THE LAND OF CONTRARIES .- In Australia the north is the hot wind, and the south the cool; the westerly the most unhealthy, and the east the most salubrious; it is summer with the colonists when it is winter at home, and the barometer is considered to rise before bad weather, and to fall before good; the swans are black, and the eagles are white; the mole lays eggs, and has a duck's bill; the kangaroo (an animal between the deer and the squirrel) has five claws on his fore paws, three talons on his hind legs, yet hops on his tail. There is a bird (melliphaga) which has a broom in its | Pres't Judge-Hon. James Burnside, Bellefonte. Pa. mouth instead of a tongue; a fish, one half belonging to the genus raia, and the other that of squalus. The cod is found in the rivers, and the perch in the sea; the valleys are cold and the mountain tops warm; the nettle is a lofty tree, and the poplar a dwarfish shrub; the pears are of wood, with the stalks at the broad end; the cherry grows with the stone outside; the fields are fenced with mahogany; the humblest house is fitted up with cedar, and the myrtle plants are burnt for fuel; the trees are without fruit, the flowers without scent, and birds without song. Such is the land of Australia.

FISHING FOR A BURGLAR .- A few nights ago a lawyer's office in Chicago was entered by a burglar, who carried off several valuable articles of clothing, but who in the hurry of exit dropped a pair of boots in the yard. The police detective, who was detailed to catch the burglar, tied a fish ime to one of the boots, the other end passing through a hole into the office. He then cut a hole through the blind and commenced fishing with his boot bate. After a long time had passed without so much as a nibble, he was rewarded by a vigorous bite, and springing out of the door, collared a fellow trying to carry off the boots. He admitted his guilt, and was committed, in default of bail, to take his trial.

A TEST OF SPIRITUALISM was recently made at New Bedford, Mass., which we commend to the believers in the "new revelation." The son of Mr. Wade was supposed to be lost with a wrecked ship some years ago. The father, a full believer in the truth of mediumship between mortals and immortals, enjoyed commumications with the spirit of his loved and lost son. The son, through a medium, informed him that he "was happy among the saints, and that a crown of glory was in reserve for himself." Mr. W., however, was 'taken all aback' a few days since by the arrival of his son in the form of flesh and blood, and his relation of wondrous escapes by field and flood. The medium mizzled.

A VERDICT AS IS A VERDICT .- A Mobile, Alabama, paper says that an inquest was recently held in that city, on the body of a man who died from taking an over dose of vegetable pills. On opening the body, the interior was found to be one huge cabbage, but dead, to its core, from confinement and want of water-a beverage which the patient, unfortunately never drank. The jury returned a verdict of "quits." "Quits, gentlemen!" exclaimed the dismayed Coroner----never heard of such a thing; what do you mean?" "Why," replied the foreman, "we find that if the cabbage killed the man, the man most certainly killed the cabbage, and if that ain't quits, blow me!"

CURE OF BRONCHITIS .- One of our clearest minded and most reliable friends informs us that common mullen leaves, smoked in a new pipe-one in which tobacco has never been used-is a sure and certain cure for bronchitis. The remedy is simple and innocent, and within reach of all. Recollect that this is not the remedy of a retired physician whose sands of life have nearly run out, but is given to us by one who has tried it himself, and seen it tried with others, and has never known it to fail in effecting a permanent cure. The remedy is simple, and we can certainly discover no harm likely to arise from a trial .- Scientific Amer.

A WIDE-AWARZ "LADY."-A "lady" was detected, a few days since, in Cincinnati, Ohio, pocketing a package of gloves in a store. When charged with the theft, she burst into tears and tendered a \$20 bill in payment. The merchant took but \$5, and gave her \$15 change, but on counting the cash at night that \$20 bill was found to be a counterfeit. . Phaney the pheelinks' of that storekeeper.

The Whiskey Market at Salt Lake city is flourishing. The article is retailed at twentyfive cents per drink. A barkeeper purchased \$75 worth of whiskey in the States, and sold it at Salt Lake for \$750. The only drawback upon trade is the fact that the customers at the bar fill their glasses full when they drink.

