SCHOOL REPORT.

The following is a report of School No. 6, in Morris township, known as the Swartz school, as kept from day to day, during the winter term. The number placed opposite each name, signifies his or her standing in the class to which they belong. No. 1, being very good; 2, good; 3, middling; 4, poor; 5, very poor.

Elizabeth Maffitt, 1 | Noah F. Brown, The above is a correct statement of the recitations in these classes. It will be seen, however, that no reading or spelling classes are given, and I would say to my school, the reason of this is, that it would take too much

This school for some time past, has been on the decline, made so, it may have been, from Brady, . . incorrect reports; but I think I can say with truth, that there is not a better school in the Burnside, township. I had upwards of forty scholars, in all, (quite a number of whom were small, and consequently not in the report,) and a Dictionsry class, of eighteen or twenty in number, that could compete with any class in the township. This school, it is true, is not a very large one, but the scholars are kind, wellbehaved, and studious; and if properly cared for, and furnished with the right kind of teachers, will turn out some as fine scholars, as any school in the county.

ANTI-BAD LUCK SOCIETY .- From the earliest times to the present, superstition has been an ever-present quality of the human mind, and persons who were themselves superstitious have loudly decried it in others. This was their idea of reform. Even in this enlightened age, the old household beliefs are held by many with great pertinacity, and no argument will convince them of their fallacy. The only way to do this is to prove the position that the belief is nonsense, by a bold defiance. Some brave Frenchmen are trying to do this. A society has been formed at Bordeaux to put down the superstition of evil omens. As everybody knows, It is "bad luck" to begin anything on a Friday, or to sit down at a table with thirteen, or to balance your chair on one leg,or to spill salt between yourself and friend. The new society propose to have regular dinners on Friday, to have thirteen guests, to turn chairs on one leg, and spill salt around before commencing. In the whole year, during which ill-luck has been thus defied, no

TEMPERANCE IN RUSSIA .- So many of the peasants of Kovno, and the neighboring provinces, have become members of total abstinence societies that the men who hold the monopoly of the brandy traffic fear very much that they will not be able to pay the sums which they have agreed to pay for this monopoly. This extraordinary movement is attributed by some to the influence of the clergy; others think that it is produced by the approaching emancipation, the peasants now having some object in accumulating property.

single fatality has occurred to any member.

A gang of counterfeiters has recently been broken up in Essex county, New York. Upon the person of one of the prisoners was found a book containing the rules and regulations of the "Mystic Circle of Alchemy," but principally devoted to an explanation of Solvent Banks, the process of galvanism and electrotyping. It is supposed that the book has been widely circulated, and many of the most respectable farmers of Essex and the adjoining counties are suspected of having abandoned their honest labor for the manufacture of bogus coin.

GROWTH OF LONDON .- By the report of the Registrar-General for 1858, we learn that London has a population of 2,876,000, and it is now the largest city in the whole world. In 1801, its population was only 958,000, so that its increase has been very rapid for an old European city. The city covers a space of 121

A YER'S SARSAPARILLA, a compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater al-terative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it has been proven by experiment on many of the

worst cases to be found of the following complaints: Scrofula and Scrofulous complaints. Eruptions nd Eruntive Diseases Clears fumors, Salt Rheum, Seald Head, Syphilis and Syphilitic affections, Mercurial Disease, Dropsy. enralgia or Tie Douloureux, Debility, Dyspep and Indigestion, Erysipelas, Rose or St. Antho ny's Fire, and indeed the whole class of comlaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which foster in the blood at that seaon of the year. By the timely expulsion of them many rankling disorders are nipped in the bud Multitudes can, by the nid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will drive to rid itself of corruptions, if not assisted to do this through the natural channels of the body y an alterative medicine. Cleanse out the vitia ed blood whenever you find its impurities burst ng through the skin in pimples, eruptions, or sores leanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood keep the body healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or altogether overthrown.

Sarsaparilla has, and deserves much, the repu tation, of accomplishing these ends. But the world has been egregiously deceived by prepara-tions of it, partly because the drug alone has not all the virtue that is claimed for it, but more cause many preparations, pretending to h concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick. for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and pain ful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have good ground for believing it has virtues which are irresistable by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judi-

ciously taken according to directions on the bottle.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Price \$1 per Bottle; Six Bottles for \$5. AYER'S CHERRY PECTORAL, has won for itself such a renown for the cure of every variety of Throat and Lung complaint, that it is entirely unnecessary for us to recount the evidence virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure this section, we need not do more than assure the people that its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

AYER'S CATHARTIC PILLS, for the cure of Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood. They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic. Price 25 cents per Box; Five Boxes for \$1.00.

