GO IT, BOB-TAIL.

A specimen of the genus "Hoosier" was found by the Captain of a steamer, in the engive room of his boat, while lying at Louisville, one fine morning in June. The captain inquired to know "What he was doing there ?" "Have you seen Captain Perry ?" was the interrogative response.

"I don't know him ; and can't tell what that has to do with your being in my engine room," replied the captain angrily.

"Hold on! That's just what I was getting at. You see, Captain Perry and I walked down street together. Captain Perry asked me to drink, and so-I did. I knew I wanted to drink, or I wouldn't have been so cussed dry. So, Captain Perry and I drank two or As'te.Judge-Hon. James Burnside, Bellefonte, Pa As'te.Judges-Hon. Wm. L. Moore, Clearfield three times. Captain Perry and I then went to a ball. Captain Perry was putting on some extras on one toe. I sung out 'Go it Captain Perry, if you bust your biler !' With that a man steps up to me and says he,

"See here, stranger, you must leave." "Says I, what must I leave fur ?"

"Says he, 'you're making too much noise.' "Says I, 'I've been in a bigger crowd than this, and made more noise, and didn't leave nuther.'

"With that he tuk me by the nap of the neck and the seat of the breeches, and-I left ! As I was showin' down street, I met a lady. I knew she was a lady by the remark she made. She says,

"'Young man, I reckon you'll go home with me ?'

"And I-went!

"I'd been in her house but a short time when I heard a d-l of a knockin' on the door. I knew the chap wanted to get in, whoever he was, or he wouldn't have kept up sich a thunderin' racket. By and by said a voice, " 'If you don't open, I'll bust in the door !"

"And so he did !

"I put on a bold face, and says I, 'Stranger, does this woman belong to you ?' "Says he, 'she does.'

"Then, says I, 'she's virtuous, I think, from all that I've seen of her !'

"With that, he come at me with a pistol in ore hand, and a bowie knite in the other; and bein' a leetle pressed for time, I jumped thru the windur, a leavin' the bigger portion of my coat tail. As I was streakin' it down town. with the fragments flutterin' to the breeze, I passed a friend. I knew he was a friend, by a remark he made. Says he,

"Go it, Bob-tail ! he's gainin' on you !' "And that's the way I happened in your engine room. I'm a good swimmer, captain-do excuse me, if you please, from takin' water !

THINK .- The number of languages spoken are 4,064. The number of men is about equal the number of women. The average of human life is 33 years. One quarter die before the age of 7. One half before the age of seventeen. To every 1,000 persons, one only reaches 100 years. To every 100 only six reach 75 years; and not more than one in 500 will reach 80 years. There are on the earth 1,000,000,000 of inhabitants. Of these 33,833,833 die every year ; 91,824 die every day ; 7,780 every hour, and 60 per minute, or 1 every second. These losses are about balanced by an equal number of births. The married are longer lived than the single; and above all, those who observe a sober and industrious conduct. Tall men live longer than short ones. Women have more chances of life previous to the age of 50 years than men, but fewer after. The number of marriages is in the proportion of 76 to 100. Marriages are more frequent after the equinoxes, that is, during the months of June and December. Those born in Spring are generally more robust than others. Births and deaths are more frequent by night than by day. Number of men capable of bearing arms is one fourth of the population. GOT CHEATED .- Under this caption, the Kanawha (Virginia) Valley Star tells the following hard story :- A colporteur, quite recently, in an adjoining county, approached a man whose name we will not make public, and solicited him to purchase a Bible. The man refused, and gave as his reason for so doing that he had no money, and that he could not read. The colporteur, ascertaining that he was a married man, and that he had no Bible, became anxious to leave one with him, and not being able to sell it to him, offered to give the book to his fellow creature. The man hung down his head awhile, and seemed to ponder on the proposition, but finally agreed to take one, provided it was given to him. The colporteur gave the Bible; the man took it home and presented it to his wife, who could read a little. She examined the volume very carefully, and gave it back, saying that only about one half of it was the Bible, that the other half was something else, called the New Testament. The bright husband became enraged, and went in search of the colporteur, declaring that he had got "cheated," because the book was only half "Bible." AN IMMENSE WINDFALL .- According to the Cumberland (Md,) Alleganian, an old man named John Brobst, living in the Glades, in that county, recently discovered that he was the rightful owner of a large tract of land in the richest mineral region of Pennsylvania, underlaid with immense seams of coal and iron, and valued at \$5,000,000. Brobst, it is said, lived on the farm fifty years ago, became involved through his brother, mortgaged his property to its then full value, and came to Maryland, where he has ever since lived in indigent circumstances. The property subsequently passed into the hands of his nephews. who afterwards sold it to a wealthy company. The difficulty of giving a good title to the property led to the fact that Brobst was still alive. He was searched out, found, and taken on to Pennsylvania, and according to the Alleganian, has sold out all his right for the sum of \$2,600,000.

GREAT DISCOVERY OF THE AGE. Dr. Gustav Linnard's Taste Restorative Troches the Great Substitute for Tobacco .- It is a well known and incontrovertable fact that the use of Tobacco is the promoting cause of many of the most severe MENTAL AND PHYSICAL disorders to which the race of man is subject, as oureful analasis and long and painful experience have elear-ly proven that it containscertain narcotle and poi-sonons properties most dangerous in their effects, which by entering into the blood derange the functions and operations of the Heart, causing many to suppose that organ to be seriously diseased

Being harmless in themselves they exert a beneficial effect upon the entire sys-tem, restoring the Taste which has become vitiated or destroyed by great indulgence, complete-ly removing the irritation and accompanying tickling sensation of the Throat-which are always consequent upon abstaining from the use of Tebacco, and by giving a healthy tone to the Stem-

A CARD FROM DR. JAMES M. JAR. RETT, OF THE NEW-YORK LUNG IN-FIRMARY .--- My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research —aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a deci-sive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs of the in-tegument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of general treatment ; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very neces-sary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high haracter of the Institution over which I have so long had the honor to preside, are too well known to need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public, I would respectfully annonnee in conclusion, that I can now be consulted personally or by letter, on all dis eases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. Inhaling Vapors, Medical Inha-ters. &c., &c., will be forwarded by express to any part of the United States or the Canadas. TERMS My terms of treatment by letter are as follows. viz \$12 per month for each patient, which will include medicine sufficient for one month's use ; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: S6 to be paid to Express A-gent on receipt of the box of Medicine, and the balance S6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treat-ed as well by letter as by personal examination. Patients availing themselves of Dr. Jarrott's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For

a great market. Every article raised on this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or elay loam, with a clay bottom and re-tentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the area adjo ing under cultivation, it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well well aware that the earliest and the best fruits and vogetables come from New Jersey, which are annually ly exported to the amount of millions of dollars. In settling here the emigrant has many advan-tages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand ; be is in a healthy place, and is not subject to the certainty of thy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and har-dy in far eff regions away from home and friends. Besides, he has a mild climate and an open winter.

There are three trains daily to Philadelphia, and to all those who improve the railroad company gives a free ticket. The reader will at once be struck with the ad-

vantages here presented, and ask himself why the property has not been taken up before. The rea-son is, it was never thrown in the market ; and unless these statements were correct no one would be invited to examine the land before purchasing. This all are expected to do.
