THE JOURNAL.

CLEARFIELD, PA., NOV. 17, 1858.

How the Tariff of 1846 was Carried. We have received a communication, says the Phila. News, from a gentleman, who was formerly a manufacturer in England, which informs us that to procure the repeal of the til all arrearages are paid, except at the option of tariff law of 1842, or, as it is stated, "to dis- the publisher. seminate free trade principles, and to assist the political party in this country which opposed protection," there was a fund of £600,-000 raised by taxing the manufacturers of England, each in accordance with the amount of his business. The gentleman who gives this information was preparing to leave England at the time, and refused to pay his quota of the tax. We have never had a doubt as to the means which were used to destroy what Daniel Webster pronounced "the best tariff law we ever had." If the sum stated, which is equal to \$2,000,000, was all that the tariff of 1846 cost the English manufacturers, it must be acknowledged that American interests have been sold pretty cheaply. There has not been a year since the enactment of the law which has done so much to injure the industry of our country, that it has not been worth ten times the sum named, to England. The same means which have been used to procure a free-trade ad valorem tariff, will be used to retain it, and to a much greater extent. The friends of American Industry cannot watch the advocates of free trade too closely. There is no candor in their arguments. They do but aim to delude the people. The above development shows clearly which party is controlled by British gold and British influence.

SUNBURY & ERIE RAILROAD. - The contractors on the eastern division of the Sunbury and Erie Railroad are making better progress than those of the western division. On the first of July thirty miles of that division, extending from Williamsport to Lock Haven, were let, and now we see by the papers that twenty five miles of this will be open on or about the first of January. The work is in charge of three Division Engineers, Messrs. Barrett, Foster and Livingston. On the division of Mr. Barret, which extends from Williamsport to near Linden, two bridges are in course of construction. One of them is over the Susquehanna, at the "Long Reach," and will be twelve hundred feet long, with eight spans. The contractors are Messrs. Marr, Griffey & Co., and they now employ two hundred and forty men upon the work. A smaller bridge is over the Lycoming creek. The division of Mr. Foster, sixteen miles in length, will be ready for the rails next month. The third division, in charge of Mr. Livingstone, is also in a state of forwardness, and will undoubtedly be ready have to hurry up "the shovel and the hoe."-

"SIMON PURE."-In Nagler's Kunstler Lexi. con, is a whimsical error concerning a living English artist, George Cruikshank. Some years ogo the relative merits of himself and brother were contrasted in an English review, and George was spoken of as "the real Simon Pure," the first who had Illustrated scenes of "Life in London." Unaware of the real significance of a quotation which has become proverbial among us, the German editor begins his memoir of Cruikshank, by gravely informing us that he is an English artist, "whose real name is Simon Pure!" Turning to the artist under the letter P. we accordingly read "Pune (Simon,) the real name of the celebrated caricaturist, George Cruikshank.'

CAUSE ANDEFFECT .- The late terrible crimes in three of our principal cities-the attempted parricide, fratricide and wholesale murder in New York; the brutally and cowardly stabbing of a courtezan in Cincinnati; and the suffocation of a man jealous of one mistress. and the suicide of a rival mistress in Philadelphia-are sad evidence of the improper training of our young men. In each of these revolting cases the criminal actors had barely entered upon the legal term of manhood, and the devil which prompted them was Rum!

A CARD FROM DR. JAMES M. JAR-RETT, OF THE NEW-YORK LUNG IN-FIRMARY .- My connection for the past eight years with the above Institution, as Chief Physisian, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled op-portunities and advantage of pathological research -aided not a little by a perfect system of Medical Inhalation-has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat. Langs, and Air-passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs of the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very neces-sary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so ong had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration. I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give cutire satisfaction, both to my professional brethren and the public, I would respectfully announce in conclusion, that I can now be consulted personally or by letter. on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. Inhaling Vapors, Medical Inha-ters. Ac., &c., will be forwarded by express to any part of the United States or the Canadas. TERMS -My terms of treatment by letter are as follows. \$12 per month for each patient, which will include medicine sufficient for one month's use ; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$6 to be paid to Express Agent on receipt of the box of Medicine, and the balance 86 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients. by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For

GREAT DISCOVERY OF THE AGE.

1MPORTANT TO TOBACCO CHEWERS.

Dr. Gustav Linnard's Taste Restorative Troches. the Great Substitute for Tobacro.- It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL disorders to which the race of man is subject, as cureful analasis and long and painful experience have clearly proven that it contains certain narcotic and poisonous properties most dangerous in their effects. which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased

TOBACCO affects also she entire nervous system. manifesting itself-us all who have ever used the noxious weed will bear testimony-in Lassitude. Nervous Irritability, Water Brash. Dyspepsia, and many other disorders of a similar character. The "Taste Restorative Troches" are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire system, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tickling sensation of the Throat-which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stom-

ach, invigorate the whole system. Persons who are irretrievably undermining their constitutions and shortening their lives. should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco

Chewing.

These Troches or Lozenges are put up in a con venient and portable form at the low price of 50 cents per Box. A liberal discount to the Trade.

Prepared solely by the undersigned to whom,
all orders should be addressed.

HAMMONTON LANDS.-New England Settlement .- Rare Opportunity .- To all wanting Farms-in a healthy place, twenty-five miles from Philadelphia, on the Camden and Atlantic Railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 acres divided up into farms of 20 a-cres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$20 per acre. payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads. and some of the best citizens from New England and the Middle States are erecting large improve-ments. It is a scene of the greatest improvement out of Philadelphia Seventy-five houses have been built in 4 months. Practical farmers and business men from the length and breadth of the U-nion are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised on this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the area adjoining under cultivation, it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best

quality of muck manure. Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best terms.

In settling here the emigrant has many advan-tages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mildelimate and an open winter.
There are three trains daily to Philadelphia, and to all those who improve the railroad compa-

ny gives a free ticket.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reaan is, it was never thrown in the market; and unless these statements were correct no one would be. invited to examine the land before purchasing-This all are expected to do. They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and locations are not held on refusal.

The Hammonton Farmer, a monthly literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cents per annum. Title indisputable. Warrantee deeds given, clear of all incumbrance, when purchase money is paid. Route to the land :- Leave Vine street wharf. Philadelphia, for Hammonton by railroad at 71.