Great numbers of Clergymen, Physicians, Statesnen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the in-sertion of them. The Agents below named furnish gratis our American Almonac in which they are given; with also full descriptions of the above omplaints, and the treatment that should be folowed for their cure. Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand Aven's and take no others. The sick want the best aid there is for them, and they should have it.

All our Remedies are for sale by C D. Watson and M. A. Frank, Clearfield; E. F. Brenner, Morrisdale ; C. R. Foster, Philipsburg ; John Bing. Unionville: Wm. THE NEW YORK TRIBUNE, 1858-9. The successful laying of the trans-Atlantic Telegraph Cable marks a new era in the history of Human Progress. Henceforth, Europe, West-ern Asia and Northern Africa lie within an hours distance from our shores, and the battle which docides the fate of a kingkom, the capture of a Vienna or Giberaltar, the fall of a dynasty, the triumph of a usurpation, the birth of an heir to royalty, the death of a Nicholas or Wellington, in any country which touches the Mediterranean, the Euxine, the Black Sca or the German Ocean, will be published in New-York the next morning, if ner on the very day of its occurrence. In a moment as it were, we have been thrown into the immediate intellectual neighborhood of the whole civilized and a large portion of the semi-barbarous world The rise and fall of stocks in London or Paris will henceforth be reported from day to day in the journals of our seaboard cities. The boldest operators in Wall-street will refuse to buy or sell until they have read the quotations of that day's business on the Royal Exchange and at the Bourse, whose transactions will have closed an hour or so before ours can begin. A revolution in Paris, an important vote in Parliament, an insurrection in Italy a fire in Constantinople, will be discussed around the house has been recently refitted, improved | the breakfast-tables of New York a few hours after its occurrence. A mighty though silent transformation in the condition of human existence has just been effected by the little wire stretching across the ocean's bed from the coast of Ireland to that of British America, and one inevitable result of this must be an unexampled community of feeling and interest among the nations of Christendom, and a consequent desire for a more intimate aqcuaintance with each other's doings through the medium of the Newspaper Press. It seems hardly possible that thousands should not henceforth regularly read their own journals, who have hitherto been content with an taken by their neighbors; while many who have hitherto been content with a Weekly issue will now require a Semi-Weekly or Daily.

> has now become indispensable to all.
>
> The New York Tribune, now more than seventeen years old, which was the first journal in the world that appeared regularly on an imperial 8page sheet at so low a price as two cents, and which has attained the unparalleled aggregate of more than 200,000 subscriptions, respectfully solicits its share of the new patronage which the Metropolitan Press is henceforth constrained, at a heavy weekly ost, to deserve. It asks especially the patronage and active favor of Republicanshate all forms of oppression, and desire that every rational being shall be free to employ his facul ties in such innocent manner as he shall deem best —of those who would extend Liberty and limit Slavery-but it further appeals likemise to all who look and labor for the return of National thrift, plenty, prosperity, through the Protection of American Industry by wisely discriminating duties on Imports—all who favor National Progress thro internal development and amelioration rather than by external aggression and extension-all who would rather have the National resources devoted to the construction of a Railroad to the Paeific than to the purchase or conquest of Mexico. Nicaragua or Cuba—all who would retrench radically our present inordinate Federal expenditures by abolishing or immensely reducing the Army and Navy, and expending the money thus saveu on works of beneficence which will endure to bless our children-all who profoundly realize that Righteousness exalteth a nation," and that no real advantage can ever accrue to any person or ommunity from acquisitions or successes achieved by means which contravene the laws of Eternal Right The free allotment of limited postrons of the Public Lands to Actual Settlers thereon, and every hopeful plan intended to diminish the sum of human misery from dearth of employment or nadequate recompense-every scheme especially that seeks to help the unfortunate by enabling and teaching them to help themselves-must command

Intelligence, always a vital element of growth in

wisdom, success in business, or enjoyment in life,

our earnest sympathy and co-operation.

Within the present year, The Tribune has provided itself with a new and faster Press at a cost of \$30,000, merely that some of our subscribers may receive their papers a mail earlier than they otherwise might do. With correspondents at the most important points throughout the civilized world, and a staff of writers chosen from among the best in the country, we believe that even those who dis-like the polities of our sheet concede to it frankness in avowing its convictions and ability in main-taining them. We appeal, then, to those who believe that an increased circulation of The Tribune would conduce to the political, intellectual and moral well-being of the Republic, to aid in effecting such increase. As we employ no travelling solicitors of subscriptions, we ask our present patrons in every locality to speak to their neighbors and friends in our behalf; we shall gladly receive from any friend lists of those who would receive and read a specimen cover of the second read as preciment again. a specimen copy of one of our editions, and shall be particularly grateful to those who may send us such names from post offices at which we have no subscribers. Whatever additions may thus be made to our circulation shall be paralleled by increased efforts and expenditures o make our issues more valuable and useful than they have hitherto been.