"Isn't your hat sleepy ?" inquired a wag, of a gentleman with a shocking bad one on his head. "Why so?" inquired the gentleman. "Why, because I think it is a long time since it had a nap." Exit wag in a hurry, narrowly escaping a demonstration of something in the boot line from the irritated gentleman.

It was done when it was begun; it was done when it was half done, and yet wasn't done when it was finished. Now what was it? Timothy Johnson courted Susan Dunn. It was Dunn when it was begun, it was Dunn when it was begun, it was Dunn when it was half done, and yet it wasn't Dunn when it was half done, and yet it wasn't Dunn when it was begun, it was Dunn when it was begun it finished-for it was Johnson.

"Oh, Mr. Hill," said one of the Rev. Rowland's hearers, "how is it that you say such out-of-the-way things in your sermons?"-"Ah," said the eccentric divine, "because you are such out-of-the-way sinners."

A CARD FROM DR. JAMES M. JAR-RETT, OF THE NEW-YORK LUNG IN-FIRMARY .- My connection for the past eight years with the above Institution, as Chief Physiian, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research aided not a little by a perfect system of Medical Inhalation-has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs of the integument. I do not advise the use of Medical In halation of any kind, to the exclusion of general treatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well known o need any culogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those on ly who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all dis eases as above, and that the medicines, the same as used in the Institution, prepared to suit each in-dividual case. Inhaling Vapors, Medical Inhaters. Ac., Ac, will be forwarded by express to any part of the United States or the Canadas. TERMS -My terms of treatment by letter are as follows. \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus.
Payment as follows: S6 to be paid to Express Agent on receipt of the box of Medicine, and the balance So at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address

GREAT DISCOVERY OF THE AGE.

IMPORTANT TO TOBACCO CHEWERS.

Dr. Gustav Linnard's Taste Restorative Troches. the Great Substitute for Tobacco .- It is 2 well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL disorders to which the race of man is subject, as cureful analasis and long and painful experience have clearly proven that it contains certain narcotic and poious properties most dangerous in their effects. which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased. TOBACCO affects also she cutire nervous system, manifesting itself-as all who have ever used the

noxious weed will bear testimony-in Lassitude, Nervous Irritability, Water Brash, Dyspepsia, and many other disorders of a similar character. The Restorative Troches" are designed to counteract these baneful influences, and have proved completely successful in a multitude of cases, and wherever used. Being harmless in themselves they exert a beneficial effect upon the entire sys-tem, restoring the Taste which has become vitiated or destroyed by great indulgence, completely removing the irritation and accompanying tick-ling sensation of the Throat—which are always consequent upon abstaining from the use of Tobacco, and by giving a healthy tone to the Stom-ach, invigorate the whole system.

Persons who are irretrievably undermining their constitutions and shortening their lives, should use these Troches immediately and throw off the injurious and unpleasant habit of Tobacco Chewing.

These Troches or Lozenges are put up in a convenient and portable form at the low price of 50 cents per Box. A liberal discount to the Trade. Prepared solely by the undersigned to whom all orders should be addressed.

April 14. 1858-1y. AMMONTON LANDS .- New England Settlement, -Rare Opportunity. To all wanting Farms in a healthy place, twenty-firs miles from Philadelphia, on the Camden and At-lantic Railroad, New Jersey. An old estate has recently been opened for sale, and the first divi-sion of 10,000 acres divided up into farms of 20 aeres and upwards. The soil is of the best quality for the production of fruits grains, &c. The price is \$15 to \$20 per acre, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia Seventy-five houses have been built in 4 months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised on this land is an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and re-tentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the area adjoining under cultivation, it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best

Lumber and building materials can be had on the spot at a cheap price, from the mills Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and buillers are on hand to put up houses on the best terms. In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and

quality of muck manure.

comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia. and to all those who improve the railroad compa

ny gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing. This all are expected to do. They will see the land under cultivation; they will meet persons, nodoubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come

prepared to purchase, as many are locating, and ocations are not held on refusal. The Hammonton Farmer, a monthly literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and

can be obtained at 25 cents per annum. Title indisputable.
