CLEARFIELD, PA., FEB. 2, 1859.

Agricultural Meeting at Curwensville. In pursuance of previous notice, an ad-journed meeting of the Clearfield County Agricultural Society, was held in Curwensville, on Friday evening January 28th.

The President, Ellis Irwin, Esq., being absent, Vice President B. Hartshorn, Esq., took the chair and on motion, Dr. H. P. Thompson was appointed Secretary Pro-tem.

The chairman stated the object of the meeting to be the infusion of a greater interest in the subject of agriculture and increase of

The meeting was addressed by Gen. John Patton, after which a call was made for members, when the following persons handed in wm. A. Bloom, E.d., Alex. Caldwell, Joseph A. Caldwell, John D. Thompson, Jos. Peters, F. A. Fleming, Henry Kerns, G. Kittleberger, Wm. Cleaver, Jas. Thompson, J. S. Cole, Jonathan Hartshorn, Wm. M'Cracken, Wm. Bard, Jas. Stott, J. H. Peters, T. H. Bailey, Geo. Caldwell, Daniel Hartsock, George Bailey, R. S. Humphrey.

On motion, a committee of five were appointed to draft resolutions, consisting of the following named gentlemen, viz: Gen. John Patton, J. D. Thompson, Wm. A. Bloom, Esq., Joseph A. Caldwell and Jno. P. Dale.

The Committee reported the following WHEREAS, it appears from statistics, which can be shown, that a vast amount of money has been, and still is being drained from our County to pay for grain, flour and bacon, which money, if it was now in our midst and scattered among the different classes of our community, would make the means of paying debts quite easy in comparison with what they now

Resolved, That the people of Clearfield County are at present, more deeply interested in the subject of agriculture than in any other matter whatever, and it behoves us to take some measures to stop the drain of money

from ohr county. Resolved; That we have the acres, the soil the lime, &c., necessary to make us at least as good a grain and stock raising county as many of our sister counties, and all we lack is the proper spirit and application amongst our farmers to make us, not only a self-sustaining, but even an exporting people of breadstuffs and other farm products.

Resolved, That we consider that not only our farmers, but also that our mechanicsmany of whom can turn out as good work as can be done in the state-are deeply interested in the matter, and we ask from them, not only sympathy, but actual co-operation in our efforts to raise the science of agriculture to its proper position in our midst, as their interests depend in a great measure upon the

success of our farmers.

Resolved, That our Merchants and lumbermen are more deeply interested in the success of the farmer than any other class of business men, and that it is especially their duty to aid in promoting all their interests, and that our professional men-the lawyer, the physician, the clergy and the teacher-are all deeply interested in the success of our farmers and mechanics, and that we believe it to be their duty to give this subject their attention, and aid in promoting the cause.

Resolved, That the proceedings of this meeting be published in our county papers. On motion, adjourned to meet in Lumberville on Friday evening Feb. 11th, 1859.

A CLEARFIELDER "SOLD."

The Harrisburg Patriot & Union of the 20th January contains the following :FLEECING A COUNTRYMAN.-The register of one of our hotels, on Saturday, chronicled the arrival of a gentleman named Maxwell, bailing from the well-timbered region of Clearfield. He came to town unberalded, and was not honored by any public reception. Though Mr. M. boasts no collegiate education, he claims, or has claimed, some knowledge of the history of the tour kings-diamonds, hearts, spades and clubs. In his youth, he declares, he devoted much careful study to the subject of the five points-not of New York, but of euchre; though the favorite amusement was the research into the mysteries of high, low, jack and the game, as developed in the ancient and fascinating pastime of seven-up, or as it is more clasically termed, "old sledge." On Tuesday evening, Mr. Maxwell strolled along the several streets of our Capital borough, albeit the cold was such as to admonish any one to keep within doors, and in his meanderings dropped into a certain cozy corner to see the "elephant," having already made the acquaintance of the "tiger" in a-nother locality. At the table over which these delightfully fascinating "hanimals," preside, he met an extremely sociable gentleman, who stuck to him like a brother, and kindly volunteered to be his chaperon through the town

and its attractions, for which, as a matter of course, Mr. Maxwell was duly grateful.-The sociable gentleman, for the purpose of affording the country friend all the amusement in his power, proposed a little game of cards to pass away the time; and accordingly the two sat down to the table. Before beginning, however, the sociable gentleman carelessly dealt the cards, giving himself the ace, king, queen, jack and deuce of clubs, trey and four of hearts, and seven, eight and nine of spades. "Now," says the sociable gentleman, "supposing hearts were trump, I would be bound to make high, low, jack and the game-four times." The Clearand studied. He noticed that his jack of clubs would take the kind friend's ten, and count eleven for game, whereas his opponent, with his successful trump card, could count but ten. Making this sharp discovery, he contradicted his friend's assertion, and proposed to bet him fifty dollars that he could not make "four times." The latter appeared greatly excited, and offered to increase tha wager to one hundred, which was accepted, The gentleman commenced by leading his ace, and Maxwell followed suit by playing his four. He then played his duce, which was taken by Maxwell's tray. Clearfield county next led one of his spades, whereupon his Harrisburg friend quietly threw away his ten, when the gentleman from the country saw that he was "gone up," and surrended the "spondulix." This trick which cannot be explained without the use of "technical terms," is, we learn, frequently played off upon greenies by professional black-legs. Its publication here may serve to make others beware how they fall into the clutches of sharpers. Cards are dangerous contrivances, and it cannot be doubted that many bad tendencies are attributable to them, which cannot be outweighed by the consideration that they may be, and often are used

as a means of innocent pastime. MARRIED:

He was born in Franklin county, Pa., and with his father, who was a Presbyterian Clergyman, subsequently removed to Huntingdon Co., Pa., where his father was elected, and served twelve years in Congress. After holding the office of Post Master for many years, at Cherry Tree, in Pa., Mr. Bard moved here in 1844, was greatly distressed and afflicted by the loss of his children, especially in the death of his son John, who was murdered in California. He, however, bore all his afflictions with Christian fortitude and becoming submission. As a politician, Mr. Bard always informed himself of the doings of office-holders, and was ever ready to disapprove of wrong, even when committed by one of his own party; but more especially, did he discard and dislike any measure that conflicted with his favorite creed.

A YER'S SARSAPARILLA, a compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one

the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

Scrofula and Scrofulous complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Sait Rheum, Scald Head, Syphilis and Syphilitic affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debitity, Dyspepers and Indigestion. Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which foster in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sorae, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities burstby an alterative medicine. Cleanse out the vitia-ted blood whenever you find its impurities burst-ing through the skin in pimples, eruptions, or sores, cleanse it when you find it is obstructed and slug-gish in the veins: cleanse it whenever it is fout. gish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people, enjoy better health, and live longer, for cleansing the blood. Keep the body healthy, and all is well; but with this pabulum of life disordered, there can be

no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or altogether overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else. the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Samaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have good ground for believing it has virtues which are irresistable by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradica-tion from the extens the remedy should be indition from the system, the remedy should be judi-ciously taken according to directions on the bottle. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1 per Bottle; Six Bottles for \$5.

AYER'S CHERRY PECTORAL, has won for itself such a renown for the cure of every variety of Throat and Lung complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people that its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
