"Tell me what the committee are holding a meeting for."

"Why, the skule committy are goin' to hold a meetin' to say whether they'll move the skule house or the cats!"

The old gentleman evaporated immediately.

FUNNY .- A right funny story is told as happening down in the rural vicinity of Mount Pleasant, Virginia, not long since. Not far from Mount Pleasant, back in the country like, there is a tayern called the Franklin House. Mr. Franklin, the proprietor has two deaf and dumb daughters, sprightful, intelligent and interesting. By signs they often carry on animated conversations, especially with each other and members of the family. Last week, two foot travellers stopped for the night, at this house, and after supper with the family, were shown to a room in which was a good fire and bed for their accommodation. The kind host on entering the room in the morning found that the bed had not been occupied and that his guests had flown. He, however, found on the table money for their supper, and a note, stating that in consequence of signs made at the supper table by the young ladies, they did not think it safe to go to bed, and therefore paid the bill and took their de-

A NORTH CAROLINA ANECDOTE .- GOV. S. was a splendid lawyer, and could talk a jury out of their seven senses. He was especially noted for his success in criminal cases, almost always clearing his client. He was once counsel for a man accused of horse-stealing. He made a long, eloquent and touching speech. The jury retired, but returned in a few moments and, with tears in their eyes, proclaimed the man not guilty. An old acquaintance stepped up to the prisoner and said :

"Jem, the danger is past; and now, honor bright, didn't you steal that horse ?"

To which Jem replied : "Well, Tom, I all along tho't I took that horse; but since I've heard the Governor's speech, I don't believe I did !"

A CARD FROM DR. JAMES M. JAR-RETT. OF THE NEW-YORK LUNG IN-FIRMARY.—My connection for the past eight years with the above Institution, as Chief Physician, and a twelve years' course of steady devotion the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research -aided not a little by a perfect system of Medical Inhalation-has enabled me to arrive at a decisive, direct, and successful course of treatment for ie positive and radical cure of all diseases of the Throat, Laugs, and Air-passages. By Inhalation he vapor and curative properties of medicines are directly addressed to the diseased organs of the integument. I do not advise the use of Medical Inhalation of any kind, to the exclusion of genera reatment; and although I consider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so ong had the honor to preside, are too well known need any eulogy or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and liberally supported and after due consideration. I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all and not confine myself, as heretofore, to those only who entered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give cutire satisfaction, both to my professional brethren and the public. I would respectfully announce in conclusion, that I can now be consulted personally or by letter, on all dis eases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case. Inhaling Vapors, Medical Inha-ters. Ac., de, will be forwarded by express to any part of the United States or the Canadas. Tenus -My terms of treatment by letter are as follows, \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$6 to be paid to Express Agent on receipt of the box of Medicine, and the balance \$6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their symptoms in full, can be treated as well by letter as by personal examination. Patients availing themselves of Dr. Jarrett's treatment may rely upon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address

JAMES M. JARRETT, M. D. No. 820 Broadway, corner Tweltth St., N. Y. P. AMMONTON LANDS.-New England Settlement.—Rare Opportunity.—To all wanting Farms—in a healthy place, torony-five miles from Philadelphia, on the Camdon and Atlantic Railroad, New Jersey. An old estate bas recently been opened for sale, and the first divi-sion of 10,000 acres divided up into farms of 20 acres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$20 per acre, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm? It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia Seventy-five houses have been built in 4 months. Practical farmers and businces men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised on this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the area adjoining under cultivation, it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars.

Lumber and building materials can be had on the spot at a cheap price, from the mills Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builers are on hand to put up houses on the best terms. In settling here the emigrant has many advantages. He is within a few hours' ride of the great sities in the Middle States and New England; he

Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia; and to all those who improve the railroad compa ny gives a free ticket.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing This all are expected to do.
