribunal, as they certainly will before high heaven. The parents should see to it that their children go to school in season, and be provided with books and all the apparatus necessary for instruction. Some parents are so unreasonable as to pronounce a teacher a ninny, and yet expect him to impart instruction to their children without the requisites ; send them with a piece of book, perhaps not out of a week, and then expect to see some great change in the education of their children. This class of persons are very often extremely patriotic, so much so that their children are even imbued with a political spirit and testaments as low as 62 cents apiece. before they know their A B Cs. Let them come early, regularly, and neatly dressed; no matter if it be coarse in texture, provided it Society Signed by order of the Executive Combe strong, well made up and well fitting. The humblest dressed boy in school, if he is only nest and clean in his appearance, will be much gets punished that "it is all right," and then variably happens, that when you see a man habitually finding fault with school teachers, that he has a bad set of children, and if we reason from analogy, we must suppose that he is no better; answering in the negative, by his own conduct, the inquiry in holy writ-"Do men gather figs of thorns or grapes of thistles?" The most difficult, harassing, and patiencetrying business in the whole range of human employments, is that of teaching a district school; and it is as improbable for a teacher to go through a winter school and do his duty without having fault found with him in some quarter, as it is for a rich man to enter the kingdom of heaven. I speak from observation and experience. Teachers are not infallible: they are but human and liable to err. If they do wrong unintentionally, you should not fall to and berate and abuse them, but rather sympathise with frail humanity. Patrons, you should remember that the teacher, if in duty, has a very great care on his mind; he should remember that he is training immortal minds,-and act accordingly,-minds that will expand and mature through all eter-

At a political meeting in the State of Indiana, the other day, a speaker named Long responded to a loud call and took the stand; but a big, strapping fellow persisted in calling out in a stentorian voice, "Long! Long!" This caused a little confusion, but after some difficulty in making himself heard, the President succeeded in stating that Mr. Long, the gentleman honored by the call, was now addressing them ; "Oh, he be blest !" replied the fellow, "he's the little skeezicks that told me to call for Long!" Eighty per cent of the women of North Carolina are said to be "snuff dippers." The process of snuff dipping consists of rubbing the teeth and gums with snuff, thereby causing a sensation like intoxication. The nerves are excited and the head becomes a little giddy. We suspect their heads are naturally giddy, or they would not be guilty of putting such filthy stuff in their mouths.

Dr. Kane relates that when one day, worn out with fatigue, he turned into an Esquimaux hut to get a little sleep, the good-natured hostess of the wigwam covered him up with some of her own habiliments, and gave him her baby for a pillow!

TA CARD FROM DR. JAMES M. JAR-RETT, OF THE NEW-YORK LUNG IN-FIRMARY .- My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled op-portunities and advantage of pathological research -aided not a little by a perfect system of Medical Inhalation-has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs of the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjavant in the proper management of those fearful and often fatal diseases, yet I deem it very neces-sary that each patient should have the benefit of both general and local treatment. The success my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all dis-eases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. Inhaling Vapors, Medical Inha-ters. &c., &c., will be forwarded by express to any part of the United States or the Canadas, TERMS -My terms of treatment by letter are as follows. viz: \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$5 to be paid to Express A-gent on receipt of the box of Medicine, and the balance S6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treat-ed as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty. days. Letters for advice promptly answered. GREAT DISCOVERY OF THE AGE.

IMPORTANT TO TOBACCO CHEWERS.

Dr. Gostav Linnard's Taste Restorative Teocher. the Great Substitute for Tobpero .- It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL disorders alasis and long and painful experience have clearly proven that it contains certain narcotic and poius properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing ma-

ny to suppose that organ to be seriously diseased. TOBACCO affects also she entire nervous system, manifesting itself—as all who have ever used the noxious weed will bear testimony-in Lassitude, Nervous Irritability, Water Brash, Dyspensia, and many other disorders of a similar character. The "Taste Restorative Troches" are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being barmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tick-ling sensation of the Throat—which are always onsequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stom-

ach, invigorate the whole system. Persons who are irretrievably undermining their constitutions and shortening their lives. should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco

venient and portable form at the low price of 50 cents per Box. A liberal discount to the Trade. Prepared solely by the undersigned to whom all orders should be addressed.

TAMMONTON LANDS .- New England Settlement.-Rare Opportunity.-To all wanting Farms-in a healthy place, twenty-five suiles from Philadelphia, on the Camdon and At-lantic Railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 acres divided up into farms of 20 acres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$20 per nere, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia Seventy-five houses have been built in 4 months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important busi-ness place, on account of its being in the midst of a great market. Every article raised on this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and retree of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the area adjoining under cultivation, it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annua y exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the

quality of muck manure. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order oget a place to live in at first. Carpenters and builers are on hand to put up houses on the best terms. In settling here the emigrant has many advanages. He is within a few hours' ride of the great ities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and confort of civilization is at hand; he is in a healthy place and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and barly in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains unily to Philadelphia, and to all those who improve the raticoad company gives a free ticket.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reson is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing This all are expected to do. They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and

ocations are not held on refusal. The Hammonton Farmer, a monthly literary and Agricultural sheet, containing full information of Hummonton, will be sent to each inquirer, and

ean be obtgined at 25 cents per annum.
