THE JOURNAL.

CLEARFIELD, PA., FEB. 16, 1859.

Some valuable Real Estate in Decatur township, is offered for sale by Russell D. Showalter. See advertisement.

A MEETING of the Clearfield County Agricultural Society was held at Lumber City on last Friday evening, which was largely attended, and was calculated to awaken an interest in that section of the county.

TEMPERANCE MEETING .- A meeting of the Washingtonian Temperance Society will be held in the Court House in this Borough on the evening of the 22d February. All persons, especially the ladies, are respectfully invited to attend. G. PHILIPP GUELICH, Pres.

DRESSING FOR ROAST FOWLS .- Spread pieces of stale but tender wheaten bread liberally with butter, and season rather highly with salt and pepper, working them into the butter a little; then dip the bread in wine, and use it in as large pieces as is convenient to stuff the bird. The delicious flavor which the wine gives is very penetrating, and it gives the fowl a rich, gamey character, which is very pleasant.

THE WEATHER, since our last paper, has been sadly out of joint-one day raining, another freezing, a third sunshine, and a fourth compounding all these phazes, so that we have concluded that the weather clerk has been on a "spree" and given the elements, over which he presides, permission to have "a high old time" to themselves. The rain that fell yesterday has had the effect of taking off most of the small quantity of snow which was on the ground. It is foggy and drizzly to-day.

DRESS YOUNG CHILDREN WARM .- This is one of the most dangerous seasons for children. Colds and coughs are now easily fastened upon * them, often resulting in consumption and premature death. Therefore, dress them warm. Let your boys' pantaloous reach the instep. Don't dress them in trowsers, reaching to the knee or middle of the leg, and leaving their limbs exposed to the chilling air. Do not sacrifice your children's health to the gratification of a circus-rider's tasto; but dress them with the paramount view of comfort and safety.

CHAPPED HANDS .- During the winter scaton, persons are frequently troubled with chapped hands. To all who are afflicted in this way, we would recommend the following remedy "Take three drachms of gum camphor, three drachms of white beeswax, three drachms of spermaceti, two conces of clive oil. Put them together in a cup on the stove, where they will melt slowly, and form a white ointment in a few minutes. If the hands be affected, anoint them on going to bed, and put on a pair of the Presidency. gloves. A day or two will suffice to heal them.

ACCIDENTS .- We learn that Mr. John Mc-Laughlin, the young man who had his arm broken last fall by being thrown from his wagon while the horses were running away, has had his arm broken over again recently by a fall. This is exceedingly unfortunate, as it will doubtless be much more difficult to treat now than the first time that it was broken.

A man named Snyder, employed on a log job on Clearfield Creek, had his hand so badly crushed between two saw logs on last Friday, that the three first flagers had to be amputated. He is doing well .- Republican, Feb. 9.

WHEN EASTER COMES .- It will be interesting to learn that Easter, which will be on the 24th of April this year, last fell on that day in 1791, and will not fall on the same date again till 2011. Since the introduction of the Gregorian almanac this has only been the case in the years 1639, 1707, and 1791. The period in which Easter can fall, reaches from the 22d of March (earliest date) to the 25th of April (latest date,) leaving thirty-five different days for the celebration of this festival. In this century Easter will fall only once (1886) on the latest day, the 25th of April.

MORTALITY AMONG HORSES .-- On last Thursday night, a fine horse belonging to a Mr. Erebs of Centre county, who had come to our town with a load of corn, died of "bots." On Monday night of this week, a mare belonging to Mr. Wm. Brown, of Lawrence township, also died, and we hear of several other horses being sick. A simple and effective remedy for "bots" is to take about a pint of blood from the horse's neck and force him to drink it all at once. The bots immediately glut themselves with the blood, which also operates as a purgative and passes them from the stomach. Bleeding in the mouth won't answer the purpose, as it does not put a large enough quantity of blood in the stomach at one time.

