For the "Raftsman's Journal." ANY MAN MAY BE AS LEARNED AS HE PLEASES.

Professor.-Yes; you may lay it down as a principle confirmed by universal experience, that you can understand any truth, however complex, provided you have sufficient patience. Student. What! Do you say it is possible for me to understand any truth, however diffi-

cult? Prof. Yes; provided you have the patience

Stu. You surprise me, indeed; I wish I could think so of myself.

P. You may think so, and believe it; for this reason, that the most complex truth is only a number of simple truths combined.

S. Then, you mean, if I understand the simple truths which make up a complex one, I can also understand the complex one? P. Decidedly; provided you have the pa-

tience. S. But surely complex truths are more dif-

ficult to understand than simple ones? P. Of course; but the more complex they are, you are only to have the more patience, and your efforts will be crowned with success. S. I see, it is of great importance to have

P. Yes; of the utmost importance. Sir Isaac Newton once said, that if he had done anything in science worthy of notice it was

P. He could have understood scarcely anything, had he not had patience in a high de-

S. If then a man had the patience of Newton, might he be as great as Newton?

P. That does not exactly follow; but he might in time, accomplish great things.

S. Then, may I expect to master my present studies, if I give all attention, and be patient and persevering?

P. You may; and with perfect confidence of complete success.

S. Can you suggest any rule as to how ! should study?

P. As a general rule, do as Newton did. "I keep," said he, "the subject constantly before me, and wait till the first dawnings open slowly, by little and little, into a full and clear light."

TAMMONTON LANDS .- New England wanting Farms-in a healthy place. twenty-five miles from Philadelphia, on the Camden and Atlantic Railroad, New Jersey. An old estate has prices, by the barrel or otherwise, to suit purrecently been opened for sale, and the first divicing chasers, consisting of the following: sion of 10,000 acres divided up into farms of 20 aeres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$20 per acre, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good ronds, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia Seventy-five houses have been built in 4 months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important busi-ness place, on account of its being in the midst of a great market. Every article raised on this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops pro-duced both upon this land and the grea adjoining under cultivation. it will be found not to be excelled anwhere in the production of crops most adapted to its market. The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order get a place to live in at first. Carpenters and builders are on hand to put up houses on the best terms.
In settling here the emigrant has many advanages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate and an open winter. There are three trains daily to Philadelphia,

and to all those who improve the railroad company gives a free ticket. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reaon is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing This all are expected to do. They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will a general assortment of Confectionaries, such as witness the improvements, and can judge of the character of the population. Persons sh prepared to purchase, as many are locating, and locations are not held on refusal.

The Hammonton Farmer, a monthly literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cents per annum. Title indisputable. Warrantee deeds given,

clear of all incumbrance, when purchase money is paid. Route to the land :-Leave Vine street wharf, Philadelphia, for Hammonton by railroad at 7½, A. M., and 5½, P. M.; when there inquire for Mr. Lyrnes. Boarding conveniences will be found. Betters and applications can be addressed to S B COUGHLIN, 202 South Fifth Street below Walnut, Philadelphia. Maps and information cheerfully furnished. Sept. 8, 1858-3m. SALT .- A large quantity of SALT just received, and which will be sold very cheap for