OUR VALENTINE .- When we opened the following note and saw a V spot in it, our eyes sparkled with delight; but alas! our joy was short-lived, for on attempting to pass it, we learned that this Bill was on a "bust." To S. B. Row, Esq :

In looking o'er your crowded columns, I saw a note in words quite fine;

It spoke of debts-of Due Bills-volumes,

And gave us fits on Valentines. To pay our debts, it is a duty,

Though hard to do sometimes;

But make the change, and keep the rest

To substitute a Valentine.

Just mark my years subscription paid, And don't forget to send the Journal;

Or else I'll do as I have said, And send old Row to lands "infernal."

Though this bank note may not be good, 'Tis all the kind we use, Sir;

'Tis just as good as promised wood, Of which you get "nary" splinter.

BILL, OF MORRIS.

WHERE OUR MONEY GOES!-A fact of the ! highest importance to the citizens of Clearfield | the "Minutes" of the Bradford Teachers' Incounty came to our knowledge a few days since. A friend incidentally stated to us that one of our lumbernien, who has a contract for session until Saturday evening. Mr. George taking out a couple million feet of logs, purchased in Centre county 1500 bushels of corn, besides buying elsewhere beet, pork, &c., and that by the time he gets through with his job he will have used, perhaps, 40 barrels of flour. Now let us make a brief estimate. Corn is selling at, say 95 cents; and flour will cost at least \$7 00. This would make the snug sum of \$1,425 00 for corn, and \$280 00 for flour. Taking this as a basis, and allowing a like quantity of flour and grain to a similar amount of business, and a no less sum than \$68,000 would be sent out of Clearfield for the articles named alone, to supply the wants of those who are engaged in this one branch of lumbering. Making a reasonable allowance for other necessaries, beef, pork, &c., and the amount will not fall much short of \$75,000; and remember this is only what is required to carry on one system of business. This is a fact that should awaken the interest of every citizen of the county, and incite him to encourage more extensive and better farming operations in our midst. Had a sufficient quantity of grain and other articles been raised in the county to supply this demand, we would have been just that much the better of it-these \$75,000 would have been circulated among our farmers and laboring men, and would have made money comparatively plenty at this time when it is so scarce that a gold dollar is increased in the

stitute, which met at the Williamsville School house on Friday, Feb. 4th, and continued in Gearhart was chosen President, Wm. Hoover and Edward Williams Vice Presidents, and David Dale Secretary. The Institute was addressed by Rev. L. L. Still, our County Superintendent, Prof. Burrell, Superintendent of Centre county, and others. Before the adjournment, resolutions in favor of Institutes, laudatory of the Co. Superintendent, and expressive of the thanks of the teachers to the citizens of that section for their hospitality, and to Prof. Burrel for his address, were adopted.

We will take this occasion to say that, although ever willing to lend our aid in advancing the cause of education to any reasonable extent, yet we cannot insert, in detail, the "Minutes" of Institutes, as they would occupy entirely too much of our space, to the exclusion of other matter, which we consider of at least equal importance and interest to our readers, especially when they are framed in the bombastic phrazeology which characterize some that we have received.

combined with other substances of still greater al-terative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will assemble the complete the line after the later which will accomplish their cure must prove of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the

worst cases to be found of the following complaints: Scrofula and Scrofulous complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic affections, Mercurial Disease, Dropsy. Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion. Erysipelas, Rose or St. Antho-ny's Fire, and indeed the whole class of com-plaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which foster in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiaed blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the body healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or altogether overthrown.

Sarsaparilla has, and deserves much, the repu tation, of accomplishing these ends. But the world has been egregiously deceived by prepara-tions of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of

the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Ex-tract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no cu-rative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the lead of obloquy which rests upon it. And we think we have good ground for believing it has virtues which are irresistable by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1 per Bottle; Six Bottles for \$5.

AYER'S CHERRY PECTORAL, has won for itself such a renown for the cure of every variety of Throat and Lung complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people that its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