THE NEW YORK TRIBUNE, 1858-9. The successful laying of the trans-Atlantie Telegraph Cable marks a new era in the history of Human Progress. Henceforth, Europe, West ern Asia and Northern Africa lie within an hours' distance from our shores, and the battle which decides the fate of a kingkom, the capture of a Vienna or Giberaltar, the fall of a dynasty, the tri-umph of a usurpation, the birth of an heir to royalty, the death of a Nicholas or Wellington, in any country which touches the Mediterranean, the Euxine, the Black Sea or the German Ocean, will be published in New-York the next morning, if not on the very day of its occurrence. In a moment as it were, we have been thrown into the immediate intellectual neighborhood of the whole civilized and a large portion of the semi-barbarous world. The rise and fall of stocks in London or Paris will henceforth be reported from day to day in the jour-nals of our seaboard cities. The boldest operators in Wall-street will refuse to buy or sell until they have read the quotations of that day's business on the Royal Exchange and at the Bourse, whose transactions will have closed an hour or so before ours can begin. A revolution in Paris, an impor-tant vote in Parliament, an insurrection in Italy, a fire in Constantinople, will be discussed around the breakfast-tables of New Xork a few hours after its occurrence. A mighty though silent transformation in the condition of human existence has just been effected by the little wire stretching a-cross the ocean's bed from the coast of Ireland to that of British America, and one inevitable result of this must be an unexampled community of feeling and interest among the nations of Christen-dom, and a consequent desire for a more intimate aqcuaintance with each other's doings through the medium of the Newspaper Press. It seems hardly possible that thousands should not henceforth regularly read their own journals, who have hitherto been content with an occasional glange at those taken by their neighbors; while many who have hitherto been content with a Weekly issue will now require a Semi-Weekly or Daily. In short, Intelligence, always a vital element of

has now become indispensable to all.

The New York Teibune, now more than seventeen years old, which was the first journal in the world that appeared regularly on an imperial 8-page sheet at so low a price as two cents, and which has attained the unparalleled aggregate of more than 200.000 subscriptions, respectfully solicits its share of the new patronage which the Metropolitan Press is henceforth constrained, at a heavy weekly cost, to deserve. It asks especially the patronage and active favor of Republicans—of these who hate all forms of oppression, and desire that every rational being shall be free to employ his faculties in such innocent manner as he shall deem best -of those who would extend Liberty and limit Slavery-but it further appeals likemise to all who look and labor for the return of 'National thrift, plenty, prosperity, through the Protection of A-merican Industry by wisely discriminating duties on Imports—all who favor National Progress that internal development and amelioration rather than by external aggression and extension-all who would rather have the National resources devoted to the construction of a Railroad to he Paeific than to the purchase or conquest of Mexico. Nicaragua or Cuba—all who would retrench radically our present inordinate Federal expenditures by abolishing or immensely reducing the Army and Navy, and expending the money thus saved on works of beneficence which will endure to bless our children-all who profoundly realize that "Righteousness exalteth a nation," and that a real advantage can ever accrue to any person or community from acquisitions or successes achieved by means which contravene the laws of Eterna Right The free allotment of limited po. 1. ons ... the Public Lands to Actual Settlers thereon and every hopeful plan intended to diminish the soun of human misery from dearth of employment or inadequate recompense—every scheme especially that seeks to help the unfortunate by enabling and teaching them to help themselves-must communicate

wisdom, success in business, or enjoyment in life,

our earnest sympathy and co-operation. Within the present year. The Tribune has provi ded itself with a new and faster Press at a cost \$30,000, merely that some of our subscribers may receive their papers a mail earlier than they otherwise might do. With correspondents at the most important points throughout the civilized world, and a staff of writers chosen from among the best in the country, we believe that even those who dislike the politics of our sheet concede to it frankness in avowing its convictions and ability in main-taining them. We appeal, then, to those who believe that an increased circulation of The Tribuna would conduce to the political, intellectual and moral well-being of the Republic, to aid in effect ing such increase. As we employ no travelling solicitors of subscriptions, we ask our present pa-trons in every locality to speak to their neighbors and friends in our behalf; we shall gladly receive from any friend lists of those who would receive and read a specimen copy of one of our editions and shall be particularly grateful to those who may send us such names from post offices at which we have no subscribers. Whatever additions may thus be made to our circulation shall be paralleled by increased efforts and expenditures to make our issues more valuable and useful than

they have hitherto been. The Tribune is printed on a large imperial sheet, folded in quarto form, and mailed to subscribers on the following TERMS:
